Imagining a Nation Ruramisai Charumbira, 2015-09-29 In *Imagining a Nation* Ruramisai Charumbira analyzes competing narratives of the founding of Rhodesia Zimbabwe constructed by political and cultural nationalists both black and white since occupation in 1890 The book uses a wide array of sources including archives oral histories and a national monument to explore the birth of the racialized national memories and parallel identities that were in vigorous contention as memory sought to present itself as history In contrast with current global politics plagued by divisions of outsider and insider patriot and traitor Charumbira invites the reader into the liminal spaces of the region's history and questions the centrality of the nation state in understanding African or postcolonial history today Using an interdisciplinary methodology Charumbira offers a series of case studies bringing in characters from far flung places to show that history and memory in and of one small place can have a far reaching impact in the wider world The questions raised by these stories go beyond the history of colonized or colonizer in one former colony to illuminate contemporary vexations about what it means to be a citizen patriot or member of a nation in an ever globalizing world Rather than a history of how the rulers of Rhodesia or Zimbabwe marshaled state power to force citizens to accept a single definition of national memory and identity *Imagining a Nation* shows how ordinary people invested in the soft power of individual social and collective memories to create and perpetuate exclusionary national myths *Reconsiderations in Southern African History* **Acts of the Legislature of the State of New Jersey** New Jersey, 1912 American Legal News, 1921 **The True Secret of Our Nation's Progress** William G.
