From Hegel To Marx Studies In The Intellectual Development Of Karl Marx:

From Hegel to Marx Sidney Hook, 1950 *From Hegel to Marc* Sidney Hook, **Western Political Thought** Robert Eccleshall, Michael Kenny, 1995 This is a guide to the vast amount of literature on the history of political thought which has appeared in English since 1945 The editors provide an annotation of the content of many entries and where appropriate indicate their significance controversial nature and readability

Marx's 'Grundrisse' and Hegel's 'Logic' (RLE Marxism) Hiroshi Uchida, 2015-04-17 Marx's Grundrisse is acknowledged as the vital link between Marx's early and late work It is also a crucial text in elucidating Marx's debt to the idealist philosopher G W F Hegel This book first published in 1988 is the first full length study of that relationship in a thorough textual analysis which makes the connections explicit and also the Grundrisse's relations to the works of Adam Smith and Aristotle This book argues that Marx's critique of political economy and his critique of Hegel are double interrelated Not only did Marx adapt Hegelian logic in order to analyse the economic categories crucial to modern society but it is argued that those logical categories were themselves seen as reflections of the productive processes of contemporary commercial society Uchida reveals a conceptual structure common to the apparently rarefied world of Hegelian conceptual logic and to the supposedly common sensical world of economic science Demonstrating this is a considerable achievement and it allows us to consider precisely what is valuable today in Marx's critical commentary on this conceptual structure and on the type of society in which it is manifested Uchida's subject like Marx's is the force of capital on modern life

Dictionary Of Modern American Philosophers John R. Shook, 2005-05-15 The Dictionary of Modern American Philosophers includes both academic and non academic philosophers and a large number of female and minority thinkers whose work has been neglected It includes those intellectuals involved in the development of psychology pedagogy sociology anthropology education theology political science and several other fields before these disciplines came to be considered distinct from philosophy in the late nineteenth century Each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading While all the major post Civil War philosophers are present the most valuable feature of this dictionary is its coverage of a huge range of less well known writers including hundreds of presently obscure thinkers In many cases the Dictionary of Modern American Philosophers offers the first scholarly treatment of the life and work of certain writers This book will be an indispensable reference work for scholars working on almost any aspect of modern American thought

Back to the Rough Grounds of Praxis Daniel Franklin Pilario, 2005 What is praxis How do we do theology from its perspective These are the main questions which this book seeks to answer As propaedeutic to theological reflection it surveys the notion of praxis in the philosophical sociological and anthropological traditions from Aristotle and Marx to contemporary theories It argues that Pierre Bourdieu's theory of practice achieves a critical synthesis of these different traditions making it a viable theological dialogue partner Bourdieu provides us with a praxeological theory to

scrutinize the complexity of the social realm and an epistemological theory to understand the mystery of God's presence in these socio-historical conjunctures which serve as the privileged and only locus of His/Her revelation. The author thus engages two theologians who take praxis/practice as central to their theological methods: Clodovis Boff (liberation theology) and John Milbank (radical orthodoxy). From the perspective of its appropriated framework, this work attempts to avoid the limitations as well as preserve the gains achieved by these two approaches as it also explores the rudiments of a theological method relevant to our post-Marxist and postmodern global contexts. *Alienation and Affect* Warren

TenHouten, 2016-12-01. Alienation has objective social structural determinants yet is experienced subjectively as a psychological state involving both emotion and cognition. Part I considers conceptualizations of alienation and affect in historical context, emphasizing Rousseau, Hegel, Marx, Simmel, and Weber. Part II develops a theory of the affective bases of Seaman's original five varieties of alienation: normlessness, meaninglessness, self-estrangement, cultural estrangement, and powerlessness. The book argues that both normlessness and cultural estrangement manifest in two distinct forms and involve distinct emotions. Thus it develops the affective bases of seven distinct varieties of alienation. This work synthesizes classical and contemporary alienation theory and the sociology of emotions. It contributes to political sociology and finds application in social psychiatry and related health and social service fields that treat traumatized and highly alienated individuals.

