From Boston To Berlin A Journey Through World War II In Images And Words:

From Boston to Berlin Christopher E. Mauriello, Roland J. Regan Jr., 2019-10-31 When Roland Regan and Frederick Mauriello went off to fight the Germans in World War II they packed cameras and notepaper and documented their experiences Roland with photos Frederick with letters to his family Roland's photos developed after the war never went through Army censorship and show an honest firsthand view of the war from the eyes of an enlisted man Frederick's letters show a young man's devotion to his family his good will and his growing distrust of military authority As a whole this collection is a testimony to the courage faith and loyalty of all the men who served during World War II These priceless documents presented by their sons in this book offer readers an intimate glimpse at a unique aspect of the American experience

A Nation Forged in War Thomas A. Bruscino, 2013-05-12 World War II shaped the United States in profound ways and this new book the first in the Legacies of War series explores one of the most significant changes it fostered a dramatic increase in ethnic and religious tolerance *A Nation Forged in War* is the first full length study of how large scale mobilization during the Second World War helped to dissolve longstanding differences among White soldiers of widely divergent backgrounds Never before or since have so many Americans served in the armed forces at one time more than 15 million donned uniforms in the period from 1941 to 1945 Thomas Bruscino explores how these soldiers shared experiences enduring basic training living far from home engaging in combat transformed their views of other ethnic groups and religious traditions He further examines how specific military policies and practices worked to counteract old prejudices and he makes a persuasive case that throwing together men of different regions ethnicities religions and classes not only fostered a greater sense of tolerance but also forged a new American identity When soldiers returned home after the war with these new attitudes they helped reorder what it meant to be white in America Using the presidential campaigns of Al Smith in 1928 and John F Kennedy in 1960 as bookend events Bruscino notes a key change in religious bias Smith's defeat came at the end of a campaign rife with anti Catholic sentiment Kennedy's victory some three decades later proved that such religious bigotry was no longer an insurmountable obstacle Despite such advances Bruscino notes that the growing broad mindedness produced by the war had limits it did not extend to African Americans whose own struggle for equality would dramatically mark the postwar decades Extensively documented *A Nation Forged in War* is one of the few books on the social and cultural impact of the World War II years Scholars and students of military ethnic social and religious history will be fascinated by this groundbreaking new volume

Forced Confrontation Christopher E. Mauriello, 2017-08-04 During the final weeks of World War II the American army discovered multiple atrocity sites and mass graves containing the dead bodies of Jews slave laborers POWs and other victims of Nazi genocide and mass murder Instead of simply reburying these victims American Military Government carried out a series of highly ritualized forced confrontations towards German civilians centered on the dead bodies themselves The Americans forced nearby German townspeople to witness the atrocity site disinter the bodies

place them in coffins parade these bodies through the town and lay them to rest in town cemeteries At the conclusion of the ceremony in the cemetery in the presence of dead bodies the Americans accused the assembled German civilians and Germany as whole of collective guilt for the crimes of the Nazi regime This landmark study places American forced confrontations into the emerging field of dead body politics or necropolitics Drawing on the theoretical work of Katherine Verdery and others the book argues that forced confrontation represented a politicization of dead bodies aimed at the ideological goals of accusing Germans and Germany of collective guilt for the war Nazism and Nazi genocide These were not top down Allied policy decisions Instead they were initiated and carried out at the field command level and by ordinary U S field officers and soldiers appalled and angered by the level of violence and killing they discovered in small German towns in April and May 1945 This study of the experience of war and forced confrontations around dead bodies compels readers to rethink the nature of the American soldier fighting in Germany in 1945 and the evolution practice and purpose of American political and ideological ideas of German collective guilt

Images of Germany in American Literature Waldemar Zacharasiewicz, 2007-04

Although German Americans number almost 43 million and are the largest ethnic group in the United States scholars of American literature have paid little attention to this influential and ethnically diverse cultural group In a work of unparalleled depth and range Waldemar Zacharasiewicz explores the cultural and historical background of the varied images of Germany and Germans throughout the past two centuries Using an interdisciplinary approach known as comparative imagology which

borrows from social psychology and cultural anthropology Zacharasiewicz samples a broad spectrum of original sources including literary works letters diaries autobiographical accounts travelogues newspaper reports films and even cartoons and political caricatures Starting with the notion of Germany as the ideal site for academic study and travel in the nineteenth century and concluding with the twentieth century image of Germany as an aggressive country this innovative work examines the ever changing image of Germans and Germany in the writings of Louisa May Alcott Samuel Clemens Henry James William James George Santayana W E B Du Bois John Dewey H L Mencken Katherine Anne Porter Kay Boyle Thomas Wolfe Upton Sinclair Gertrude Stein Kurt Vonnegut Thomas Pynchon William Styron Walker Percy and John Hawkes among others

Music Trades ,1918 Rehearsals Jeff Lipkes,2007 People screamed cried and groaned Above the tumult I could distinguish the voices of small children All this time the soldiers were singing Sometime after the first salvo there was another round of fire and once again I was not hit After this I heard fewer cries save from time to time a small child calling its mother Flix Bourdon survivor of a mass execution in Dinant Belgium In August 1914 without any legitimate pretext German soldiers killed nearly 6 000 Belgian noncombatants including women and children and burned some 25 000 homes and other buildings Rehearsals is the first book to provide a detailed narrative history of the German invasion of Belgium as it affected civilians Based on extensive eyewitness testimony the book chronicles events in and around the towns of Liège Aarschot Andenne Tamines Dinant and Leuven where the worst of the German depredations occurred Accounts of the killing looting and arson have long been dismissed as atrocity propaganda particularly in the United Kingdom and the United States Rehearsals examines the campaign by revisionists that led to voluminous and compelling testimony about German war crimes being discredited Recently the case has been made that the violence that came to a peak between August 19 and August 26 1914 was the result of a spontaneous outbreak of German paranoia about civilian sharpshooters In Rehearsals Jeff Lipkes offers compelling evidence that the executions were in fact part of a deliberate campaign of terrorism ordered by military authorities In his shocking account of events that have been largely overlooked by historians of World War I Lipkes commemorates the heroism as well as the suffering of the Belgian victims of German aggression
