From Louis XIV To Napoleon The Fate Of A Great Power:

From Louis XIV to Napoleon Professor Jeremy Black, Jeremy Black, 2013-04-03 Much of the period 1661 1815 appeared to be the age of France France was the greatest power in Western Europe in the late seventeenth and eighteenth centuries and Louis XIV and Napoleon seemed to dominate their periods yet when Louis XIV died in 1715 and again after Napoleon's attempt to resume power was defeated at Waterloo a century later France appeared as a waning power This failure in Europe was matched on the world scale France was overtaken by Britain in the struggle for maritime predominance and ended the period with her empire in ruins From Louis XIV to Napoleon is a scholarly yet accessible account which considers why France was not more successful and throws light on French history international relations warfare and the rise and fall of French power *Crown, Church, and Episcopate Under Louis XIV* Joseph Bergin, Dr Joseph Bergin, 2004-01-01 Joseph Bergin explores the king's practice of appointing qualified and worthy men as bishops and of the difficulties and tensions inherent in it Candidates generally began their careers with theology degrees and graduated to minor clerical positions where they might gain valuable practical experience prior to their appointment as relatively mature men Rarely were archbishops chosen who had not served as bishops but appeal was to be found in family credit as well as demonstrable ability The author explains the provenance of this system illustrating it with numerous well drawn examples and examining it in detail In addition he accounts for the deficiencies of this elastic policy of appointment which occasioned a group of some 120 bishops not all of whom the king and his advisers could have personal knowledge This book uncovers a crucial part of the reign of Louis XIV and is essential for anyone with a serious interest in early modern French history **BOOK JACKET**

Napoleon's Wars Charles Esdaile, 2009-10-27 A glorious and conclusive chronicle of the wars waged by one of the most polarizing figures in military history Acclaimed on both sides of the Atlantic as a new standard on the subject this sweeping boldly written history of the Napoleonic era reveals its central protagonist as a man driven by an insatiable desire for fame and determined to push matters to extremes More than a myth busting portrait of Napoleon however it offers a panoramic view of the armed conflicts that spread so quickly out of revolutionary France to countries as remote as Sweden and Egypt As it expertly moves through conflicts from Russia to Spain Napoleon's Wars proves to be history writing equal to its subject grand and ambitious that will reframe the way this tumultuous era is understood **Paris: The 'New Rome' of Napoleon I** Diana Rowell, 2012-08-23 Napoleon I employed a myriad of media through which to promote his propaganda and his universal hegemony Classical Rome home to the great Caesars was central to his ambitious visions for the transformation of Paris into an imperial metropolis of unprecedented magnitude Exploring the interrelationship between antiquity the display of power and the reinvention of Paris this volume evaluates how the Roman world and post antique exploitations of Rome influenced Napoleonic Paris and how Napoleon promoted his authority by appropriating Rome's triumphal architecture and its associated symbolism to relocate Rome in his own times The volume shows how consideration of Louis XIV's legacy is

crucial to understanding the evolution of Napoleon's fascination with imperial Rome. It also charts Napoleon's manipulation of the populist rhetoric of Republican France and Rome as he moved from being a general fighting for the Revolutionary cause to become the absolute ruler of a new empire.

The Age of the Ship of the Line Jonathan R. Dull, 2009-05-21 The acclaimed naval historian takes the reader through the intricacies of warship design and construction in both French and British navies. Historical Novel Society In the series of wars that raged between France and Britain from the seventeenth to the nineteenth centuries, seapower was of absolute vital importance. Not only was each nation's navy a key to victory but was a prerequisite for imperial dominance. These ongoing struggles for overseas colonies and commercial dominance required efficient navies which in turn insured the economic strength for the existence of these fleets as instruments of state power. This book by the distinguished historian Jonathan Dull looks inside the workings of both the Royal and the French navies of this tumultuous era and compares the key elements of the rival fleets. Through this balanced comparison Dull argues that Great Britain's final triumph in a series of wars with France was primarily the result of superior financial and economic power. This accessible and highly readable account navigates the intricacies of the British and French wars in a way which will both enlighten the scholar and fascinate the general reader. Naval warfare is brought to life but also explained within the framework of diplomatic and international history. A welcome and concise source of information. Military historians will find data about the numbers of ships in each navy for each period covered. Diplomatic historians will find brief descriptions of the various heads of state and the ministers whose decisions led to wars, victories, defeats, and economic disasters.

Napoleon's Empire Ute Planert, 2016-01-26 The Napoleonic Empire played a crucial role in reshaping global landscapes and in realigning international power structures on a worldwide scale. When Napoleon died, the map of many areas had completely changed, making room for Russia's ascendancy and Britain's rise to world power.

