Strategic Management for Tourism Communities Peter E. Murphy, Ann E. Murphy, 2004-11-05 Tourism with its wide ranging impact needs to be managed effectively but how This book advocates taking a business approach to tourism that

encourages greater collaboration between stakeholders in the practical assessment of tourism options. The approach places key business management functions and stakeholders at the forefront of tourism initiatives. The business management functions of planning, organising, leadership and control are the filters through which tourism opportunities are viewed while the stakeholder groups of customers, residents, industry and government set the agenda for appropriate tourism development. Tourist destinations must engage in realistic assessments of their abilities to meet the needs and expectations of tourism stakeholders and then act on these assessments so their goals and objectives can be achieved. A new model for bridging stakeholder gaps is presented as a template for how communities can understand and make the most of their tourism resources. The Bridging Tourism Gaps Model is a practical tool to help destinations focus on the important factors in developing and maintaining tourism as a beneficial and vital part of their communities. This book builds on the success of *Tourism A Community Approach* and the subsequent tourism planning experiences of both authors to advance strategic planning in tourism. *Rural Tourism In Malaysia (Penerbit USM)* Mastura Jaafar, Azizan Marzuki, Shardy

Abdullah, 2019-08-09 Rural tourism provides opportunities for travellers to experience rural attractions and getting familiar with the culture and heritage. It is known to stimulate rural economy through job creation, farm support, nature conservation, rural supplies and services, landscape and nature conservation, rural arts and crafts and enrichment of local heritage. The development will profit the local community through tourism products ranging from ecotourism to cultural tourism. With rich and melting pot of multicultural and biodiversity, Malaysia has great potential in rural tourism. Both Peninsular Malaysia and East Malaysia have the best ecotourism destinations in the region. Malaysia is blessed to have the UNESCO branded rural destinations such as Kinabalu Park, Gunung Mulu National Park and Archaeological Heritage of the Lenggong Valley. The rural tourism concept in Malaysia has been integrated with other tourism concepts such as sustainable tourism, indigenous tourism, ethnic tourism, agrotourism, ecotourism, farm tourism, cultural tourism and heritage tourism. This integrated concept has been explored in a few case studies involving archaeological ecotourism, mangrove and highland tourism of rural destinations. These rural destinations offer great potentials in providing the truly Malaysia experiences; however, it is yet to be fully capitalized. Managing rural tourism development is very challenging due to its limited resources and infrastructure; thus, identification on how the destination is presented, managed and promoted are the major focus of this book. Therefore, these interesting case studies are hoped to enlighten the development of the selected rural tourism destinations in Malaysia.
