Social Policy in Post-Industrial Singapore Kwen Fee Lian, Chee-Kiong Tong, 2008-03-31 Notwithstanding the lean years that followed 1986 and 1997 sustained economic growth since the late 1970s has propelled Singapore into the post industrial age and reproduced the demographic and social structure of advanced western societies The rapid shift to a knowledge intensive economy requiring highly skilled services has resulted in a two speed society consisting of a highly competitive but rewarding sector and a marginalized population that is increasingly at risk Being avowedly anti welfarist the state for ideological reasons has resisted pressures to introduce a comprehensive welfare regime for its risk population preferring to privilege its productive citizenry Is Singapore a counter factual to the convergence thesis by preferring to put in place a social policy driven by the belief of its leaders that the more successful a society is the more it is able to care for those who fall behind

Crime Prevention in the Urban Community Koichi Miyazawa, Setsuo Miyazawa, 2023-09-20 One of today's most pressing issues in criminology and crime prevention is the problem of crime in our cities and towns and its prevention The topic of crime prevention in the Urban Community was discussed at the 47th International Course of the International Society for Criminology ISC held at Chuo University Tokyo It was the very first time such an ISC meeting was held in Asia and this meant that finally a relatively large number of Japanese and other Asian participants were able to express their views on criminal policy and crime prevention in urban centres all over the world Crime in urban communities is not an exclusively Western phenomenon but it is also a considerable problem in other parts of the world This makes an interchange of ideas between Western Eastern and Third World criminologists particularly important General characteristics of the urban communities that suffer from a high crime rate are ethnic and racial tensions a mix of old housing areas and new business districts a prevailing sense of anonymity slums and juvenile

delinquency The existence of these general characteristics besides mutual differences makes cooperation in the crime prevention sphere definitely worth the effort Curbing Corruption in Asian Countries Jon S. T. Quah,2011-07-21 As corruption is a serious problem in many Asian countries their governments have introduced many anti corruption measures since the 1950s This book analyzes and evaluates the anti corruption strategies employed in Hong Kong SAR India Indonesia Japan Mongolia the Philippines Singapore South Korea Taiwan and Thailand **Policewomen** Kerry Segrave,2014-02-24 Women in policing have seen three phases of acceptance Beginning in about 1880 they were admitted as police matrons with extremely limited duties Next they were accepted as policewomen around 1910 1916 when that title was officially bestowed on them Finally came assignment of females as general duty officers in the late 1960s and early 1970s Not coincidentally an active women s movement was the driving force behind all three phases As women in policing went from matrons to regular officers they faced harassment and discrimination that only worsened as they neared equality Many still face it today This book examines the history of policewomen from 1880 to 2012 particularly in the U S and tells the story of their gradual recognition by the professional establishment of male officers **Transnational and Comparative Criminology** James Sheptycki,Ali Wardak,2012-09-10 This book examines the issues of crime and its control in the twenty first century an era of human history where people live in an increasingly interconnected and interdependent world providing invaluable and first hand readings for undergraduate and postgraduate students **Historical Dictionary of Singapore** Justin Corfield,2010-12-02 In spite of Singapore s small size it has long had a major impact on the world because of its geographical location and its wealth The British initially made the island a major port for the shipping of goods and later as an airline hub for the region These factors along with a steady government have helped to contribute to the country s affluence This multicultural multiracial and multi religious island nation is the envy of many countries in the world which have tried to emulate the economic success of Singapore The new edition of the Historical Dictionary of Singapore has been completely rewritten since the first edition was released 20 years ago It relates the history of this country through a chronology an introductory essay an expansive bibliography and over 500 cross referenced dictionary entries on significant persons events places organizations and other aspects of Singapore history from the earliest times to the present **The Politics of Nation Building and Citizenship in Singapore** Michael Hill,Kwen Fee Lian,2013-06-17 Since independence in 1965 Singapore has strengthened its own national identity through a conscious process of nation building and promoting the active role of the citizen within society Singapore is a state that has firmly rejected welfarism but whose political leaders have maintained that collective values instead of those of autonomous individuals are essential to its very survival The book begins by examining basic concepts of citizenship nationality and the state in the context of Singapore s arrival at independence The theme of nation building is explored and how the creation of a national identity through building new institutions has been a central feature of political and social life in Singapore Of great importance has been education and a

system of multilingual education that is part of a broader government strategy of multiculturalism and multiracialism both have served the purpose of building a new national identity Other areas covered by the authors include family planning housing policy the creation of parapolitical structures and the importance of shared Asian values amongst Singapore's citizens

Policing Citizens P.A.J. Waddington, 2002-11-01 This analysis of policing throughout the modern world demonstrates how many of the contentious issues surrounding the police in recent years from paramilitarism to community policing have their origins in the fundamentals of the police role The author argues that this results from a fundamental tension within this role In liberal democratic societies police are custodians of the state's monopoly of legitimate force yet they also wield authority over citizens who have their own set of rights

A Model of Community Policing David H. Bayley, 1996-07 Discusses the development and implementation of community policing in Singapore Written for other countries so they may solve their own crime problems faster and more successfully using the Singapore pilot project as a guideline Provides information on how community policing works staffing typical foot patrol activity accountability Describes ways in which to implement the plans initial considerations launching the project evaluation expansion Contains an entire chapter on what America can learn from Singapore's lessons and success