Political Ideologies Leon P. Baradat, 2015-10-15. Brief and accessible *Political Ideologies* follows the evolution of political thought over 300 years. Organized chronologically, this text examines each major ideology within a political, historical, economic, and social context. Leon Baradat's skillful prose ensures that students obtain a clear understanding of how ideas are influencing the political realities of our time. *Biographical Dictionary of Literary Influences* John Powell, 2000-10-30

Over the past two decades, the process of cultural development and, in particular, the role of reading has been of growing interest, but recent research has been episodic and idiosyncratic. In this biographical dictionary, research devoted specifically to the reading habits of 19th-century individuals who shaped Western culture is brought together for the first time. While giving prominent coverage to literary and political figures, the volume's 270 entries also include musicians, painters, educators, and explorers. Each entry includes brief biographical information, a concise summary of literary influences on the subject, and clear direction for further research. The book provides a practical tool for scholars wishing to trace the reading experience of important Western cultural figures. Subjects were selected from the people most responsible for the cultural development of Europe, Britain, and the British Empire, and the Americas between 1800 and 1914. Although selective, the sample of 270 figures is substantial enough to suggest broad cross-cultural habits and effects, enabling scholars to better understand the relationship between reading and culture. In an introductory essay, Powell explores the patterns and relationships that can be discerned from the entries. The first of three anticipated volumes, the book is an important step forward in researching the role of reading in cultural development. *Marxism, Pragmatism, and Postmetaphysics* Ulf Schulenberg, 2019-02-15. From

Finding to Making offers the first detailed discussion of the relationship between Marxism and pragmatism. These two philosophies of praxis are not incompatible and an analysis of their relation helps one to better understand both. Establishing a transatlantic theoretical dialogue, this book discusses similarities and differences between these philosophies. It is an interdisciplinary study that brings together philosophy, American and European intellectual history, and literary studies.

Schulenberg's book shows that if we seek to continue the unfinished project of establishing a genuinely postmetaphysical culture, the attempt to elucidate the dialectics of Marxism and pragmatism is a good starting point. The book offers detailed discussions of Sidney Hook, Georg Lukács, Theodor W. Adorno, Fredric Jameson, W. E. B. Du Bois, John Dewey, Richard Rorty, and Jacques Rancière.

Configurations of the Real in Chinese Literary and Aesthetic Modernity Peter Button, 2009-03-25. The emergence of the Chinese socialist realist novel can best be understood in light of the half-century long formation of the modern concept of literature in China. Globalized in the wake of modern capitalism, literary modernity configures the literary text in a relationship to both modern philosophy and literary theory. This book traces China's unique complex and creative articulation of literary modernity, beginning with Lu Xun's *The True Story of Ah Q*. Cai Yi's aesthetic theory of the type *dianxing* and the image *xingxiang* is then explored in relation to global currents in literary thought and philosophy, making possible a fundamental rethinking of Chinese socialist realist novels like Yang Mo's *Song of Youth* and Luo Guangbin and Yan Yiyan's *Red Crag*.

The Algebra of Revolution John Rees, 2005-06-23. The Algebra of Revolution is the first book to study the Marxist method as it has been developed by the main representatives of the classical Marxist tradition, namely Marx and Engels, Luxemburg, Lenin, Lukács, Gramsci, and Trotsky. This book provides the only single-volume study of major Marxist thinkers' views on the crucial question of the dialectic connecting them with pressing contemporary political and theoretical questions. John Rees's *The Algebra of Revolution* is vital reading for anyone interested in gaining a new and fresh perspective on Marxist thought and on the notion of the dialectic.

