From Ec To Eu:

From EC to EU Richard McAllister, 2005-08-18 First published in 1997 Routledge is an imprint of Taylor Francis an informa company **The Eu and Cyprus** St Phanie Laulh Shaelou, 2010 At the crossroads between EU enlargement and European integration this book provides a comprehensive comparative analysis of the integration of Cyprus into the EU and discusses the various socio legal parameters of its differentiated path on the way towards full integration **Monitoring Fundamental Rights in the EU** Philip Alston, Olivier De Schutter, 2005-02 Coherent laws enforced by a central authority are part of the reason why human rights protection works at the national level in Europe But when it comes to the EU these dimensions are lacking The present system for protecting fundamental rights emerged on an ad hoc basis with measures being improvised to respond to particular problems In the next couple of years however this situation is likely to change very significantly The proposed European Constitution incorporates the EU Charter of Fundamental Rights and a specialized EU Fundamental Rights Agency is likely to be established As a result the situation of the EU will more closely resemble that of its Member States Fundamental rights will occupy a central role and coherent and systematic arrangements will be in place to protect rights using both judicial and non judicial means The Fundamental Rights Agency in particular has immense potential to ensure effective monitoring of fundamental rights in the EU and to ensure a unified strategy for their promotion in EU law and policy This volume is the first to critically examine the proposals put forward by the European Commission in October 2004 on the creation of the EU Fundamental Rights Agency Leading scholars in the field of European and international human rights law analyse the potential significance of this innovative Agency and seek to locate it in relation to various other human rights mechanisms both in the EU s constitutional structure and within Member States They review the tasks which the Agency could be called upon to perform and make proposals as to how it can function most effectively The relationship of EU law to the international law of human rights emerging from both the United Nations and the Council of Europe is examined The authors also address the challenge of ensuring improved coherence between EU law and the other human rights obligations undertaken by the Member States Taken together these contributions address urgent questions facing the EU at a time when the central unifying function of fundamental rights has been recognized but the way forward remains largely uncharted *EC/EU, a world security actor?* Gérard Bossuat, 2007 *The International Relations of the EU* Steve Marsh, Hans Mackensteen, 2014-09-11 In an incisive and lively discussion International Relations of the EU examines both the economic and security dimensions of European Union external relations The book adopts an innovative approach that combines International Relations with International Political Economy Set against a backdrop of EU enlargement and disarray over military intervention in Iraq International Relations of the EU is a timely contribution to our understanding of the Eu s role as an international actor The text is suitable for advanced undergraduate courses in Politics and International Relations Making the European Monetary Union Harold James, 2012-11-19 Europe s financial crisis cannot be blamed on

the Euro James contends in this probing exploration of the whys whens whos and what ifs of European monetary union The current crisis goes deeper to conundrums that were debated but not resolved at the time of the Euro s invention And Euro or no Euro these clashes will continue into the future

Economics and the Interpretation and Application of U.S. and E.U. Antitrust Law Richard S. Markovits, 2014-05-22 This volume 1 defines the specific anticompetitive intent lessening competition distorting competition and exploitative abuse tests of illegality promulgated by U S and or E U antitrust law 2 compares the efficiency defenses promulgated by U S and E U antitrust law 3 compares the conduct coverage of the various U S and E U antitrust laws 4 defines price competition and quality or variety increasing investment QV investment competition and explains why they should be analyzed separately 5 defines the components of individualized pricing and across the board pricing sellers price minus marginal cost gaps and analyses each s determinants 6 defines the determinants of the intensity of QV investment competition and explains how they determine that intensity 7 demonstrates that definitions of both classical and antitrust markets are inevitably arbitrary not just at their periphery but comprehensively 8 criticizes the various protocols for market definition recommended used by scholars the U S antitrust agencies the European Commission and U S and E U courts 9 explains that a firm s economic market power or dominance depends on its power over both price and QV investment and demonstrates that even if markets could be defined non arbitrarily a firm s economic power could not be predicted from its market share 10 articulates a definition of oligopolistic conduct that some economists have implicitly used conduct whose perpetrator perceived ex ante profitability depended critically on the perpetrator s belief that its rivals responses would be affected by their belief that it could react to their responses distinguishes two types of such conduct contrived and natural by whether it entails anticompetitive threats and or offers explains why this distinction is critical under U S but not E U antitrust law analyzes the profitability of each kind of oligopolistic conduct examines these analyses implications for each s antitrust legality and criticizes related U S and E U case law and doctrine and scholarly positions e g on the evidence that establishes the illegal oligopolistic character of pricing and 11 executes parallel analyses of predatory conduct e g criticizes various arguments for the inevitable unprofitability of predatory pricing the various tests that economists U S courts advocate using use to determine whether pricing is predatory and two analyses by economists of the conditions under which QV investment and systems rivalry are predatory and examines the conditions under which production process research plant modernization and long term full requirements contracts are predatory