Revolutions and the Collapse of Monarchy Zhand Shakibi, 2007-02-23 What causes revolution? What brought about the end of the last major monarchies of the modern period? Were Louis XVI, Nicholas II, and Mohammad Reza Pahlavi the unwitting victims of historical circumstance, or did their own actions help to bring about the revolutions that overthrew them? This powerful and original book is the first comparative study of the revolutions in Bourbon France, Romanov Russia, and Pahlavi Iran. Zhand Shakibi analyses fully the timing and causes of these three revolutions and reveals the important similarities between them. *Revolutions and the Collapse of Monarchy* argues provocatively that it is often the monarch's own personality that provides the vital spark which produces revolution. This ambitious and important book challenges the Marxist interpretation of history and adds a compelling new perspective to theories of revolution.

King of the World Philip Mansel, 2020-09-01 Louis XIV was a man in pursuit of glory. Not content to be the ruler of a world power, he wanted the power to rule the world. And for a time he came tantalizingly close. Philip Mansel's *King of the World* is the most comprehensive and up-to-date biography in English of this hypnotic, flawed figure who continues to captivate our attention. This lively work takes

Louis outside Versailles and shows the true extent of his global ambitions with stops in London Madrid Constantinople Bangkok and beyond We witness the importance of his alliance with the Spanish crown and his success in securing Spain for his descendants his enmity with England and his relations with the rest of Europe as well as Asia Africa and the Americas We also see the king's effect on the two great global diasporas of Huguenots and Jacobites and their influence on him as he failed in his brutal attempts to stop Protestants from leaving France Along the way we are enveloped in the splendor of Louis's court and the fascinating cast of characters who prostrated and plotted within it King of the World is exceptionally researched drawing on international archives and incorporating sources who knew the king intimately including the newly released correspondence of Louis's second wife Madame de Maintenon Mansel's narrative flair is a perfect match for this grand figure and he brings the Sun King's world to vivid life This is a global biography of a global king whose power was extensive but also limited by laws and circumstances and whose interests and ambitions stretched far beyond his homeland Through it all we watch Louis XIV progressively turn from a dazzling attractive young king to a belligerent reactionary who sets France on the path to 1789 It is a convincing and compelling portrait of a man who three hundred years after his death still epitomizes the idea of le grand monarque

The Seven Years' War Mark Danley, Patrick Speelman, 2012-11-09 In The Seven Years War Global Views Mark H Danley Patrick J Speelman and sixteen other contributors reach beyond traditional approaches to the conflict Chapters cover previously understudied aspects of the war in Europe Asia Africa and the Western Hemisphere

Napoleon's Conquest of Europe Frederick C. Schneid, 2005-05-30 Poised to strike at England in the summer of 1805 Napoleon found himself facing a coalition of European powers determined to limit his territorial ambitions Still in less than one hundred days Napoleon's armies marched from the English Channel to Central Europe crushing the armies of Austria and Russia the first step in his conquest of Europe In this telling new account Schneid demonstrates how this was possible Schneid details how Napoleon's victory over the Third Coalition was the product of years of diplomatic preparation and the formation of French alliances He played upon the prevailing conditions of the European state system and the internal politics of the Holy Roman Empire to improve France's strategic position This war must be understood in the context of the French Revolution and its influence on major and minor European states In some cases Napoleonic diplomacy returned to France's traditional and historic relationships in others he capitalized upon longstanding competition and animosities to gather allies and create wedges Schneid approaches the campaign from a broad diplomatic economic and military perspective including not only the French perspective but the points of view of the other powers involved as well This telling account reveals that the road to Vienna was paved long before Napoleon's armies marched upon the enemies arrayed against them

The Wars of the French Revolution Charles J Esdaile, 2018-10-03 The Wars of the French Revolution 1792-1801 offers a comprehensive and jargon-free coverage of this turbulent period and unites political social military and international history in one volume Carefully designed for undergraduate students through twelve chapters this book offers

an introduction to the origins and international context of the French Revolution as well as an in depth examination of the reasons why war began Aspects unpicked within the book include how France acquired a de facto empire stretching from Holland to Naples the impact of French conquest on the areas concerned the spread of French ideas beyond the frontiers of the French imperium the response of the powers of Europe to the sudden expansion in French military power the experience of the conflicts unleashed by the French Revolution in such areas as the West Indies Egypt and India and the impact of war on the Revolution itself Offering extensive geographical coverage and challenging many preconceived ideas The Wars of the French Revolution 1792 1801 is the perfect resource for students of the French Revolution and international military history more broadly

