**Canadian Engineer**, 1927 **Selected Water Resources Abstracts**, 1989-11 **Lees' Loss Prevention in the Process Industries** Frank Lees, 2012-11-05 Safety in the process industries is critical for those who work with chemicals and hazardous substances or processes. The field of loss prevention is and continues to be of supreme importance to countless companies, municipalities, and governments around the world, and Lees is a detailed reference to defending against hazards. Recognized as the standard work for chemical and process engineering safety professionals, it provides the most complete collection of information on the theory, practice, design, elements, equipment, regulations, and laws covering the field of process safety. An entire library of alternative books and cross-referencing systems would be needed to replace or improve upon it, but everything of importance to safety professionals, engineers, and managers can be found in this all-encompassing three-volume reference instead. The process safety encyclopedia, trusted worldwide for over 30 years, now available in print and online to aid searchability and portability. Over 3,600 print pages cover the full scope of process safety and loss prevention, compiling theory, practice, standards, legislation, case studies, and lessons learned in one resource as opposed to multiple sources.

**Investing in Place** Sean Markey, Greg Halseth, Don Manson, 2012-08-01 The future of northern British Columbia, a vast resource-rich region of vibrant cultures and diverse communities, could be either driven by a narrow economic agenda or guided by innovative place-based solutions that seek to build viable communities and resilient local and regional economies. Investing in Place is about creating the foundations for renewing northern British Columbia's rural and small-town economies. Markey, Halseth, and Manson argue that renewal is not about nostalgic reliance on the policies and economic strategies of the

past rather it is about building a pragmatic and innovative vision for development one that acknowledges both the opportunities and the challenges posed by resource development and global and technological change For policy makers and residents alike the path to renewal lies in place based development which consists of people working together at all levels of the community and region to take advantage of local opportunities in a sustainable responsible way Towards Sustainable Building N. Maiellaro,2013-03-14 This volume contains the extended versions of selected papers presented at the first Mediterranean Conference Sharing Knowledge on Sustainable Building held at the Polytechnic of Bari in December 1999 supported by the National Research Council of Italy The publication of this book was made possible through the efforts of the contributing Authors Other people have provided invaluable support for the conference and for the preparation of this volume in particular I wish to thank Antonella Lerario for providing support in the final editing of the text and images 1 As reported in Boonstra and Rovers 200 I people spend a great deal of time inside buildings therefore decisions about design construction use maintenance renovation demolition reuse and recycling of buildings have a huge impact on the sustainable development of our society Technical aspects however should be supported by adequate policies developed with appropriate tools and driven by meaningful challenges For people involved in sustainable buildings the conceptual frameworks studies and experiences collected in this volume organized into three parts Policies Tools and Challenges will help to advance knowledge allowing them to adopt and more efficiently implement such innovations sooner **Water and Urban Development Paradigms** Jan Feyen,Kelly Shannon,Matthew Neville,2008-09-03 Communication across and integration of disciplines in the urban water sector seems today more imperative than ever before Water is a strategic and shrinking resource It is probably the world s most valuable resource and clean water has even been touted as the next oil Control of water from access to management has always been a
