From Marcos to Aquino Benedict J. Kerkvliet, Resil B. Mojares, 1991 **Fantasy Production** Neferti Xina M.

Tadiar, 2004-03-01 Taking an innovative postcolonial feminist perspective on transformations in the Philippine nation in the context of globalization Fantasy Production provides a theoretical framework for understanding the nationalist and postcolonial capitalist logics shaping the actions of the Philippines as a nation state Tadiar probes the consequences of dominant Philippine imaginations by examining a broad range of phenomena which characterize the contemporary Philippine nation including the mass migration overseas of domestic workers the prostitution economy urban restructuring the popular revolt toppling the Marcos dictatorship as well as various works of art poetry historiography and film This will be one of the first books available widely in English that provides a sustained theoretical engagement with the cultural dimensions of contemporary socio political and economic developments in the Philippines The Rise of the Corporate Economy in Southeast Asia Rajeswary Ampalavanar Brown, 2007-01-24 The Rise of the Corporate Economy in Southeast Asia surveys the growth of large corporations in Southeast Asia focusing in particular on corporate organization methods of finance the business environment and corporate governance It details the different phases of corporate and financial development particularly liberalization and globalization from the mid 1980s the 1997 crisis and subsequent attempts at liberalization and the reform of corporate governance Raj Brown considers the key themes of the rise of the Southeast Asian corporate economy and illustrates the theoretical issues through deployment of carefully selected country specific case studies from across the region An examination of critical subjects include the variety of corporate forms found in Southeast Asia issues of ethnicity the concentration of ownership particularly among families links between the state the military banks and corporations state owned enterprises and forms of state control the role of foreign capital Providing a comprehensive analysis of the rise of the corporate economy in Southeast Asia this study will be an important resource for students of the region and those concerned with theoretical issues of corporate governance In the Name of Civil Society Eva-Lotta Hedman, 2005-11-30 In the Name of Civil Society examines Philippine politics in a highly original and provocative way Hedman s detailed analysis shows how dominant elites in the Philippines shore up the structures of liberal democracy in order to ensure their continued hegemony over Philippine society This book will be of interest to everyone concerned with civil society and the processes of democratization and democracy in capitalist societies Paul D Hutchcroft University of Wisconsin Madison What is the politics of civil society Focusing on the Philippines home to the mother of all election watch movements the original People Power revolt and one of the largest and most diverse NGO populations in the world Eva Lotta Hedman offers a critique that goes against the grain of much other current scholarship Her highly original work challenges celebratory and universalist accounts that tend to reify civil society as a unified and coherent entity and to ascribe a single meaning and automatic trajectory to its role in democratization She shows how mobilization in the name of civil society is

contingent on the intercession of citizens and performative displays of citizenship as opposed to other appeals and articulations of identity such as class In short Hedman argues the very definitions of civil and society are at stake Based on extensive research spanning the course of a decade 1991 2001 this study offers a powerful analysis of Philippine politics and society inspired by the writings of Antonio Gramsci It draws on a rich collection of sources from archives interviews newspapers and participant observation It identifies a cycle of recurring crises of authority involving mounting threats from above and below to oligarchical democracy in the Philippines Tracing the trajectory of Gramscian dominant bloc of social forces Hedman shows how each such crisis in the Philippines promotes a countermobilization by the intellectuals of the dominant bloc the capitalist class the Catholic Church and the U S government In documenting the capacity of so called secondary associations business lay professional to project moral and intellectual leadership in each of these crises this study sheds new light on the forces and dynamics of change and continuity in Philippine politics and society *A Generation Later* James F. Eder, 1999-08-01 *A Generation Later* moves beyond analytical models of rural change that focus on the peasant agricultural aspect of rural communities and makes a convincing case for an approach that integrates farm and nonfarm occupations and does justice to the conditions of occupational multiplicity that characterize to an increasing extent many of the rural communities in Asia In this context it challenges conventional and simplistic peasant to proletarian views of change Rather than finding a dreary and dispirited landscape of sameness and hardship it offers some empirical support for a more optimistic view of the region's future one of growing household prosperity and widespread individual opportunity

