Economic Thinking For The Theologically Minded:

Economic Thinking for the Theologically Minded Samuel Gregg, 2001 Economic Thinking for the Theologically Minded provides an introduction to what has been called the economic way of thinking which explains some of the critical concepts and foundational assumptions employed in economics To communicate these ideas effectively to those engaged in theological studies this book avoids using unnecessary technical terminology These concepts are then subject to analysis from the standpoint of Christian ethics with emphasis placed upon the often unsuspected degree of agreement between economics and Christian belief about the nature of the person The second half of the book consists of a collection of selections from classical economic texts representing a range of authors from a variety of schools of thought These selections have been arranged around ten key concepts each of which attempts to deepen understanding of various ideas presented in the book s **Economic Thinking for the Theologically-minded** Gregory M. A. Gronbacher, 2000 first half Community Robert Garnett Ir., Paul Lewis, Lenore T. Ealy, 2014-11-27 Since the end of the Cold War the human face of economics has gained renewed visibility and generated new conversations among economists and other social theorists The monistic mechanical economic systems that characterized the capitalism vs socialism debates of the mid twentieth century have given way to pluralistic ecologies of economic provisioning in which complexly constituted agents cooperate via heterogeneous forms of production and exchange Through the lenses of multiple disciplines this book examines how this pluralistic turn in economic thinking bears upon the venerable social theoretical division of cooperative activity into separate spheres of impersonal Gesellschaft commerce and ethically thick Gemeinschaft community Drawing resources from diverse disciplinary and philosophical traditions these essays offer fresh critical appraisals of the Gemeinschaft Gesellschaft segregation of face to face community from impersonal commerce Some authors issue urgent calls to transcend this dualism whilst others propose to recast it in more nuanced ways or affirm the importance of treating impersonal and personal cooperation as ethically epistemically and economically separate worlds Yet even in their disagreements our contributors paint the process of voluntary cooperation the space commerce and community with uncommon color and nuance by traversing the boundaries that once separated the thin sociality of economics as science of commerce from the thick sociality of sociology and anthropology as sciences of community This book facilitates critical exchange among economists philosophers sociologists anthropologists and other social theorists by exploring the overlapping notions of cooperation rationality identity reciprocity trust and exchange that emerge from multiple analytic traditions within and across their respective disciplines **Liberating Black Theology** Anthony B. Bradley, 2010-02-03 When the beliefs of Barack Obama s former pastor Rev Jeremiah Wright assumed the spotlight during the 2008 presidential campaign the influence of black liberation theology became hotly debated not just within theological circles but across cultural lines How many of today s African American congregations and how many Americans in general have been shaped by its view of blacks as perpetual

victims of white oppression In this interdisciplinary biblical critique of the black experience in America Anthony Bradley introduces audiences to black liberation theology and its spiritual and social impact He starts with James Cone s proposition that the victim mind set is inherent within black consciousness Bradley then explores how such biblical misinterpretation has historically hindered black churches in addressing the diverse issues of their communities and prevented adherents from experiencing the freedoms of the gospel Yet Liberating Black Theology does more than consider the ramifications of this belief system it suggests an alternate approach to the black experience that can truly liberate all Christ followers Your God with All Your Mind J.P. Moreland, 2014-03-14 We know that faith means being sure of what we hope for and certain of what we do not see Hebrews 11 1 NIV Love Your God with All Your Mind explains the importance of using your mind not only to win others to Christ but also to experience personal spiritual growth Author J P Moreland challenges you to use logic and reason to further God's kingdom through evangelism apologetics worship and vocation This revised edition includes expanded appendixes and three new chapters that outline how to reason for the reality of God and the historicity of Political Economy as Theodicy David L. Blaney, 2024-03-05 Political Jesus life teachings death and resurrection Economy as Theodicy Progress Suffering and Denial proposes that political economics operates within a theological symbolic order that dictates modern sociopolitical and economic life as a whole This book revisits the work of key figures in the history of political economy and economic thought primarily Adam Smith Bernard Mandeville David Hume Thomas Malthus W Stanley Jevons Alfred