From Main Street To The Left Bank Students And Scholars Abroad:

From Main Street to the Left Bank John Arthur Garraty, Walter Adams, 1959 This is the second of a series which the Institute of Research Overseas at Michigan State University is producing on the international programs of American universities The authors highlight many insights that those involved in planning and evaluating current educational exchange programs should be kept in mind programs should require significant intellectual effort the impact of educational exchange is upon visiting scholars not the host culture Americans need to know a great deal more about other peoples and their cultures benefits of educational exchanges increase as the student gains intellectual maturity and the ability to work independently and at the professor level it would be better to cultivate and promote exchanges developing naturally among scholars Attention to these points would greatly benefit designers of educational exchange recruitment campaigns **New Dimensions in Higher Education** United States. Office of Education. Division of Higher Education, 1960 We'll Always Have Paris Harvey Levenstein, 2010-03-15 For much of the twentieth century Americans had a love hate relationship with France While many admired its beauty culture refinement and famed joie de vivre others thought of it as a dilapidated country populated by foul smelling mean spirited anti Americans driven by a keen desire to part tourists from their money We'll Always Have Paris explores how both images came to flourish in the United States often in the minds of the same people Harvey Levenstein takes us back to the 1930s when despite the Great Depression France continued to be the stomping ground of the social elite of the eastern seaboard After World War II wealthy and famous Americans returned to the country in droves helping to revive its old image as a wellspring of sophisticated and sybaritic pleasures At the same time though thanks in large part to Communist and Gaullist campaigns against U S power a growing sensitivity to French anti Americanism began to color tourists experiences there strengthening the negative images of the French that were already embedded in American culture But as the century drew on the traditional positive images were revived as many Americans again developed an appreciation for France s cuisine art and urban and rustic charms Levenstein in his colorful anecdotal style digs into personal correspondence journalism and popular culture to shape a story of one nation s relationship to another giving vivid play to Americans changing response to such things as France s reputation for sexual freedom haute cuisine high fashion and racial tolerance He puts this tumultuous coupling of France and the United States in historical perspective arguing that while some in Congress say we may no longer have french fries others like Humphrey Bogart in Casablanca know they will always have Paris and France to enjoy and remember Study Abroad Irwin Abrams, 1960 Bulletin United States. Office of Education, 1961 *Internationalism, National Identities, and Study Abroad* Whitney Walton, 2009-12-02 This book the first long term study of educational travel between France and the United States suggests that by studying abroad ordinary people are constructively involved in international relations Author Whitney Walton analyzes study abroad from the perspectives of the students schools governments and NGOs involved and charts its changing

purpose and meaning throughout the twentieth century She shows how students preconceptions of themselves their culture and the other nationality particularly differences in gender roles shaped their experiences and were transformed during their time abroad This book presents Franco American relations in the twentieth century as a complex mixture of mutual fascination apprehension and appreciation an alternative narrative to the common framework of Americanization and anti Americanism It offers a new definition of internationalism as a process of questioning stereotypes reassessing national identities and acquiring a tolerance for and appreciation of difference **Bulletin** ,1961 **American Studies Abroad** United States Advisory Commission on International Educational and Cultural Affairs,Walter Johnson,1963 **New Dimensions in Higher Education: 6, Study Abroad** United States.
