Healthcare Ministry Gerald A. Arbuckle, 2000 Healthcare Ministry *Medicine, Health Care, & Ethics* John F. Morris, 2007-04 From its earliest beginnings the Catholic Church has cared for the sick and dying of the world as an extension of the healing ministry of Jesus As a natural consequence Catholics have regularly addressed moral issues relating to health care long before the term bioethics was coined Beginning with a deeply nuanced holistic understanding of the human person as their foundation Catholic scholars have developed a person centered ethic with which to approach ethical dilemmas that is understandable and defensible in the light of natural human reason yet which is compatible with the teachings and doctrine of the Church emphasizing the harmony of faith and reason within the Catholic moral tradition *Medicine Health Care and Ethics* adds to this rich tradition with a collection of contemporary essays that represent the very best efforts of current Catholic scholarship in the field of health care and medical ethics The book begins with an introductory section that explains the basic foundations of the personalist approach to ethics and its development within Catholic thought The remaining parts of the book address timely topics such as artificial reproduction contraception abortion euthanasia genetic engineering stem cell research cloning and health care reform Each author brings a fresh perspective and a wealth of knowledge on these issues that will benefit Catholics as well as non Catholics With general overviews for each section and topic specific bibliographies to guide further study this volume is designed to provide a greater understanding and deeper appreciation of the Catholic perspective on health care and medicine for both newcomers and seasoned students of bioethics alike In today s culture of pluralism and diversity the Catholic tradition has much wisdom to contribute to society s consideration of contemporary problems in medicine and health care This collection of essays is offered in the spirit of open and honest dialogue for all who are seeking to understand that tradition ABOUT THE EDITOR John F Morris associate professor of philosophy at Rockhurst University has published numerous articles on the subject of medical ethics In addition to Morris contributors to the volume are Benedict M Ashley O P Gregory R Beabout John Berkman Clarke E Cochran Catherine Green John F Kavanaugh S J William E May Kevin O Rourke O P Michael D Place Jeanne Schindler and Brendan Sweetman PRAISE FOR THE BOOK Morris intends his book to be used as a supplementary text for courses in bioethics and by members of hospital ethics committees A number of the volume s features recommend it for these audiences Each of the 5 parts of the book has an introduction that is informative lucid and relatively comprehensive These introductions offer an overview of the issue or issues addressed by the essays and briefly describe each presentation Unlike so many collections of multiauthored essays this volume s offerings are consistent in quality and are accessible to the readers for whom they are intended Finally each part of the book concludes with a short but helpful bibliography for further reading or research These qualities of the book recommend it not only for the audiences for which it is intended but also for all educated laypersons clergy and health care professionals who are interested in learning more about a Catholic approach to a variety of

controversial issues in bioethics In all likelihood readers will also come away with some valuable insights and wisdom contained in the Catholic tradition and will acquire a better appreciation of the contribution of Catholic voices to debates in bioethics The excellent section introductions and the high quality of each of the essays make this volume a must for anyone wishing to better understand a traditional Catholic approach to bioethics Ronald P Hame *Catholic Identity or Identities?* Gerald A. Arbuckle, 2013-10-15 How can Catholic leaders effectively train and form members of our institutions in the Gospel values that are the ultimate foundation of Catholic identities Internationally recognized author educator and facilitator Gerald A Arbuckle argues that it is time to acknowledge that the programs and processes used in the past are inadequate to our postmodern age The systems previously used to educate the staffs of our hospitals universities schools and other institutions rarely succeed today Although didactic teaching and discursive learning have their place they cannot be the primary method for forming identities Catholic Identity or Identities will assist a wide range of people bishops theologians pastoral workers institutional leaders and staffs and more in their various ministries Arbuckle draws on several disciplines including Scripture theology and history but in particular cultural anthropology to explain the importance of refounding adult formation for Catholic ministries and the practical ways to achieve it *Fundamentalism at Home and Abroad* Gerald A. Arbuckle, 2017 For most people fundamentalism in the modern world has become synonymous with a radical form of Islam but fundamentalism in many shapes and forms is also very much present in Western societies Yes fundamentalist economic political nationalistic and religious movements are aplenty in the West Using the lens of cultural anthropology Gerald A Arbuckle examines fundamentalist attitudes and movements in this book exploring why they arise and how readers can constructively respond to them *Humanizing Healthcare Reforms* Gerald A. Arbuckle, Maria Theresa Ho, 2012-10-01 This book looks at the current turmoil facing contemporary healthcare systems worldwide which has resulted from relentless reorganization being imposed upon them and argues for a return to a values based approach to healthcare Writing from the unique and fresh perspective of social anthropology the author takes a highly logical approach to practice and emphasizes the importance of values such as compassion solidarity and social justice He stipulates that without being able to clearly identify the values and goals that unite its members healthcare organizations are unlikely to be able to meet the demands of the constant and varied pressures they face and explains how individuals at every level in healthcare can contribute to positive change within their organizations This much needed and highly accessible book will be essential reading for anyone interested in healthcare reform from clinicians and nurses to managers and policy makers as well as the interested reader

**Parish Nursing** Mary Elizabeth O'Brien, 2003 Provides an overview of the current state of parish nursing exploring the spiritual call to the parish nursing ministry a spiritual history of parish nursing and the role of the parish nurse as a spiritual companion in health and illness Topics include the parish nurse s own spirituality needs of diverse populations homebound adults and the hospitalised parishioner Abuse and Cover-Up Arbuckle, Gerald A., 2019-09-26 Written for readers deeply

concerned for the future of the church this book seeks to answer two questions Why is the culture of the Catholic Church despite Vatican II s emphasis on collegiality and transparency still prone to covering up abuses of power How can this culture change in order to move forward A timely book on the sex abuse crisis by a scholar who is adept at weaving insights from the social sciences into a framework of practical theology **Laughing with God** Gerald A. Arbuckle, 2015-03-15