Marshall and John Bates Clark Theodicy is a constitutive element of an international political economy IPE that often disavows moral evil while it conversely redefines such evil as an actual good within economic life Beginning with the Enlightenment thinkers and continuing through to the modern neoclassical economists this book traces the initial emergence of a natural theological basis for political economic thinking and concludes with a discussion of its application in modern IPE Relying upon a postcolonial framework the author seeks to provincialize economics creating space for alternative modes of being and doing This book will appeal to scholars and advanced students of IPE political theology international relations and postcolonial studies Ecumenical Babel Jordan Joseph Ballor, 2010 A critical engagement of the ecumenical movement's approach to ethical and economic issues Ecumenical Babel updates a line of criticism articulated by Dietrich Bonhoeffer Paul Ramsey and Ernest W Lefever Arguing for the continuing importance of Christian ecumenism Jordan J Ballor seeks to correct the errors created by the imposition of economic ideology onto the social witness of ecumenical Christianity as represented by the Lutheran World Federation the newly formed World Communion of Reformed Churches and the World Council of Churches Ecumenical Babel is a voice for sustained ecumenical dialogue vital ecclesiastical witness and individual Christian conscience BACK COVER Work R. Eden's Bridge David B. Doty, 2012-01-01 Eden's Bridge The Marketplace in Creation and Mission explores a biblically based theology of the marketplace implicit in the creation narrative of Genesis 1 2 The thesis validates the calling and ministry of all marketplace Christians David Doty invites readers to rethink and redirect the purposes of vocation trade and profit toward the purposes of God's Kingdom as they were revealed in the beginning and are to be restored in Christ's reign This book is eye opening and inviting as it explores how God is moving to reclaim the marketplace for His Kingdom and His redeeming purposes for the world of commerce The marketplace holds untold potential if business is conducted according to God's plan poverty can be eradicated abundant living can be shared among all people and shalom can prevail Eden's Bridge offers hope for recovering from the recent collapse of the global economic system by envisioning a new view of how wealth is made and how the marketplace is yet to serve God's purposes in His mission to the world Free Markets and the Culture of Common Good Martin Schlag, Juan Andrés Mercado, 2012-04-23 Recent economic development and the financial and economic crisis require a change in our approach to business and finance This book combines theology economy and philosophy in order to examine in detail the idea that the functioning of a free market economy depends upon sound cultural and ethical foundations The free market is a cultural achievement not only an economic phenomenon subject to technical rules of trade and exchange It is an achievement which lives by and depends upon the values and virtues shared by the majority of those who engage in economic activity It is these values and virtues that we refer to as culture Trust credibility loyalty diligence and entrepreneurship are the values inherent in commercial rules and law But beyond law there is also the need for ethical convictions and for global solidarity with developing countries This book offers new ideas for future

sustainable development and responds to an increasing need for a new sense of responsibility for the common good in societal institutions and good leadership Out of Our Minds Felipe Fernández-Armesto, 2019-07-02 To imagine to see what is not there is the startling ability that has fueled human development and innovation through the centuries As a species we stand alone in our remarkable capacity to refashion the world after the picture in our minds Traversing the realms of science politics religion culture philosophy and history Felipe Fern ndez Armesto reveals the thrilling and disquieting tales of our imaginative leaps from the first Homo sapiens to the present day Through groundbreaking insights in cognitive science Fern ndez Armesto explores how and why we have ideas in the first place providing a tantalizing glimpse into who we are and what we might yet accomplish Unearthing and historical evidence he begins by reconstructing the thoughts of our Paleolithic ancestors to reveal the subtlety and profundity of the thinking of early humans A masterful paean to the human imagination from a wonderfully elegant thinker Out of Our Minds shows that bad ideas are often more influential than good ones that the oldest recoverable thoughts include some of the best that ideas of Western origin often issued from exchanges with the wider world and that the pace of innovative thinking is under threat The Myth of the Saving Power of Education Hannah Adams Ingram, 2021-05-20 In the United States young people are bombarded with messages that they must go to college in order to secure their place in the middle class Those who are most disadvantaged in society are the most frequent recipients of this rhetoric because people believe that education is the one ticket that