Politics, Religion, and Art Douglas Moggach, 2011-04-14. The period from 1780 to 1850 witnessed an unprecedented explosion of philosophical creativity in the German territories. In the thinking of Kant, Schiller, Fichte, Hegel, and the Hegelian school, new theories of freedom and emancipation, new conceptions of culture, society, and politics arose in rapid succession. The members of the Hegelian school, forming around Hegel in Berlin and most active in the 1830s and 1840s, are often depicted as mere epigones whose writings are at best of historical interest. In *Politics, Religion, and Art*, Douglas Moggach moves the discussion past the Cold War era dogmas that viewed the Hegelians as proto-Marxists and establishes their importance as innovators in the fields of theology, aesthetics, and ethics, and as creative contributors to foundational debates about modernity, state, and society.

Beyond Theodicy Sarah K. Pinnock, 2012-02-01. *Beyond Theodicy* analyzes the rising tide of objections to explanations and justifications for why God permits evil and suffering in the world. In response to the Holocaust, striking parallels have emerged between major Jewish and Christian thinkers centering on practical faith approaches that offer meaning within suffering. Author Sarah K. Pinnock.

focuses on Jewish thinkers Martin Buber and Ernst Bloch and Christian thinkers Gabriel Marcel and Johann Baptist Metz to present two diverse rejections of theodicy one existential represented by Buber and Marcel and one political represented by Bloch and Metz Pinnock interweaves the disciplines of philosophy of religion post Holocaust thought and liberation theology to formulate a dynamic vision of religious hope and resistance

Marxism and 20th-Century English-Canadian Novels John Z. Ming Chen, Yuhua Ji, 2015-06-09 This monograph is the first academic work to apply a neo Marxist approach to 20th century Canadian social realist novels pursuing a refreshingly neo Marxist approach to such issues as Bakhtinian notions of the novelistic form and dialogism as applied to Canadian socio political novels influenced by various socialisms socialist feminist concerns economic and sexual politics and the genre of social realism In so doing it demonstrates that Marxist socialism is as relevant today as it was in the 1930s just as social realist novels continue to thrive as a critique of capitalism Readers will find valuable insights into the social significance formal innovations moral sensitivity aesthetic enrichment and ideological complexity of Canadian social realist novels

Hegelianism John Edward Toews, 1980 This is a study of the rise of Hegelian thought in the nineteenth century

History and Will Frederic E. Wakeman, 1973 Monograph on the philosophy and ideology of Mao Tse Tung on communism in China contrasting contemporary Maoism both with classical Chinese historical thinking and with the western sources of Marxism includes references

Hegel's Metaphysics and the Philosophy of Politics Michael J. Thompson, 2018-04-27 The renaissance in Hegel scholarship over the past two decades has largely ignored or marginalized the metaphysical dimension of his thought perhaps most vigorously when considering his social and political philosophy Many scholars have consistently maintained that Hegel's political philosophy must be reconstructed without the metaphysical structure that Hegel saw as his crowning philosophical achievement This book brings together twelve original essays that explore the relation between Hegel's metaphysics and his political social and practical philosophy The essays seek to explore what normative insights and positions can be obtained from examining Hegel's distinctive view of the metaphysical dimensions of political philosophy His ideas about the good the universal freedom rationality objectivity self determination and self development can be seen in a new context and with renewed understanding once their relation to his metaphysical project is considered Hegel's Metaphysics and the Philosophy of Politics will be of great interest to scholars of Hegelian philosophy German Idealism nineteenth century philosophy political philosophy and political theory

Philosophic Classics, Volume IV Forrest Baird, 2023-06-09 This anthology of readings in contemporary Western philosophy focuses on 19th century philosophers who represent a variety of responses to the issue of their day whether or not there was a knowable nonhuman rational order upon which thinking persons could willfully choose to act The selections are readable and accessible yet remain faithful to the original works Accompanying the text are drawings diagrams photographs and a timeline all of which allow the reader to really study the major philosophical thinkers of the 19th century Bentham Wollstonecraft Fichte Hegel Schopenhauer Comte Feuerbach Mill Kierkegaard Marx Peirce James and

Nietzsche For anyone interested in owning a collection of works from the greatest philosophical thinkers in the 19th century
