**Leviathan Transformed** Theodore Caplow,2002-01-16 The authors using these goals as a checklist found that each of the seven states performs well in some areas and badly in others They discovered that all states approached these goals in a style shaped by their own history and in particular by how they have been affected by the troubles of the twentieth century Their investigations offer a new informative way of looking at these nation states and detail the social and political conditions in each state Contributors include Theodore Caplow Salustiano Del Campo Royal Academy of Political and Social Science Madrid Nikolai Genov Bulgaria Academy of Sciences Karl Otto Hondrich Goethe University Simon Langlois Universit de Laval Alberto Martinelli University of Milan and Henri Mendras OFCE Paris

**The Enlargement of the European Union** Victoria Curzon Price,Alice Landau,Richard Whitman,2012-11-12 This volume looks at the process of enlargement which the European Union is currently undertaking focusing on both the economic and political dimensions of the subject The volume examines how enlargement has evolved and looks at the roles and relations of the different actors member states applicant states and EU institutions With contributors coming from different disciplinary backgrounds the volume offers an unusually

rich array of perspectives on one of the most significant political developments of recent years      *When is Transition Over?* Annette N. Brown,1999 Contains six lectures which discuss criteria for determining the end of the transition process These include changes in the characteristics of the economic system outcomes of the transition process and institutional reforms

**European Industrial Policy** James Foreman-Peck,Giovanni Federico,1999 At the end of the 20th century with stagnating industrial output unemployment in many European countries has climbed to levels not seen since the 1930s Interventionist industrial policies thus find new popularity after the gentle flirtation with liberalization in the early 1990s Under the Maastricht Treaty the European Union was granted industrial policy powers for the first time The present study aims to contribute to an understanding of European industrial policy by introducing an historical perspective National policy continuities and the considerable time over which industrial performance responds to changed environments emerge with greater clarity in the long run The chapters in this book take a broad view of industrial policy including those policies that establish the framework such as competition law as well as sector for firm specific policies The overall conclusion is that improved framework policies such as liberalization and re regulation are still essential Monetary union in the core will increase tensions arising from economic inflexibility Although there are often strong political barriers blocking implementation of appropriate industrial policies they will be even more necessary under monetary union

**Transformation at Work** Anna Pollert,2000-01-13 The book is well written and clearly structured bringing together much dispersed material The most interesting part of the book is the case study of the Czech engineering firm CKD The case study gives an insight into the continuing processes of transition transition is a process rather than a jump from Socialism to capitalism The author provides solid evidence on the ways in which adjusting to the market has proved painful and in the end unsuccessful for CKD which has been merged with another firm Overall Transformation at Work provides a valuable insight into the realities of the transition process at the enterprise level Employee Relations In this book Anna Pollert questions the values hidden in the burgeoning literature on transformation and addresses the main concerns arising from these In exploring the key issues of post communist transformation the author discusses important theoretical issues about the nature of change and continuity such as historical socio economic and political effects of transformation the broad problems of how workers and their organizations respond to change from command to capitalist economies and case studies of how managers workers and trade unionists experience these changes within their organizations Transformation at Work explores the key issues of post communist transformation in Eastern Europe The author discusses important aspects of the nature of change and continuity including historical socio economic and political effects how workers and their organizations respond to change from command to capitalist economies and how managers workers and trade unionists experience change within their organizations      Unemployment in Southern Europe Nancy G. Bermeo,2014-02-04 Unemployment is one of Southern Europe s most serious political problems Though much has been written about unemployment s causes and cures systematic

attention to its consequences is lacking This collection of original essays deals with the effects of unemployment on regimes parties immigrants economies and families highlighting the differences and the similarities among Southern European states and offering lessons about the profound human consequences of unemployment in general Building Capitalism Anders Åslund, 2002
