McKenzie,2012-12-06 The essays in this volume were a challenge to me to write I am an economist to the core inclined to
evaluate most observed behavior and public policies with conventional neoclassical theory The essays represent my attempt
to come to grips with the meaning and importance of what I try to do as a professional economist They reflect my attempt to
acquire a new and improved understanding of the usefulness and limitations of the writings of professional economists
especially my own In this regard although I hope others will find the thoughts useful the volume represents a personal
statement of how one economist views his and others work For that reason the discussion is often openly normative tinged
with the conviction that social discourse is more than costs and benefits and that economics cannot be fully evaluated by the
methods economic methods that are the subject of the evaluation These essays could not have been written without
considerable encouragement and help from colleagues and friends The following people are recognized for having read one
or more chapters and for having contributed critical substantive comments Diana Bailey Wilfred Beckerman Geoffrey