Adapting to European Integration Kenneth Hanf, Ben Soetendorp, 2014-09-11 Adapting to European Integration describes how the political institutions in eight small member states and two non members responded to the internal and external demands springing from the process of European integration in general and EC EU membership in particular The study makes a distinction between governmental administrative adaptation political adaptation and strategic adaptation The chapters focus in the first instance on the governmental administrative responses at the level of central government the organisational

adjustments and the changes in institutional capacity to meet the new challenges The authors also look at the willingness of the political decision makers to internalise the EC EU dimension in domestic policy making and the way in which the country's own history as well as the attitude towards European integration facilitate or hinder adaptation and change

EU Law Paul P. Craig, Gráinne de Búrca, 2008 Written by two prominent experts in the field the fourth edition of the market leading EU Law Text Cases and Materials offers the reader an authoritative and comprehensive guide to the main fields of EU Law both institutional and substantive Through the distinctive mix of 50% text and 50% cases and materials the fully revised and updated fourth edition addresses the significant recent developments in EU legislation including four new chapters on topics of central importance The new enlarged format includes a two colour text design which easily distinguishes between author commentary and cases and materials Craig and de Búrca's EU Law Text Cases and Materials is the bestselling EU Law textbook recommended by many institutions as a core text for LLB courses and trusted by thousands of students to provide an authoritative commentary on EU Law Accompanied by an Online Resource Centre containing an interactive map of Europe with hot spots on all EU member states providing factual information on each member country interactive timeline tracking key dates in EU legal history

Integration Dirk Heremans, 2004 The subjects dealt with in the papers include the relationship between the freedoms in the

EC treaty and private international law financial regulation and supervision of banks the international insurance market and the Euro in the new member states

Europe from Below Tuuli Lähdesmäki, Katja Mäkinen, Viktorija Linda Aldona Čeginskas, Sigrid Kaasik-Krogerus, 2021-03-15 In this book Tuuli Lähdesmäki, Katja Mäkinen, Viktorija Linda Aldona Čeginskas and Sigrid Kaasik-Krogerus scrutinize how people who participate in cultural initiatives funded and governed by the European Union understand the idea of Europe The book focuses on three cultural initiatives the European Capital of Culture the European Heritage Label and a European Citizen Campus project funded through the Creative Europe programme These initiatives are examined through field studies conducted in 12 countries between 2010 and 2018 The authors describe their approach as ethnography of Europeanization and conceptualize the attempts at Europeanization in the European Union's cultural policy as politics of belonging

European Union Foreign Policy and Central America H. Smith, 1995-07-17 This book provides an evaluation of the European Community's transformation from a rather uncoordinated small group of member states with a barely visible foreign policy into a relatively cohesive and independent foreign policy actor that is today known as the European Union The EC's extensive and hitherto undocumented intervention in the high profile Central American conflict of the 1980s demonstrates a coherence and convergence around a policy that was different from that of the United States and in the end more effective The book also discusses how four key member states Britain the Federal Republic of Germany France and Spain reacted both to the growing crisis in Central America and to West Europe's conflictual relations with the US The EC's foreign policy success will not easily be emulated in another international crisis While the EU remains a non unitary non state actor it is only in non crises that the EU particularly an enlarged EU will be able to operate an effective foreign policy post Maastricht

Interlocking Constitutions Luis I Gordillo, 2012-04-25 The existence of interactions between different but overlapping legal systems has always presented challenges to black letter law This is particularly true of the relationship between international law and domestic law and the relationship between federal law and the laws of individual federation members Moreover some organisations have created their own supranational constitutional systems the United Nations Charter is the best known and is often referred to as the World Constitution but the European Court of Justice in Luxembourg views the European Treaties as a Constitutional Charter for Europe while the European Court of Human Rights has defined the European Convention on Human Rights as a constitutional instrument of European public order It is in the dynamic relationship between domestic constitutional laws EU law the ECHR and the UN Charter that the most persistent difficulties arise In this context interordinal instability not only provokes strong academic interest but also affects what has been called governance or global government and undermines both legal certainty and individual fundamental rights Different solutions constitutionalist and pluralist have been explored but none of them has received global acceptance In this book Luis Gordillo analyses the interordinal instabilities which arise at the European level focusing on three main strands of case law and their implications Solange Bosphorus and Kadi To solve the difficulties caused by this instability

Gordillo proposes a form of soft constitutionalism which he calls interordinal constitutionalism as a means to bring order and stability to global legal governance The original Spanish thesis on which this book is based was awarded the Nicolás P rez Serrano Prize by the Centro de Estudios Pol ticos y Constitucionales for the best dissertation in constitutional law 2009 2010
