Conversion, Circumcision, and Ritual Murder in Medieval Europe Paola Tartakoff, 2020-01-17 A investigation into the thirteenth century Norwich circumcision case and its meaning for Christians and Jews. In 1230 Jews in the English city of Norwich were accused of having seized and circumcised a five year old Christian boy named Edward because they wanted to make him a Jew. Contemporaneous accounts of the Norwich circumcision case as it came to be called recast this episode as an attempted ritual murder. Contextualizing and analyzing accounts of this event and others with special attention to the roles of children. Paola Tartakoff sheds new light on medieval Christian views of circumcision. She shows that Christian characterizations of Jews as sinister agents of Christian apostasy belonged to the same constellation of anti Jewish libels as the notorious charge of ritual murder. Drawing on a wide variety of Jewish and Christian sources Tartakoff investigates the elusive backstory of the Norwich circumcision case and exposes the thirteenth century resurgence of Christian concerns about formal Christian conversion to Judaism. In the process she elucidates little known cases of movement out of Christianity and into Judaism as well as Christian anxieties about the instability of religious identity. Conversion, Circumcision and Ritual Murder in Medieval Europe recovers the complexity of medieval Jewish Christian conversion and reveals the links between religious conversion and mounting Jewish Christian tensions. At the same time Tartakoff does not lose sight of the mystery surrounding the events that spurred the Norwich circumcision case and she concludes the book by offering a solution of her own. Christians and Jews she posits understood these events in fundamentally irreconcilable ways illustrating the chasm that separated Christians and Jews in a world in which some Christians and Jews knew each other intimately.

New Faiths, Old Fears Bruce B. Lawrence, 2004-10-20 As a result of immigration from Asia in the wake of the passage of the 1965 Hart Celler Immigration Act the fastest growing religions in America faster than all Christian groups combined are Islam, Hinduism, Buddhism, and Sikhism. In this remarkable book a leading scholar of religion asks how these new faiths have changed or have been changed.

by the pluralist face of American civil society How have these new religious minorities been affected by the deep rooted American ambivalence toward foreign traditions Bruce Lawrence casts a comparativist eye on the American religious scene and explores the ways in which various groups of Asian immigrants have and sometimes have not been integrated into the American polity In the process he offers several important correctives Too often Lawrence argues profiles of Asian American experience focus exclusively on immigrants from East Asia to the exclusion of South Asian and West Asian voices *New Faiths Old Fears* seeks to make all Asians equally important and to break free of traditional geographic markers most reflecting nineteenth century imperial values that artificially divide the people of the Middle East from the rest of Asia with whom they share certain religious and cultural ties Iranian Americans in particular emerge as a vital bridge group whose experience tells us much about how Asians of many different backgrounds have found their way in their new nation Beyond simply expanding and refining our conception of who Asian Americans are Lawrence draws instructive comparisons between Asian Americans experience and those of Native African and Hispanic Americans exposing undercurrents of racial and class antagonisms He concludes that we cannot fully comprehend the contours and valences of culture and religion in America without understanding how this racialized class prejudice shapes the views of the dominant class toward immigrants and other marginal groups

Blood and Faith Matthew Carr, 2009-08-11 In April 1609 King Philip III of Spain signed an edict denouncing the Muslim inhabitants of Spain as heretics traitors and apostates Later that year the entire Muslim population of Spain was given three days to leave Spanish territory on threat of death In a brutal and traumatic exodus entire families and communities were obliged to abandon homes and villages where they had lived for generations leaving their property in the hands of their Christian neighbors In Aragon and Catalonia Muslims were escorted by government commissioners who forced them to pay whenever they drank water from a river or took refuge in the shade For five years the expulsion continued to grind on until an estimated 300 000 Muslims had been removed from Spanish territory nearly 5 percent of the total population By 1614 Spain had successfully implemented what was then the largest act of ethnic cleansing in European history and Muslim Spain had effectively ceased to exist *Blood and Faith* is celebrated journalist Matthew Carr s riveting chronicle of this virtually unknown episode set against the vivid historical backdrop of the history of Muslim Spain Here is a remarkable window onto a little known period in modern Europe a rich and complex tale of competing faiths and beliefs of cultural oppression and

resistance against overwhelming odds *One Faith No Longer* George Yancey, Ashlee Quosigk, 2021-07-06 Irreconcilable differences drive the division between progressive and conservative Christians is there a divorce coming Much attention has been paid to political polarization in America but far less to the growing schism between progressive and conservative Christians In this groundbreaking new book George Yancey and Ashlee Quosigk offer the provocative contention that progressive and conservative Christianities have diverged so much in their core values that they ought to be thought of as two separate religions The authors draw on both quantitative data and interviews to uncover how progressive and conservative Christians determine with whom they align themselves religiously and how they distinguish themselves from each other They find that progressive Christians emphasize political agreement relating to social justice issues as they determine who is part of their in group and focus less on theological agreement Among conservative Christians on the other hand the major concern is whether one agrees with them on core theological points Progressive and conservative Christians thus use entirely different factors in determining their social identity and moral values In a time when religion and politics have never seemed so intertwined *One Faith No Longer* offers a timely and compelling reframing of an age old conflict
