**and Educational Leadership** Robert Palestini,2013-05-09 Who is an effective leader has been a question posed by scholars educators and practitioners of leadership for centuries Historically leadership positions as well as research on leadership and effective leadership was primarily reserved for men or masculine characteristics With most societies traditionally following a patriarchal hierarchy few people questioned inequalities in leadership attainment largely because of supernatural and or natural explanations of men s natural ability and desire to lead This book runs counter to that culture and examines the experiences and leadership enactments of ten historically famous women leaders in hopes of gaining insight into their

uniquely female leadership styles The ten leaders include Catherine the Great Jane Addams Queen Victoria Marie Montessori Indira Gandhi Golda Meir Mother Teresa Margaret Thatcher Pat Summit and Hillary Clinton The idea of course is to reflect upon these great women s leadership styles in order to inform one s own leadership behavior      **No Laughing Matter** Robert Palestini,2012-10-18 Educators are not alone in perennially seeking the best leadership practices and applying them to their own leadership behavior What constitutes effective leadership seems to be on the minds of people everywhere Recently there has been some seminal work done with regard to the role of humor in leadership effectiveness Several contemporary empirical studies corroborate some earlier research that closely linked effective leadership to whether the leader possesses a well developed sense of humor In light of this connection between possessing a keen sense of humor and leadership effectiveness this book profiles the leadership behavior of ten proven leaders from many walks of life whose leadership style included a highly developed sense of humor The idea of course would be to look at the overall leadership behavior of these individuals but focus especially on their symbolic frame leadership behavior in the form of humor to determine how their behavior can inform our own particular leadership style      Prevention Report ,1992      **Exploring Health Psychology** Spencer A.