Agrarian Reform in the Philippines Jeffrey M. Riedinger, 1995 This book evaluates the capacity of new democratic regimes to promote redistributive agrarian reform an issue of contemporary concern in countries throughout the world Agrarian reform is particularly complex and difficult for new democracies because it curtails the power and privileges of influential elements of society The author analyzes the problems attendant on political liberalization and social and economic reform by examining in detail the formulation and implementation of agrarian reform in the Philippines under the governments of Corazon Aquino and her successor Fidel Ramos The book explores how the interaction between state and society shapes reform policy decisions paying close attention to the role of cultural variables and social organizations It shows that what is needed for successful agrarian reform is a combination of sustained forceful leadership from a disciplined reform oriented political party and grassroots agitation by peasant organizations **Vote Buying in Indonesia**

Burhanuddin Muhtadi, 2019-05-07 This book is open access under a CC BY 4.0 license This book investigates the impact of vote buying on the accountability of democratic institutions and policy representation in newly democratic countries with a focus on Indonesia In doing so the book presents a wide ranging study of the dynamics of vote buying in Indonesia's young democracy exploring the nature extent determinants targeting and effectiveness of this practice It addresses these central issues in the context of comparative studies of vote buying arguing that although party loyalists are disproportionately

targeted in vote buying efforts in total numbers given the relatively small number of party loyalists in Indonesia vote buying hits more uncommitted voters It also demonstrates that the effectiveness of vote buying on vote choice is in the 10 percent range which is sufficient for many candidates to secure a seat and thus explains why they still engage in vote buying despite high levels of leakage

Moral Politics in the Philippines Wataru Kusaka,2017-02-17 The people famously ousted Ferdinand Marcos from power in the Philippines in 1986 After democratization though a fault line appeared that split the people into citizens and the masses The former were members of the middle class who engaged in civic action against the restored elite dominated democracy and viewed themselves as moral citizens in contrast with the masses who were poor engaged in illicit activities and backed flawed leaders The masses supported emerging populist counter elites who promised to combat inequality and saw themselves as morally upright in contrast to the arrogant and oppressive actions of the wealthy in arrogating resources to themselves In 2001 the middle class toppled the populist president Joseph Estrada through an extra constitutional movement that the masses denounced as illegitimate Fearing a populist uprising the middle class supported action against informal settlements and street vendors and violent clashes erupted between state forces and the poor Although solidarity of the people re emerged in opposition to the corrupt presidency of Gloria Macapagal Arroyo and propelled Benigno Aquino III to victory in 2010 inequality and elite rule continue to bedevil Philippine society Each group considers the other as a threat to democracy and the prevailing moral antagonism makes it difficult to overcome structural causes of inequality

Democratic Equilibrium Michael W. Fowler,2015-11-12 Democratic Equilibrium The Supply and Demand of Democracy defines a model for political change change that results in either an increase or decrease in democracy The book presents a model that builds

upon the existing literature to bridge several major gaps in political change theory This book provides a holistic supply and demand model that draws upon works from political science economics and history The work conducts an econometric test of the model and validates the results with field research cases from Mexico the Philippines and Senegal The econometric chapter is a rare quantitative analysis of the effects of violence and development upon democracy This topic is central to contemporary academic and policy debates about how to create democracies consolidate democracies achieve development and improve security especially within developing countries This topic is especially timely as the Arab Spring represents a unique opportunity and challenge for democratic change across the Middle East and North Africa Recent events in Tunisia and Egypt demonstrate that democracy studies remain just as relevant today as they were twenty years ago The findings indicate that common structural explanations of democracy are incomplete since the structural relationships are not stable or constant over time Instead democratic change or lack thereof can be explained using a supply and demand model Key actors including the military political parties NGOs the ruling regime and civil society are the suppliers and consumers that determine a country's resulting level of democracy However stating that actors are important is a major oversimplification Each key actor builds preferences based upon a variety of factors most importantly security income and the adoption of democratic norms It is this key dynamic that explains why insurgency poverty and under development do not have a linearly negative effect on democracy Instead these factors have a centripetal effect on political development pulling a country's government towards an intermediate state of political transition in which regimes stagnate in a partially democratic partially autocratic regime type Conversely the model also explains why high income democratic norms and security do not necessarily lead to democratization in all cases