Exceptionalism and Industrialisation Leandro Prados de la Escosura, 2004-06-17 This 2004 book explores the question of British exceptionalism in the period from the Glorious Revolution to the Congress of Vienna Leading historians examine why Great Britain emerged from years of sustained competition with its European rivals in a discernible position of hegemony in the domains of naval power empire global commerce agricultural efficiency industrial production fiscal capacity and advanced technology They deal with Britain's unique path to industrial revolution and distinguish four themes on the interactions between its emergence as a great power and as the first industrial nation First they highlight growth and industrial change the interconnections between agriculture foreign trade and industrialisation Second they examine technological change and especially Britain's unusual inventiveness Third they study her institutions and their role in facilitating economic growth Fourth and finally they explore British military and naval supremacy showing how this was achieved and how it contributed to Britain's economic supremacy

A Compendium of World Sovereigns: Volume III Early Modern Timothy Venning, 2023-06-30 The Compendium of World Sovereigns series contains three volumes Ancient Medieval and Early Modern These volumes provide students with easy to access who's who with details on the identities and dates ages and wives where known of heads of government in any given state at any time within the framework of reference The relevant original and secondary sources are also listed in a comprehensive bibliography Providing a clear reference guide for students to who was who and when they ruled in the dynasties and other ruler lists for the Ancient Medieval and Early Modern worlds primarily European and Middle Eastern but including available information on Africa and Asia and the pre Columbian Americas The trilogy accesses and interprets the original data plus any modern controversies and disputes over names and dating reflecting on the shifts and widening of focus in student and academic studies Each volume contains league tables of rulers records and an extensive bibliographical guide to the relevant personnel and dynasties plus any controversies so readers can consult these for extra details and know exactly where to go for which information All relevant information is collected and provided as a one stop shop for students wishing to check the known information about a world Sovereign The Early Modern volume begins with Eastern and Western Europe and moves through the Ottoman Empire South and East Asia Africa and ends in Central and South America Compendium of World Sovereigns Volume III Early Modern

provides students and scholars with the perfect reference guide to support their studies and to fact check dates people and places

Russia and the Napoleonic Wars Janet M. Hartley, Paul Keenan, Dominic Lieven, 2015-09-15 Russia played a fundamental role in the outcome of Napoleonic Wars the wars also had an impact on almost every area of Russian life Russia and the Napoleonic Wars brings together significant and new research from Russian and non Russian historians and their work demonstrates the importance of this period both for Russia and for all of Europe

The Frontiers of Mission Alison Forrestal, Seán Alexander Smith, 2016-08-22 In exploring the shifting realities of missionary experience during the course of imperialist ventures and the Catholic Reformation *The Frontiers of Mission Perspectives on Early Modern Missionary Catholicism* provides a fresh assessment of the challenges that the Catholic church encountered at the frontiers of mission in the early modern era Bringing together leading international scholars the volume tests the assumption that uniformity and coordination governed early modern missionary enterprise and examines the effects of distance and de centering on a variety of missionaries and religious orders Its essays focus squarely on the experiences of the missionaries themselves to offer a nuanced consideration of the meaning of missionary Catholicism and its evolving relationship with newly discovered cultures and political and ecclesiastical authorities

Unnaturally French Peter Sahlins, 2018-08-06 In his rich and learned new book about the naturalization of foreigners Peter Sahlins offers an unusual and unexpected contribution to the histories of immigration nationality and citizenship in France and Europe Through a study of foreign citizens Sahlins discovers and documents a premodern world of legal citizenship its juridical and administrative fictions and its social practices Telling the story of naturalization from the sixteenth to the early nineteenth centuries *Unnaturally French* offers an original interpretation of the continuities and ruptures of absolutist and modern citizenship in the process challenging the historiographical centrality of the French Revolution *Unnaturally French* is a brilliant synthesis of social legal and political history At its core are the tens of thousands of foreign citizens whose exhaustively researched social identities and geographic origins are presented here for the first time Sahlins makes a signal contribution to the legal history of nationality in his comprehensive account of the theory procedure and practice of naturalization In his political history of the making and unmaking of the French absolute monarchy Sahlins considers the shifting policies toward immigrants foreign citizens and state membership Sahlins argues that the absolute citizen exemplified in Louis XIV's attempt to tax all foreigners in 1697 gave way to new practices in the middle of the eighteenth century This citizenship revolution long before 1789 produced changes in private and in political culture that led to the abolition of the distinction between foreigners and citizens Sahlins shows how the Enlightenment and the political failure of the monarchy in France laid the foundations for the development of an exclusively political citizen in opposition to the absolute citizen who had been above all a legal subject The author completes his original book with a study of naturalization under Napoleon and the Bourbon Restoration Tracing the twisted history of the foreign citizen from the Old Regime to the New Sahlins sheds light on the continuities and ruptures of the

