From Good Will to Civil Rights Richard K. Scotch, 1984-01-01 Now that curb cuts braille elevator buttons and closed captioned television are commonplace many people assume that disabled people are now full participants in American society This book tells a rather different story It tells how America's disabled mobilized to effect sweeping changes in public policy not once but twice and it suggests that the struggle is not yet over **Foundations of Disability Studies** M.

Wappett, K. Arndt, 2013-11-11 A collection of eight essays by scholars who have published extensively within the disability studies literature and who have helped build the field to its current state Includes contributions from Robert Bogdan Doug Biklen Susan Schweik and more **Americans with Disabilities** Leslie Francis, Anita Silvers, 2015-12-22 In this

groundbreaking work leading philosophers legal theorists bioethicists and policy makers offer incisive looks into the philosophical and moral foundations of disability law and policy **Disability Studies in India** Renu Addlakha, 2020-11-29 Since the 1970s the international disability rights movement the United Nations and national governments across the world have attempted to ameliorate the status of the disabled population through a range of legislative and policy measures primarily in the areas of health education employment accessible environments and social security While the discourse in the disability sector in India has shifted from charity and welfare to human rights and entitlements disability studies as an interdisciplinary academic terrain that focuses on the contributions experiences history and culture of persons with disabilities has not yet taken root This volume collates some of the most recent pioneering work on disability studies from across the country The essays presented here engage with the concept of disability from a variety of disciplinary positions sociocultural contexts and subjective experiences within the overarching framework of the Indian reality The contributors including some with disabilities themselves provide a well rounded perspective in shifting focus from disability as a medical condition only needing clinical intervention to giving it due social and academic legitimacy This book outlines key issues that would be germane to any disability studies endeavour in India and South Asia and will appeal to academics activists institutions laypersons and professionals involved in social welfare sociology disability studies women's studies psychiatry rehabilitation and social and preventive medicine *Architecture's Disability Problem* Wanda Katja Liebermann, 2024-06-21

Architecture's Disability Problem explores the intersection of architecture and disability in the United States from the perspective of professional practice This book uncovers why despite the profound effect of the Americans with Disabilities Act on the architectural profession there has been so little interest in design for disability in mainstream architecture To counter this the book investigates alternative approaches to designing with disability through three case studies These showcase both buildings and how design processes driven by disabled people shape design and professional roles Combining historical research formal and discourse analysis and interviews with people who design construct use buildings and

advocate for access the book develops a social understanding of how the buildings work at functional affective and symbolic levels Architecture s Disability Problem is aimed at three primary readers practicing architects architectural scholars and members of disability scholar activist communities Grounded in detailed design studies the author hopes to unearth the social meaning making of architecture related to disability Ultimately the book makes an argument for a focus on disability in its own right as well as on the body in place of the dominance of formal object oriented approaches This book presents and argues for a fundamental shift in the way architectural education policy and practice views and engages with disability It will be key reading for students researchers practitioners and policy makers

Institutional Disability Robert A. Katzmann, 2010-12-01 This case study of transportation policy for disabled people illustrates the flaws in policymaking that lead many Americans to believe government is not working as it should Robert A Katzmann examines the workings of the legislative administrative and judicial processes both separately and in interaction as he relates the erratic path of transportation policy for the disabled over two decades An estimated 13 4 million people in this country have difficulty using public transportation but the federal response to their problems of mobility is of fairly recent vintage beginning with legislation in the early 1970s Since then there have been many twists and turns in policy involving a wide array of governmental institutions These constant shifts have confused state and local governments the transit industry and the disabled community Assessing why policy was so erratic Katzmann concludes that in part the confusion resulted from the inability to choose between conflicting approaches to the problem one oriented toward the rights of equal access for the disabled and the other favoring effective mobility by any practical means In addition the conflict between these two policy approaches was compounded by increasing fragmentation within and among national institutions *Chasing the Intact Mind* Amy S. F. Lutz, 2023-09-20 In *Chasing the Intact Mind* Amy Lutz traces the history of the intact mind concept explaining how it influences current disability policy and practice in the United States Lutz describes how we got to this moment where the severely autistic are elided out of public discourse and the intensive disability specific supports they need defunded or closed altogether Lutz argues that focusing on the intact mind and marginalizing those with severe disability reproduces

historic patterns of discrimination that yoked human worth to intelligence and that it is only by making space for the impaired mind that we will be able to resolve these ongoing clashes as well as even larger questions of personhood dependency and care **Social Histories of Disability and Deformity** David M. Turner, Kevin Stagg, 2006-09-27
