The Pleasure Prescription Paul Pearsall,1996 Argues that the lack of joy in one's daily life is a more serious problem than stress and suggests five steps for attaining a better and more rewarding balance in our lives Cardiac Rehabilitation Nanette K. Wenger,L. Kent Smith,Erika Sivarajan Froelicher,Patricia McCall Comoss,1999-06-29 This detailed reference provides practical strategies and a scientific foundation for designing and implementing cardiac rehabilitation services to relieve the symptoms of cardiovascular disease patients through exercise training and risk reduction and secondary prevention improve quality of life and decrease mortality Emphasizes multidisciplinary care that includes exercise training behavioral interventions and education and counseling regarding lifestyle changes and other aspects of secondary prevention Written by world renowned physicians nurses exercise physiologists psychologists dietitians educators and counselors in the field Cardiac Rehabilitation presents evidence based medicine as the cornerstone of clinical cardiology practice discusses interventions that limit the physiological and psychological effects of cardiac illness offers guidelines that enable elderly patients to maintain self sufficiency and functional independence describes means of social and workplace reintegration evaluates policies for maintaining high quality care efficacy and safety in an atmosphere of diminishing resources explains the role of managed care in moving rehabilitative care into the home workplace and other nontraditional sites assesses new interactive technologies that aid in tracking patient data gives pragmatic recommendations for the delivery of cardiac rehabilitative care in the next millennium and more Advocating integrated high quality consistent cardiac rehabilitation services for the well being of patients recovering from a variety of cardiovascular problems and procedures Cardiac

Rehabilitation is ideally suited for all medical professionals working in this field [The Pleasure Prescription](#) Paul Pearsall, Ph.D.,1996-08-26 Current wisdom dictates that anything that tastes smells or feels good can't be good for us But pleasure is the way to health not a temptation away from it In The Pleasure Prescription Pearsall gives the antidote for delight dyslexia his name for misreading of intensity for joy accomplishment for worth busyness for connection and excitement for love

National Library of Medicine Current Catalog National Library of Medicine (U.S.),1992 [The Patient in the Family](#) Hilde Lindemann Nelson James Lindemann Nelson,2014-05-22 The Patient in the Family diagnoses the ways in which the worlds of home and hospital misunderstand each other The authors explore how medicine through its new reproductive technologies is altering the structure of families how families can participate more fully in medical decision making and how to understand the impact on families when medical advances extend life but not vitality [Current Catalog](#) National Library of Medicine (U.S.),1992 First multi year cumulation covers six years 1965-70 [Eisenhower's Heart Attack](#) Clarence G. Lasby,1997 Previous Eisenhower biographers have touched on his heart condition but Clarence Lasby is the first to examine the impact of the president's health on the nation He offers a dramatic revisionist account of the events surrounding the president's 1955 heart attack and subsequent efforts by the president and his staff to minimize its political impact Drawing on newly opened medical records and personal papers of Eisenhower's physicians Lasby challenges virtually everything we have believed about the president's heart attack Most disturbingly he has discovered that the president's personal physician Dr Howard Snyder misdiagnosed the attack as a gastrointestinal problem and waited ten hours before sending Eisenhower to the hospital Lasby also sets the record straight on how the president and his aides managed the public's understanding of events and he offers evidence that Eisenhower Dr Snyder and press secretary James Hagerty withheld and recast information to serve the president's political priorities Equally important Lasby's book offers a touching portrait of a proud man faced with a debilitating disease It examines Ike's private struggle to lead a full life despite his condition and analyzes his decision to seek a second term even against the advice of cardiologist Paul Dudley White It also shows how a man who had always carefully joked after his health now became obsessed with it [Building Intimate Relationships](#) Rita DeMaria,Mo Therese Hannah,2013-08-21 The PAIRS course acts as a kind of bridge between marriage education and therapy working both with couples in healthy relationships hoping to improve intimacy and with distressed couples trying to save their marriages Building Intimate Relationships is an edited work with contributions from the creator of the PAIRS program and the most experienced PAIRS leaders It describes the elements of the PAIRS course and discusses the application of the theories and techniques taught in the PAIRS program Chapters include discussions on intimacy communication conflict resolution emotional literacy sensuality and sexuality spirituality and gender issues **Family-Oriented Primary Care** Susan H. McDaniel,Thomas L. Campbell,Jeri Hepworth,Alan Lorenz,2005-12-06 The first edition helped bring the family approach to health care into the medical mainstream This new edition like the first provides health care professionals with a practical

guide to working with and treating both the individual patient and the family Tackling challenging and emerging issues such as AIDS and the family race and gender child abuse and domestic violence in addition to pregnancy child behavior and chronic illness this volume is sure to be an indispensable guide for primary care providers **The Shared Experience Of Illness** Susan H. McDaniel,Jeri Hepworth,William J. Doherty,H McDaniel,2009-08-05 In the narrative of every human life and family illness is a prominent character Even if we have avoided serious illness ourselves we cannot escape its reach into our circle of family and friends Illness brings us closer to one another through caregiving and separates us through disability and death yet little attention has been paid to personal and family illness in psychotherapy Rather therapists tend to focus on the psychosocial realm leaving the biological realm to other physicians and nurses Susan H McDaniel Jeri Hepworth and William J Doherty invited therapists who work with individuals and families experiencing chronic illness and disability to describe clinical cases that illustrate their approach to medical family therapy Contributors then were asked to share a personal story about their experiences with illness and to explain how those experiences affect the way they work with their clients Vivid case studies dealing with a range of illnesses including cancer infertility schizophrenia AIDS heart disease diabetes asthma and multiple sclerosis show how the therapists own experiences of illness are relevant to their care of others and how these experiences can be used to form a healing bond in therapy Poignant honest and illuminating *The Shared Experience of Illness* allows us to understand more fully the relationship between the personal and the professional *Recovering at Home with a Heart Condition* Florence Weiner,Mathew H. M. Lee,Harriet Bell,1994 A new comprehensive guide to every aspect of daily living for people recovering from a heart condition and for their families and other caring helpers *Guidelines for Cardiac Rehabilitation and Secondary Prevention Programs* American Association of Cardiovascular & Pulmonary Rehabilitation,1999 The definitive resource for developing cardiac rehabilitation programs **Test Critiques** ,1994