revolutionary process and also its consequences

Escaping the Deadly Embrace Andrea Bartoletti, 2022-11-15

Encirclement Andrea Bartoletti argues is an essential strategic possibility of the international system and a key trigger of major war Using historical case studies Escaping the Deadly Embrace examines how great powers try to escape the two front war problem and seek to preserve their security Encirclement is a geographic variable that occurs in the presence of one or two great powers on two different borders of the surrounded great power The surrounding great powers may not have the capacity to initiate a joint invasion Yet their threatening presence triggers a double security dilemma for the encircled great power which has to disperse its army to secure its borders When the surrounding great powers become capable of launching a two front attack the encircled great power initiates war This situation disastrous in itself can also lead to war contagion when other great powers intervene in the new conflict owing to the rival based network of alliances Combining archival work and historiographical analysis Escaping the Deadly Embrace demonstrates the efficacy of this by assessing three major wars the Italian Wars the Thirty Years War and World War I These findings Bartoletti shows have important implications for future major wars Challenging the current focus on the US China rivalry he argues that the most concerning strategic scenario is the encirclement of China by India and Russia

Do Good Fences Make Good Neighbors? Brent L. Sterling, 2009-10-30

A number of nations conspicuously Israel and the United States have been increasingly attracted to the use of strategic barriers to promote national defense In Do Good Fences Make Good Neighbors defense analyst Brent Sterling examines the historical use of strategic defenses such as walls or fortifications to evaluate their effectiveness and consider their implications for modern security Sterling studies six famous defenses spanning 2 500 years representing both democratic and authoritarian regimes the Long Walls of Athens Hadrian's Wall in Roman Britain the Ming Great Wall of China Louis XIV's Pr Carr France's Maginot Line and Israel's Bar Lev Line Although many of these barriers were effective in the short term they also affected the states that created them in terms of cost strategic outlook military readiness and relations with neighbors Sterling assesses how modern barriers against ground and air threats could influence threat perceptions alter the military balance and influence the builder's subsequent policy choices Advocates and critics of strategic defenses often bolster their arguments by selectively distorting history Sterling emphasizes the need for an impartial examination of what past experience can teach us His study yields nuanced lessons about strategic barriers and international security and yields findings that are relevant for security scholars and compelling to general readers

The Societal Foundations of National Competitiveness Michael J. Mazarr, 2022-06-21

Nations rise and fall succeed or fail in rivalries and enjoy stability or descend into chaos because of a complex web of factors that affect competitive advantage One critical component is the package of essential social characteristics of a nation The ultimate story of the Cold War is that the United States was simply a more competitive society than the Soviet Union more energetic more vibrant more innovative more productive more legitimate Through analysis of comparative studies of historical eras and trends historical case studies and the findings of

issue specific empirical research the report explores how seven characteristics of a society determine its competitive standing and distinguish dynamic and competitively successful nations If the history surveyed in this report provides an accurate guide to the future the fate of the United States in today s rivalries will not be determined solely or even in significant degree by the numbers of its weapons or amounts of defense spending or how many proxy wars it wins but by the basic characteristics of its society The author applies the seven leading characteristics that affect national standing to the United States to create a snapshot of where the country stands That application provides some reason for optimism The United States continues to reflect many of these characteristics and the overall synergistic engine more than any other large country in the world However multiple trends are working to weaken traditional U S advantages Several such as the corruption of the national information space pose acute risks to the long term dynamism and competitiveness of the nation raising the worrying prospect that the United States has begun to display classic patterns of a major power on the far side of its dynamic and vital curve

Richelieu and Mazarin David Sturdy, 2017-03-14 Drawing upon recent research and past studies David J Sturdy presents a concise up to date analysis of the private and public careers of two of the most influential ministers in seventeenth century France Richelieu and Mazarin Adopts a broadly chronological approach interspersed with passages at relevant points which compare and contrast the key achievements of the two Cardinals Examines such central themes as the internal government of France the ministers conduct of foreign policy and the nature of elite and popular resistance to their policies Explores the political ideas and strategies of Richelieu and Mazarin the relations between the ministers and the Crown and the patronage they exercised The book concludes with a comparative assessment of the significance of the two figures for the history of France

The Top Books of the Year From Louis Xiv To Napoleon The Fate Of A Great Power The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous captivating novels captivating the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the captivating narratives that have charmed audiences this year. From Louis Xiv To Napoleon The Fate Of A Great Power : Colleen Hoover's "It Ends with Us" This heartfelt tale of love, loss, and resilience has gripped readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can succeed. From Louis Xiv To Napoleon The Fate Of A Great Power : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. From Louis Xiv To Napoleon The Fate Of A Great Power : Delia Owens "Where the Crawdads Sing" This mesmerizing coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered. The novel begins with Richard Pappen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and thrilling novel that will keep you wondering until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