When Sarah overhears God tell Abraham that she will give birth to a son she laughs She laughs to herself at the impossibility of her in her old age bearing a child Gen 18 12 But God s ways are not Sarah s ways God is far more wonderful than Sarah imagines Of course Sarah does give birth to a son and names him Isaac whose name means to laugh God has brought laughter for me everyone who hears will laugh with me Gen 21 6 Surely the ancient audience aware of the many incongruities in this story did laugh But can we in modern times recover the divine humor the paradox and promise in this and other biblical accounts Can we use that sacred laughter as a means to evangelize a world that longs for God every bit as much as the ancients did In *Laughing with God* Humor Culture and Transformation Catholic priest and cultural anthropologist Gerald Arbuckle helps us do just that With Arbuckle readers will enter many rich biblical stories and come away laughing not laughter as in response to a joke or comedy but a profound laughter of the heart Readers will laugh at Sarah as she laughs at God and they will laugh together with Sarah and God Readers will discover divine humor in the parables of Jesus and even in his suffering and death the ultimate paradox for Christians In addition to uncovering and recovering humor in Scripture Arbuckle s work is a treasure trove of modern examples of humor from literature movies and television that surprisingly can be a means of transforming cultures to better reflect the kingdom of God In the end readers will want to turn the phrase He who laughs last laughs best into They who laugh with God evangelize best Gerald A Arbuckle SM PhD is co director of Refounding and Pastoral Development a research ministry in Sydney Australia He is internationally known for his expertise in helping church leaders minister effectively in a postmodern world Arbuckle s most recent books include *Confronting the Demon* A Gospel Response to Adult Bullying Violence Society and the Church A Cultural Approach and Healthcare Ministry Refounding the Mission in Tumultuous Times 2001 Catholic Press Association Award all published by Liturgical Press

**Culture, Inculturation, and Theologians** Gerald A. Arbuckle, 2010-09-01 The split between the Gospel and culture is without doubt the drama of our time wrote Paul VI in 1975 Since that time there has been an increasingly urgent awareness that inculturation is an indispensable task of the church But inculturation the dialogue between church and cultures demands first of all that we who would enter into the dialogue understand what culture itself means and what dialogue entails To that end cultural anthropologist Father Gerald Arbuckle gives us this important volume He traces the history of the development of the concept of culture and the too often negative rarely positive effects of encounters between church and culture He explores how Jesus Christ approached the cultures of his time and outlines the current treatment of culture and inculturation in church documents and in Catholic theology He shows that modest progress

in understanding has recently stalled and there are even forces working to turn that progress into regress. He concludes with a description of inculturation as it needs to happen and a sharp critique of those who resist. With a sense of prophetic hope, Arbuckle seeks to help us bridge the lamentable split between Gospel and culture, the drama that continues to unfold in our time.

*Confronting the Demon* Gerald A. Arbuckle, 2003. Bullying is not something confined to school children. It is a widespread abuse found in families, workplaces, organizations, including churches, and beyond. *Confronting the Demon* focuses on the nature and types of contemporary bullying and what the Christian Scriptures advise to prevent it. Bullying is a quality of most forms of violence, including racial, religious, and sex-based discrimination, sexual, physical, and psychological abuse, persecution, and terrorism. This book focuses on such contemporary examples as the 2001 terrorist attacks, hate crimes around the world, sexual abuse, particularly among the churches, and cultures which promote bullying. Questions at the end of each chapter help people examine their own vulnerability to the vice of bullying and relate the context of its nature, meaning, and power to their own lives. Chapters are: Adult Bullying, Definition and Types, Bullies and Victims, Cultures of Bullying, and A Gospel Response. Gerald A. Arbuckle, SM, PhD, is the co-director of Refounding and Pastoral Research Unit, Sydney, Australia. He is the author of *From Chaos to Mission: Refounding Religious Life Formation, Healthcare Ministry, Refounding the Mission in Tumultuous Times*, and *Violence, Society, and the Church*, published by Liturgical Press.

**Health Care as a Social Good** David M. Craig, 2014-07-23. Health Care as a Social Good argues that as escalating costs absorb a greater percentage of family income and government budgets, only the implementation of religious values can help Americans create a more community-based system which reflects the ideals of American democracy.

*Bridging the Divide between faith, theology and Life* Anthony Maher, 2015-11-01. This is a must-read for practical theologians everywhere; there is an engaging, even unique freshness in the manner in which the authors choose their topics and develop their insights. Rev. Dr. Gerald A. Arbuckle, S.M., Consultant Anthropologist and Co-director, Refounding and Pastoral Development Unit, Sydney, Australia. This volume breaks new ground in providing a deeply contextual work of practical theology from Oceania. The volume presents a dialogical practical theology that is open to wisdom from all sources and seeks mystical, political transformation, a much-needed contribution to the international conversation in practical theology and to the global church.

Associate Professor Claire Wolfeich, Co-Director, Center for Practical Theology, Boston University, U.S.A., President of the International Academy of Practical Theology.

*Violence, Society, and the Church* Gerald A. Arbuckle, 2004. The reality of violence and the fear it generates is constantly in the news. Terrorist attacks across the world and other abuses of power, such as the sexual abuses in the Catholic Church, the continuance of patriarchy, racism, and the negative effects of globalization, highlight the relevance of this book. Here, the author uniquely explains these forms of violence in the wider context of their cultural roots.
