Havrylyshyn,2006-02-20 The most comprehensive and up to date analysis of the successes and failures of 27 countries post communism transformation Looking at life after the fall of the Berlin wall in 1989 the book examines and contrasts why some countries have virtually completed their transformation to a liberal polity and economy while others lag behind *The American Bibliography of Slavic and East European Studies* Patt Leonard,Rebecca Routh,2020-02-27 This bibliography first published in 1957 provides citations to North American academic literature on Europe Central Europe the Balkans the Baltic States and the former Soviet Union Organised by discipline it covers the arts humanities social sciences life sciences and technology *Ethnicity and Democratisation in the New Europe* Karl Cordell,2006-08-21 A broad ranging study that explores the complex relationship between ethnicity and democratization focusing on specific case studies including France Spain Slovakia the Czech Republic Russia Albania and Hungary Marrying the empirical and theoretical the book begins by conceptualizing the nature of ethnicity and relating these ideas to different theories of democracy and democratization The contributors locate ethnic experiences within a series of common frameworks to shed light on key issues such as the effect of democratization and authoritarian rule on ethnic tensions the extent to which ethnicity is constructed as an ideological tool whether democracy can only function if all citizens are fully assimilated *The Fall* Steven Saxonberg,2017-07-05 With a foreword by Seymour Lipset Hoover Institution and George Mason University USA The Fall examines one of the twentieth century's great historical puzzles why did the communist led regimes in Eastern Europe collapse so quickly and why was the process of collapse so different from country to country This major study explains why the impetus for change in Poland and Hungary came from the regimes themselves while in Czechoslovakia and East Germany it was mass movements which led to the downfall of the regimes **Severed States** Robert K. Market-oriented Systemic Transformations in Eastern Europe Paul J.J. Welfens,2012-12-06 Socialist economies in Eastern Europe have collapsed and embarked upon market oriented reforms The causes of the demise of centrally planned

economies are analyzed and the basic challenges of systemic transformation discussed. Negative income and wealth effects as well as distribution issues make adjustment extremely difficult. The fundamental roles of privatization and foreign investment are addressed. Foreign economic liberalization is considered to be of central importance for a growth oriented adjustment path in a stage of conflict prone policy and options. Political economic aspects of the new European developments in addition to North South issues are analyzed. Difficult choices await decision makers in economic policy and the business community in Eastern Europe and in leading market economies.

Globalization and Growth Richard H. K. Vietor, Robert E. Kennedy, 2001. The new text contains cases developed for use in teaching international political economy at the Harvard Business School. They represent the major developmental trajectories that have defined the recent history of economic growth. These cases empirically describe the strategies of China, India, Japan, Mexico, South Africa, Poland, and the Czech Republic, Europe, and the United States. As a group, these countries represent more than half the world's population and nearly two thirds of its gross domestic product. The cases are as much political and institutional as they are economic and are based on Harvard's way of teaching analytical methodology for managers called country analysis, which is a method of identifying the economic performance, social and political context, and national development strategy of a country or region. It also assesses the strategy in terms of its effects on the performance and its fit with context.

Managing In Emerging Market Economies Daniel S. Fogel, 2019-03-08. Since 1989, east central Europe has plunged headlong into reform efforts and firms large and small have been forced almost overnight to adapt to the demands of a market economy. This book of case studies on business development in the Czech and Slovak Republics illustrates how various industries and specific companies are responding to the challenge.

A Comparative View on Economic Reform in Poland, Hungary and Czechoslovakia Marie Lavigne, 1994. *Eastern Europe, 1986-1993* Robert H. Burger, Helen F. Sullivan, 1995-12-15. Describing approximately 1 000 books published between 1986 and late 1993, this work provides readers with a selective guide to English language publications on the subject of Eastern Europe. It covers general studies of the area as well as works on the individual countries of Albania, Bulgaria, the former Czechoslovakia, the former German Democratic Republic, East Germany, Hungary, Poland, Romania, and the former Yugoslavia. In addition to bibliographic and descriptive information, the authors also include citations to book reviews. A companion to their *Russia and the Former Soviet Union*. Libraries Unlimited, 1994. This volume also focuses on the social sciences and the humanities. As interest about this part of the world continues to build, English language publications about it proliferate. Burger and Sullivan's guide is a pertinent addition to academic and public library collections.

Transformation and Crisis in Central and Eastern Europe Bruno Dallago, Steven Rosefielde, 2016-05-05. The Economics of Transformation Alfred Schipke,Alan M. Taylor,2012-12-06 Janos Kornai The collapse of the socialist system in eastern Europe and the Soviet Union is one of the major events of this century perhaps the most important of all The transformation now taking place is without any precedent in history The original development of capitalism was a process that lasted for centuries The almost total liquidation of capitalism in the countries ruled by communist parties took place in historical terms in a very short period of time but it was carried out by force and repressive methods The transformation which has now begun is diverting these countries back onto the path of capitalist development and the hope is that the process will take place much faster than the original emergence of capitalism And another hope can be expressed that the governments of these countries will not resort during the process to the arsenal of political violence and repression in order to speed it up Although the post socialist transformation is a historically unique phenomenon some components and features of it show a similarity with other processes or events that took place under other circumstances Other empires before the Soviet empire collapsed The political structures of other countries took the path from dictatorship to democracy Under other conditions state assets have been privatized inflation has been curbed foreign capital has flowed in new oligopolies have formed and so on The uniqueness lies in the new specific configuration of these component processes

and many other phenomena **Economies in Transition** Ian Jeffries, 2013-05-13 This volume provides an in depth review of major economic developments in those economies which are in some stage of transition following the collapse of communism in the Eastern block The book is divided into four parts theoretical issues in the transition from command to market economies the events in the fifteen independent countries of the former Soviet Union Eastern Europe non European states In all the author chronicles events from 1993 to 1995 in thirty five countries Economic developments are set in their political context and presented chronologically as far as possible A Guide to the Economies in Transition carries on where Ian Jeffries previous book left off The work is entirely new and as such can be seen as a companion to the earlier title These books are becoming known as invaluable guides providing unique levels of reference in work of this type
