Reconstructing Criticism Philip Smallwood, 2003 This study aims to bring the modern theory of literary criticism and Pope s Essay on Criticism of 1711 into a more productive and interesting association than critical historical structures have generally allowed Smallwood marks out in current terms and in depth the specialized theoretical and aesthetic problem of defining criticism He recognizes that criticism no more than literature or art cannot be finally codified or defined but insists on the need for clarity in the exposition of criticism s purposes and a fuller consciousness of a common community of practice available to audiences outside the academic fold Affirming the unfailing currency and utility of the term criticism as new languages have taken over the critical domain or have sought to replace or abolish literature Smallwood distinguishes between the normative definitions that are everywhere apparent in modern theory of criticism and the advantages to conceptual comprehension achieved by Pope s poetic idea of criticism in the Essay

This book offers a much needed reassessment of F R Leavis Gary Day argues that post structuralist theory has defined itself in opposition to Leavis when in fact there are certain parallels between the two types of criticism Day also draws attention to the connections between Leavis s early work and the emergent discourses of consumerism and scientific management In particular he notes how at the centre of each is an image of the body and he analyses what this means for Leavis s conception of reading By situating Leavis in relation to the concerns of post structuralism and by locating him firmly in his historical context Day is able to chart how far criticism can justly claim to be oppositional At the same time Day is able to recuperate from Leavis s work a notion of value a topic which is becoming increasingly important in literary and cultural studies today

**Myth, Language and Tradition** Wit Piętrzak,2011-05-25 How can poetry embrace morality through focusing on metaphrasts What is the relation between an allumette and the alpha rhythm How come that money has turned into a metonym of goodness And above all is it still possible to think of the human subject as a viable category in late modernity These are some of the questions that J H Prynne s poetry deals with *Levity of Design* voices a critique of the present day society very much from within and demonstrates how Prynne has contrived to single handedly overcome the impasse created by the legacy of poststructuralism In a milieu of avant garde linguistic experiment developed from modernist techniques of Pound and Olson but also the early Eliot as well as Velimir Khlebnikov and against the background of the writings of Heidegger and Adorno these poems are demonstrated to seek a language in which the notion of man can be restituted

Katherine Mansfield Gerri Kimber,2008 This book assesses the reason why Katherine Mansfield s reputation in France has always been greater than in England It examines the ways in which the French reception of Mansfield has idealised her persona to the extent of crafting a hagiography Mansfield is placed within the general literary context of her era exploring French literary tendencies at the time and juxtaposing them with the main literary trends in England The author determines the motives behind the French critics desire to put Mansfield on a pedestal discusses how the three years she spent on French soil influenced her writing and whether the translations of her work collude in the myth surrounding her personality This book is the first sustained attempt to establish interconnections between her own French influences literary and otherwise and the myth making of the French critics and translators The book also follows the critical appraisal of Mansfield s life and work in France from her death up to the present day by closely analysing the differing French critical responses The author reveals how these various strands combine to create a legend which has little basis in fact thereby demonstrating how reception and translation determine the importance of an author s reputation in the literary world      **International Companion Encyclopedia of Children's Literature** Peter Hunt,Sheila G. Williams, 2005 In the Light of Likeness transformed by Dana A Williams looks critically at the work of contemporary African American author Leon Forrest Not only does she bring to the critical table a well known but as yet understudied modernist author an important endeavor in and of itself but she also explores Forrest's novels cultural dialogue with black ethnic culture and other African American authors as well as provides in depth readings of his prose and interpretations of his narrative style Forrest's highly experimental narrative style his reinterpretation of modernism and his transformations of black cultural traditions into literary aesthetics often pose challenges of interpretation for the reader and the scholar alike As the first single authored book length study of Forrest's novel this book offers readers pathways into his fiction What this culturalist approach to the novels reveals is that Forrest's fiction was foremost concerned with investigating ways for the African American to survive in the contemporary moment Through a variety of characters the novels reveal the African American's art of transformation the ability to find ways to make the wretchedness of the past work in positive ways BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **Consciousness in Modernist Fiction** V.