can save them from poverty Like the belief that there is only one avenue for salvation from hell to heaven the notion of salvific education presents a single answer to the problem of inequality if you want to be saved from poverty and oppression you must go to college In this book Hannah Adams Ingram interrogates the presumed promise of education and argues that the myth itself perpetuates rather than alleviates social inequality The Myth of the Saving Power of Education asks educators to reclaim the liberative potential of education and asks Christians to repent of judging individual worth based on the same merits as the secular market system Awaiting the City Chad Brand, Tom Pratt, 2012-11-13 People of faith have always been on search for the homeland first promised to Abraham in light of the Babylonian civilization he left That future hope was reinterpreted by Jesus and taken up by St Augustine in The City of God reinterpreted again by John Calvin in Geneva and given a final form by the Puritan pilgrims who came to America to establish the City upon a Hill Fundamental to this quest for a just holy civilization has been the progress of humankind on the earth in light of the mandate to fill and rule over it Authors Chad Brand and Tom Pratt discuss that progress as they answer the vital questions for praxis How should biblically oriented Christians think of and work toward God's justice along the way How can we steer between a utopian vision and a limited vision to a new rational compassion Interrupting Capitalism Matthew Allen Shadle, 2018 Interrupting Capitalism traces the history of Catholic thinking about economic life from the perspective of a theology of interruption The church's social teaching provides a way for Christians to interrupt capitalism to live out economic life faithfully in the midst of the global economy Wealth, Poverty, and Human Destiny

Doug Bandow, David Schindler, 2014-05-06 The rapid spread of the liberal market order across the globe poses a host of new and complex questions for religious believers indeed for anyone concerned with the intersection of ethics and economics Is the market economy particularly as it affects the poor fundamentally compatible with Christian moral and social teaching Or is it in substantial tension with that tradition In Wealth Poverty and Human Destiny editors Doug Bandow and David L Schindler bring together some of today s leading economists theologians and social critics to consider whether the triumph of capitalism is a cause for celebration or concern Michael Novak Richard John Neuhaus Max Stackhouse and other defenders of democratic capitalism marshal a number of arguments in an attempt to show that among other things capitalism is more Christian in its foundation and consequences than is conceded by its critics that as Stackhouse and Lawrence Stratton write the roots of the modern corporation lie in the religious institutions of the West and that as Novak contends globalization is the natural ecology of Christianity The critics of liberal economics argue on the other hand that it is historically and theologically shortsighted to consider the global capitalist order and the liberalism that sustains it as the only available option Any system which has as its implicit logic that stable and preserving relationships among people places and things do not matter and are of no worth in the words of Wendell Berry should be regarded with grave suspicion by religious believers and all men and women of goodwill Bandow and Schindler take up these arguments and many others in their responses which carefully consider the claims of the essayists and thus pave the way for a renewed dialogue on the moral status of capitalism a dialogue only now re emerging from under the Cold War rubble The contributors fresh insightful examinations of the intersection between religion and economics should provoke a healthy debate about the intertwined issues of the market globalization human freedom the family technology and democracy Beyond Integrity Scott Rae, Kenman L. Wong, 2012-02-21 Integrity is essential to Judeo Christian business ethics But today s business environment is complex Those in business and those preparing to enter the business world need to grapple with the question of how integrity and biblical ethics can be applied in the workplace They need to go beyond integrity in their thinking Beyond Integrity is neither excessively theoretical nor simplistic and dogmatic Rather it offers a balanced and pragmatic approach to a number of concrete ethical issues Readings from a wide range of sources present competing perspectives on each issue and real life case studies further help the reader grapple with ethical dilemmas The authors conclude each chapter with their own distinctly Christian commentary on the topic covered This Zondervan ebook of the third edition has been revised to provide the most up to date introduction to the issues Christians face in today s constantly changing business culture Revisions include 30 new case studies 1 3 new readings 50% substantially revised sidebars that reflect the issues in the news and business press summaries and material for discussion **Profit, Prudence and Virtue** Samuel Gregg, James R. The Contemporary Church and the Early Church Paul A.
