From Ally To Enemy:

From Ally to Enemy Philip Towle, 2021-11-01 This study closely researched by Philip Towle over the past thirty years is principally concerned with the military relations between Britain and Japan during the first half of the twentieth century and the ambivalence misunderstandings and misconceptions that informed their relationship described by the author as an epic tragedy Following the signing of the Anglo Japanese Alliance in 1902 Japan was held up as a model in Britain and Britain in Japan But within a generation the British came to see Japan as the first country to challenge the League of Nations and to begin a new age of imperialism Conversely the Japanese armed forces saw Britain as the greatest obstacle to Japanese ambitions in China and elsewhere In 1936 Lieutenant Commander Tota Ishimaru s book Japan Must Fight Britain was printed in Britain its significance ignored at many levels and five years later the two countries were at war The feelings stirred up by that conflict notes Towle still have resonance today From Ally to Enemy brings together a most important body of research that is long overdue in book form and will be widely welcomed by historians and researchers of the period as well as those seeking more detailed analysis of specific aspects of the pre war Anglo Japanese military relationship *Rules and Regulations* United States. War Trade Board, 1917 The Ideological Origins of Great Power Politics, 1789-1989 Mark L. Haas, 2005 How do leaders perceive threat levels in world politics and what effects do those perceptions have on policy choices Mark L Haas focuses on how ideology shapes perception He does not delineate the content of particular ideologies but rather the degree of difference among them Degree of ideological difference is he believes the crucial factor as leaders decide which nations threaten and which bolster their state s security and their own domestic power These threat perceptions will in turn impel leaders to make particular foreign policy choices Haas examines great power relations in five periods the 1790s in Europe the Concert of Europe 1815 1848 the 1930s in Europe Sino Soviet relations from 1949 to 1960 and the end of the Cold War In each case he finds a clear relationship between the degree of ideological differences that divided state leaders and those leaders perceptions of threat level and so of appropriate foreign policy choices These relationships held in most cases regardless of the nature of the ideologies in question the offense defense balance and changes in the international distribution of power **Business Digest** ,1918 *U.S. COMPILED STATUTES* United States, 1923 **The Commercial & Financial Chronicle ...** ,1917 *Official Gazette of the United States Patent Office* USA Patent Office, 1917 **Negotiation, Identity and Justice** Daniel Druckman, 2023-04-25 This volume presents contributions made by Daniel Druckman on the topics of negotiation national identity and justice Containing research conducted and published over a half century the volume is divided into seven thematic parts that cover the multifaceted career flexibility in negotiation values and interests turning points national identity and process and outcome justice It rounds off with a reflective and forward looking conclusion Each part is prefaced with an introduction that highlights the chapters to follow The chapters comprise empirical theoretical and state of the art articles These essays offer an array of

research approaches which include experiments simulations and case studies with topics ranging from boundary roles and turning points in negotiation to nationalism and war and the way that research is used in skills training for diplomats and in the development of government policies In addition the book provides rare glimpses of behind the scenes networks sponsors and events with personal stories that also make evident that there is more to a career than what appears in print The articles chosen for inclusion are a small set of the total number of career publications by the author but are the ones that made a substantial impact in their respective fields The concluding section looks back at how the author s career connects to classical ideas and the value of an evidence based approach to scholarship and practice It also looks forward to directions for future research in six areas This book will be of considerable interest to students of international negotiation conflict resolution security studies and international relations Chapter 16 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license
