Cyberbullying and Sexting Elizabeth Agnew, 2024-02-08 Drawing on two empirical studies and influential theoretical frameworks this book provides a critical overview of the key regulatory challenges concerning cyberbullying and sexting behaviours among young people persons under 18 years The author explores issues such as conceptualising the behaviours examining the prevailing presence of sexism myths and stereotypes surrounding gender roles and identity and the limitations of criminal law as an effective regulatory tool In doing so identifying peer based sexting behaviours as part of a continuum of sexual behaviour is promoted alongside the need to consider interventions beyond the legal landscape and in line with the United Nations Convention on the Rights of the Child In the main priority is given to non legal responses and the need for more effective and comprehensive gender sensitive education programmes The book therefore provides a more developed conceptual understanding of sexting and cyberbullying behaviours among young people **Talk to Me First** Deborah
