Shires, 1983 *Health Informatics in Developing Countries* Antonio Fernandez Perez de Talens, Enzo Molino Ravetto, David B. Shires, 1983 **International Perspectives in Health Informatics** Elizabeth Borycki, 2011 Health information systems are now widely used around the world to raise the quality of healthcare reduce medical error rates and improve access to health information and services and health informatics is now recognized as a separate and unique area of disciplinary study and professional practice This book presents the proceedings of the 2011 Information Technology and Communications in Health ITCH conference in Victoria BC Canada in February 2011 Health informatics issues are not unique to one country or one organization and with its theme of International Perspectives this conference provides a unique opportunity to share the lessons learned by both developed and developing countries Effective use of scarce healthcare resources ensuring the long term sustainability of healthcare systems and moving the science of health informatics forward are discussed and the conference also addresses key issues at the intersection of technology and healthcare such as privacy ethics patient safety efficiency and effectiveness which are common to healthcare providers worldwide The improvement of healthcare systems which employ health informatics technology is dependent upon such international exchanges and solution sharing and this book will be of interest to all those involved in providing better healthcare worldwide **Medical Informatics Europe 1991** Klaus-Peter Adlassnig, Georg Grabner, Stellan Bengtsson, Rolf Hansen, 2013-03-13 This volume contains the proceedings of the Tenth International Congress on Medical Informatics MIE 91 that will be held in Vienna Austria August 19 22 1991 The MIE 91 Congress was organized by the European Federation for Medical Informatics EFMI in cooperation with the Austrian Computer Society OCG and the Austrian Society for Biomedical Engineering OGBMT It follows the previous congresses in Cambridge 1978 Berlin 1979 Toulouse 1981 Dublin 1982 Brussels 1984 Helsinki 1985 Rome 1987 Oslo 1988 and the Congress 1990 in Glasgow The proceedings contain 199 contributions to the MIE 91 Congress They cover all presentations which are part of the scientific programme of MIE 91 among them 157 paper presentations with an average of five pages 28 poster presentations again with an average of five pages and 14 abstracts of demonstrations with an average of one page The papers included were selected by an International Programme Committee out of over 300 submissions after careful review by at least two international reviewers for whose estimable efforts we are especially thankful The recommendations of the reviewers were incorporated in the final texts Some papers were reworked by a professional translator to obtain a high quality of presentation Several submissions could not be considered for presentation at MIE 91 because of shortage of congress time and limitations in the number of pages of the proceedings Building Standard-based Nursing Information Systems Pan American Health Organization, 2001 The objective of this book is to provide them with a

basic source of facts related to the use and implementation of standards in nursing clinical and administrative documentation A compelling case is made about the importance of appropriately documenting nursing care in order to facilitate analyses of nursing activities the provision of quality and evidence based direct patient care and promotion of continuity of service Standardized documentation is also required for communication nursing concepts interventions and outcomes to other nurses and health professionals working in different settings and countries Health Informatics in Africa Salah H. Mandil,1993 This volume contains the proceedings of a conference on health informatics As informatics is essentially human expertise it is a technology that developing countries can contribute to Participants emanated from 26 African countries and 10 other countries around the globe **National Library of Medicine Current Catalog** National Library of Medicine (U.S.),1983 *Current Catalog* National Library of Medicine (U.S.),1983 First multi year cumulation covers six years 1965 70 **Information Technology in Developing Countries** Subhash C. Bhatnagar,Niels Bjørn-Andersen,1990 Many developing countries are waking up to the potential of information technology and the role it can play in accelerating the pace of development This book reports on the situation in various countries looking at the problems and at successful strategies methodologies and procedures The papers are organized in three sections The first includes six papers which discuss a theoretical framework for developing and implementing information systems in a developing country context The next section of five papers presents the country reports covering many aspects of computerization in these countries The third section includes five papers which present a regional comparative status of computer use in selected countries three papers that deal with framework specific applications in some sectors and finally two papers focusing on the software industry and ergonomics *AIME 89* Jim Hunter,John Cookson,Jeremy Wyatt,2012-12-06 The Second European Conference on Artificial Intelligence in Medicine followed the successful meeting in Marseilles in 1987 As for AIME 87 the goal of AIME 89 was to promote scientific interchange within and between all subfields of AI in medicine among researchers from all over the world and especially from Europe There were sessions on knowledge elicitation and acquisition architectures for medical knowledge based systems clinical applications methodology reasoning based on physiological models and uncertainty It is clear from the quality of papers presented that the rate of development which took place between the Pavia meeting of 1985 and AIME 87 has been well maintained With the launch of the European Community s exploratory programme in Advanced Informatics in Medicine in Europe 1989 is clearly a very important year for this discipline AIME 89 provided an important forum which demonstrated progress in some of the more difficult methodological problems and advances in the application of these techniques to real world medicine This volume should be consulted by anyone who wishes to appreciate the state of the art in Medical AI in Europe **Handbook of Research on Advances in Health Informatics and Electronic Healthcare Applications: Global Adoption and Impact of Information Communication Technologies** Khoumbati, Khalil,Dwivedi, Yogesh K.,Srivastava, Aradhana,Lal, Banita,2009-07-31 This book presents a comprehensive resource elucidating the