Political Legitimacy in Southeast Asia Muthiah Alagappa, 1995

Despite the end of the Cold War security continues to be a critical concern of Asian states Allocations of state revenues to the security sector continue to be substantial and have in fact increased in several countries As Asian nations construct a new security architecture for the Asia Pacific region Asian security has received increased attention by the scholarly community But most of that scholarship has focused on specific issues or selected countries This book aims to lay the groundwork for a comprehensive in depth understanding of Asian security by investigating conceptions of security in sixteen Asian countries The book undertakes an ethnographic country by country study of how Asian states conceive of their security For each country it identifies and explains the security concerns and behavior of central decision makers asking who or what is to be protected against what potential threats and how security policies have changed over time This inside out or bottom up approach facilitates both identification of similarities and differences in the security thinking and practice of Asian countries and exploration of their consequences The crucial insights into the dynamics of international security in the region provided by this approach can form the basis for further inquiry including debates about the future of the region

Political Authority and Provincial Identity in Thailand Yoshinori Nishizaki, 2018-08-06

The powerful Thai politician Banharn Silpa

archa has been disparaged as a corrupt operator who for years channeled excessive state funds into developing his own rural province This book reinterprets Banharn s career and offers a detailed portrait of the voters who support him Relying on extensive interviews the author shows how Banharn s constituents have developed a strong provincial identity based on their pride in his advancement of their province Suphanburi which many now call Banharn buri the place of Banharn Yoshinori Nishizaki s analysis challenges simplistic perceptions of rural Thai voters and raises vital questions about contemporary democracy in Thailand Yoshinori Nishizaki s close and thorough examination of the numerous public construction projects sponsored and even personally funded by Banharn clearly illustrates this politician s canny abilities and tireless meticulous oversight of his domain Banharn s constituents are aware that Suphanburi was long considered a backward province by other Thais notably the Bangkok elite Suphanburians hold the neglectful central government responsible for their province s former sorry condition and humiliating reputation Banharn has successfully identified himself as the antithesis to the inefficient central state by promoting rapid development and advertising his own role in that development through well publicized donations public ceremonies and visits to the sites of new buildings and highways Much standard literature on rural politics and society in Thailand and other democratizing countries in Southeast Asia would categorize this politician as a typical strongman the boss of a semiviolent patronage network that squeezes votes out of the people That standard analysis would utterly fail to recognize and understand the grassroots realities of Suphanburi that Nishizaki has captured in his study This compassionate well grounded analysis challenges simplistic perceptions of rural Thai voters and raises vital questions about contemporary democracy in Thailand

Democratic Revolutions Mark K. Thompson,2003-11-20 Despite enormous differences between Asia and Eastern Europe there are striking similarities between the peaceful spontaneous urban based and cross class democratic uprisings against unyielding dictatorships that have occurred in the two regions The book explores the kind of non democratic regimes that are particularly vulnerable to democratic revolutions It examines why and how democrats rebel and what the results of democratic revolutions have been Questions posed in this book include Why were communist rulers shot in China but not in Eastern Europe Why did stolen elections lead to the overthrow of Miloevic in Serbia Why have there been so many women leading democratic revolutions in Asia This book attempts to democratize theories of revolution and revolutionize democratic transitions Cases and comparisons are drawn from 15 democratic revolutions over the last two decades and the book includes in depth studies of East Germany China Serbia and the Philippines

Political Business in East Asia Edmund Gomez,2003-09-02 The relationship between government and business has become a central issue in East Asia since the financial crisis of 1997 As the Asian economies try to advance the reform process recent scandals involving corruption and cronyism have demonstrated the ongoing significance of the issue This edited book features a range of distinguished international specialists and explores the interaction between politics and business across the region Detailed case studies focus on Japan China South Korea Malaysia Thailand Singapore and

Indonesia This is the first comprehensive introduction to government business relations in the region and makes a significant contribution to our understanding of the problems faced by the Asian economies **The Statesman's Year-Book, 1996-7** B.
