ORIGINS OF THE PUT DOWN OF WOMEN

Richard Roberts

"Using current scientific thinking to support one's ideas on our social and spiritual evolution is a fine art indeed. Richard Roberts has succeeded in this very readable treatise. His words on diet, nutrition, exercise, and health are particularly timely."

— Dr. David Edell

"Roberts' revelation throws valuable light on the mythic origins and astronomical connections of the biblical Tree, its guardian Serpent, and their relation to the moment of Man's "Fall," when Time began and the heavens commenced to revolve around the still point of this axial star."

— Joseph Campbell

From Eden to Eros Richard Roberts,1985 **The Rise and Fall of Paradise** I. K. Fleming,2015-12-14 Paradise or the ordered universe or the cosmos began with the discovery of time and its revelation that the universe operates according to universal laws As Earth's people endeavored to live in harmony with these newfound principles Paradise evolved into a religion as well as a science and its truths were meticulously recorded in the myths and symbols that are the archives of preliterate peoples worldwide The Rise and Fall of Paradise follows Paradise from its distant prehistoric beginnings through the many millennia of its evolution to its destruction in the Fall Though now deemed irretrievably lost enough of the ancient Paradise's scattered symbolism survives to offer an alternative perspective on how life might be lived on this Earth

Lilith's Fire Deborah Grenn-Scott,Cosi Fabian,2000-07 In Lilith's Fire Grenn Scott examines why and how modern women are still demonized identified as bad for actions perceived as reasonable for men through techniques used for thousands of years and how women have started to reverse this tendency by redefining right and wrong Demonization she notes has been effective controlling manipulating and dividing women to keep them powerless pitting Lilith against Eve good girl against bad girl and as a means of keeping one group religion or idea dominant over another In dismantling this technique the author shows that portrayals of women as innately evil undermine the self confidence of all women and in turn their ability to take risks assume leadership or claim power from bedroom to boardroom She provides strong models for women of a more proud sensual confident way of being along the way she poses difficult questions such as How can women become more aware that they have choice Do we give our religious and spiritual leaders too much power How do we make change in our own lives and in the world What forms of social action are most effective Lilith's Fire opens a dialogue that the author hopes may lead to some answers as it offers women a transformational tool to help them recognize appreciate and draw on the strength and creativity of their own life force the first step in creating positive change [A Midsummer Night's](#)

schools of Shakespeare scholarship have emerged each with its own ideology each convinced that all other approaches are deficient This controversial book argues that in attempting to appropriate Shakespeare for their own purposes these schools omit and misrepresent Shakespeare's text and thus distort it Brian Vickers describes the iconoclastic attitudes emerging in French criticism of the 1960s that continue to influence literary theory that language cannot reliably represent reality that literature cannot represent life that since no definitive reading is possible all interpretation is misinterpretation Vickers

shows that these positions have been refuted and he brings together work in philosophy linguistics and literary theory to rehabilitate language and literature He then surveys the main conflicting schools in Shakespearean and other current literary criticism deconstructionism feminism new historicism cultural materialism and psychoanalytic Marxist and Christian interpretations describing the theoretical basis of each school both in its own words and in those of its critics Evaluating the resulting interpretations of Shakespeare he shows that each is biased and fragmentary in its own way The epilogue considers two related issues the attempt of current literary theory to present itself as a coherent system while at the same time wishing to evade accountability and the way in which different schools demonize their rivals thus adding an intolerant tone to much recent criticism

Modern Love Marcus Collins, 2006-06 Private life has altered beyond all recognition during the past one hundred years Britain in 1900 was emerging from a Victorian era in which prudery patriarchal authority and pettifogging rules of etiquette were widely perceived to have circumscribed relations between men and women The twentieth century witnessed a reaction against this system of separate spheres spearheaded by reformers eager that the sexes become each other's equals and intimates Modern Love traces the trajectory of this new model of personal relationships over the course of the twentieth century from its emergence out of the crucible of the suffrage campaign through its reshaping by the women's liberation movement It explores its impact on smut merchants warring couples and teenagers as well as its reception by such diverse figures as Bertrand Russell and Germaine Greer It draws on sources as varied as suffragette propaganda banned sex manuals marriage counseling literature and pin up magazines Marcus Collins teaches modern British history at Emory University