MEDINFO 92 K. C. Lun,1992 The field of medical informatics has steadily matured and MEDINFO 92 shows an upturn in the uses of informatics in the health sector This volume contains significant contributions on diverse issues a popular field being knowledge based work concepts methodologies software and other tools systems and evaluations of systems and experiences Several papers describe functional integration between differing systems institutions and even geographic areas they confirm a trend towards having knowledge based systems contained in or integrated with overall management information systems serving the physician as well as the rest of the health support team As well as contributions on those topics that have been covered in MEDINFO congresses since their inception in 1974 such as bibliographic systems nursing informatics and hospital information systems other issues addressed include data standards such as semantics syntax and communication standards the quality accuracy and ethical values of medical data and developments in networking

Information Systems in Practice and Theory Peter C. Pirow,Neil M. Duffy,John C. Ford,1988 The revolution in information systems technology has resulted in the creation of whole new departments new types of jobs major investments in hardware and software and changes in the way that people think about systems These changes have resulted in fundamental alterations to the way in which organisations operate and compete Many senior managers received their education and early work experience in an age which preceded the wide scale introduction of computer technology and the situation is complicated by the fact that there are few theoretical paradigms which can be used as a basis for the necessary decision making or for research in the area In order to further the study of this field IFIP arranged the ISIS conference which considered both the practical use of information systems and some of the latest theoretical considerations for their design The resulting volume has a number of aims To assist senior managers with the task of formulating an information systems strategy To help the reader benefit from the experience in office automation that has accumulated in recent years

Nigerian Practice in Computer Systems Development Mikko Korpela,1994 Provides a broad theoretical and explanatory basis for studying the day to day practice of Nigerian computer systems professionals by analyzing social and cultural factors Uses health care informatics as an example

but offers conclusions of wider generalizability beyond the health care field **Medical Informatics Europe**, 1991 Vol for
 2000 contains proceedings of the Medical Informatics Europe Congress and of the annual congress of the German
 Association for Medical Informatics Biometry and Epidemiology GMDS *IFIP Bibliography, 1960-1985* International
 Federation for Information Processing, 1987 In 1985 IFIP celebrated its silver jubilee and a quarter century of IFIP
 publications This IFIP Bibliography lists and categorizes all of the published papers presented at IFIP conferences and
 congresses as well as further papers published in the name of IFIP in the first 25 years of existence The Bibliography
 describes a comprehensive family of papers in the field of computer sciences or informatics it can be seen as an abstract
 monument for the volunteers who organized the events composed the programmes gave the papers and discussed and finally
 submitted the manuscripts and it provides an overview of a quarter century of development not only of a science and a
 profession but also of a vocabulary and a language The indexes list papers according to several different categories enabling
 the reader to readily locate his source of interest These indexes include listing by subject by editor according to the date of
 the event at which they were presented under the name of the city in which the event was held and according to their TC WG
 categorisation Informatics is still a science of the future much has been achieved much more remains to be done not only for
 the purely technical advance but also for its humanistic and societal dimensions This bibliography therefore does not close
 the subject it is merely a milestone on a long way to go □□□□□□□□□□□□□□□□□□□□ , 1985 **Global Health Informatics**
