Mesopotamian texts are mythology the research was carried out under the premise that their content corresponds to real events Analysis of academic translations of the texts revealed that many details critical to understanding the story have not been revealed An exhaustive analysis of the data determined the most probable dates of the events The book presents the events related to the arrival of the Anunnaki to Earth and the consequences of their mission chronologically according to findings in Mesopotamian texts and ancient books Various sources including apocryphal books reports from ancient historians scientific research and archaeological records supplemented the research Many riddles were decoded including who the Anunnaki and the Igigi watchers Nephilim were Why when and how did H sapiens originate how did the other species arise and why did they become extinct Why and when did the Anunnaki arrive and finally leave Earth When will the planet Nibiru return to our area in the inner solar system The results and findings of this research deserve to be known due to the probability that the stories in the Mesopotamian texts really happened The book s proposals differ from what we have learned in educational institutions about the origin of humanity and invite critical thinking to reflect on the history of the Anunnaki gods Enthusiastic readers of the extraterrestrial theme will find innovative proposals Vedic Cycles of the Stock Market, Volume 1: Monthly Forecasts Swami Ram Charan, The Secret Doctrine: Anthropogenesis Helena Petrovna Blavatsky,1902 *The Secret Doctrine, Volume II.
