

## INCLUSIVE HERMENEUTICS: ETHICAL PERSPECTIVES

MARCIO JUNGLOS<sup>1</sup>

(IFSUL/Brasil)

## ABSTRACT

This article is concerned with inclusive hermeneutics. Six attitudes will be developed in order for hermeneutics to be inclusive. In the first four attitudes, we are inspired by the resolutions of Husserl's paradoxes in his book *The Crisis of European Sciences and Transcendental Phenomenology: An Introduction to Phenomenological Philosophy*, discussed in the paragraphs 52-54. After this, the term *reversibility*, reworked by Merleau-Ponty, will be essential to broaden our conception of inclusiveness. Finally, the new perspectives on the concept of *otherness/alienness* in Waldenfels will support an inclusive ethical-practical interpretation. This inclusiveness will lead us within an authentic judgment, fostering a realization of the Law in the context of the recognition of the differences, through a constant process of Law itself.

**Keywords:** Hermeneutics; Phenomenology; Inclusiveness; Law

## 1. Introduction

The book *Phenomenology of Inclusiveness*<sup>2</sup> has already laid the theoretical underpinnings for an inclusiveness that can measure the inclusive scope of ethics. It is characterized as an inclusive phenomenological method, and we wonder if there is a possibility of a proposal ethics that is not inclusive. Now, we need to know whether the human being, in fact, feels included; if the person to whom is said to have education, health, housing, life, etc., feels that she has these rights. The integrity of Law is not only in the letter, only in the due process of Law, but it is in the *life-world (Lebenswelt)*.<sup>3</sup> In this respect, Law is a vocation by which self-realization comes together with social realization. This leads us to the construction of an inclusive hermeneutics that will guarantee an inclusive method to all interpretation. To do so, let us reconstruct the inclusive phenomenological method, extending it to hermeneutics.

## 2. First attitude: latent reflection

In his work *Cartesian Meditations*, Husserl reports that we cannot form, by a process of abstraction, the idea of a foundation for all science. Also, we can neither construct nor accept

Theodore De Bary, William Theodore De Bary, Weiming Tu, 1998 They offer a balanced forum that seeks common ground providing needed perspective at a time when the Chinese government after years of denouncing Confucianism as an artifact of a feudal past has made an abrupt reversal to endorse it as a belief system compatible with communist ideology **The Bloomsbury Handbook of Global Justice and East Asian Philosophy** Janusz Salamon, Hsin-Wen Lee, 2024-08-22 Breaking out of the dominance of Anglo American scholarship this volume centralises East Asian philosophical traditions to explore cross cultural perspectives in the field of global justice studies By bringing together diverse traditions of thinking about justice that contrasts East Asian and Western thinkers traditions it avoids the shortcomings of narrow and one sided conceptualisations of global justice A range of contributors from East Asia Europe and the US who are conversant with both Western and East Asian philosophical traditions provide a rich engagement with contemporary issues relating to global

justice The book opens with a section devoted to the methodological challenges specific to cross cultural approaches to justice including the universalism particularism debate and the conditions of the possibility of cross cultural comparisons Part II explores how major East Asian philosophical traditions including Confucianism Legalism Daoism and Buddhism consider issues related to global justice The essays in Part III adopt a cross cultural and or comparative perspective on justice enabling the readers to appreciate similarities and differences between the East Asian and Western perspectives on justice and to appreciate cultural variation Key applied issues in global justice such as epistemic injustice human rights women s rights nationalism religious pluralism coercion corruption and post colonial justice receive full consideration in the final section of this indispensable reference work for understandings of global justice in East Asia specifically and cross culturally

Freud as a Social and Cultural Theorist Howard L. Kaye, 2018-11-14 This book offers a new account of Freud s work by reading him as the social theorist and philosopher he always aspired to be and not as the medical scientist he publicly claimed to be In doing so the author demonstrates that s Freud s social moral and cultural thought constitutes the core of his life s work as a theorist and is the thread that binds his voluminous writings together from his earliest essays on the neuroses to his foundational writings on dreams and sexuality and to his far ranging reflections on art religion and the dynamics of culture Returning to the fundamental questions and concerns that animate Freud s work the nature of evil the origins of religion morality and tradition and the looming threat of resurgent barbarism *Freud as a Social and Cultural Theorist* provides the first systematic re examination of Freud s social and cultural thought in more than a generation As such it will be of interest to social and cultural theorists social philosophers intellectual and cultural historians and those with interests in psychoanalysis and its origins

*Freud and the Legacy of Moses* Richard J. Bernstein, 1998-10-08 Freud s last book *Moses and Monotheism* was published in 1939 during one of the darkest periods in Jewish history This difficult book has frequently been vilified and dismissed because Freud claims that Moses was not a Hebrew but an Egyptian and that the Jews murdered Moses in the wilderness Richard Bernstein argues that a close reading of *Moses and Monotheism* reveals an underlying powerful coherence in which Freud seeks to specify the distinctive character and contribution of the Jewish people It is this character that has enabled the Jewish people to survive despite persecution and virulent anti Semitism and Freud proudly identifies himself with it In his analysis of Freud s often misunderstood last work Bernstein goes on to show how Freud expands and deepens our understanding of a religious tradition by revealing its unconscious dynamics

Places and Politics in an Age of Globalization Roxann Prazniak, Arif Dirlik, 2001-02-07 This ambitious work provides a unique statement on the question of place based activism and its relationship to powerful forces of international capital Arguing that specific places around the world are sites for the defense and enhancement of daily life in the context of rapidly expanding global technologies and investment options the contributors reach for a vision of social development that supports sustainable humane cultures Bringing together the local and the global this work provides the first sustained linkage of

ethnic groups in diaspora to macrocosmic processes of world capital that inevitably reach down to mediate even the most local experiences The essays ranging in their discussion of place from Los Angeles and New York to New Zealand and Indonesia offer both reasoned argument and authoritative information on how local experience interacts with larger processes of global capital and the diasporic phenomenon The book will be an invaluable resource and launching point for scholars and students in ethnic and identity studies and will interest all readers exploring the production of place and identification
