El Gallo Sinaloense:

Downtown Juárez Howard Campbell, 2021-11-09 At least 200 000 people have died in Mexico's so called drug war and the worst suffering has been in Ciudad Juárez across the border from El Paso Texas How did it get so bad After three decades studying that question Howard Campbell doesn't believe there is any one answer Misguided policies corruption criminality and the borderland economy are all factors But none explains how violence in downtown Juárez has become heartbreakingly normal A rigorous yet moving account Downtown Juárez is informed by the sex workers addicts hustlers bar owners human smugglers migrants and down and out workers struggling to survive in an underworld where horrifying abuses have come to seem like the natural way of things Even as Juárez's elite northeast section thrives on the profits of multinational corporations and law abiding citizens across the city mobilize against crime and official malfeasance downtown's cantinas barrios and brothels are tyrannized by misery Campbell's is a chilling perspective suggesting that over time violent acts feed off each other losing their connection to any specific cause Downtown Juárez documents this banality of evil and confronts it with the stories of those most affected **1920-2000 iel Pastel! Decentering the Nation Jesús A. Ramos-Kittrell, 2019-12-12 winner of the 2021 Ellen Koskoff Edited Volume Prize Decentering the Nation Music Mexicanidad and Globalization considers how neoliberal capitalism has upset the symbolic economy of Mexican cultural discourse and how this phenomenon touches on a broader crisis of representation affecting the nation state in globalization This book argues that while mexicanidad emerged in the early twentieth century as a cultural trope about national origins culture and history it was nonetheless a trope steeped in otherization and used by nation states Mexico and the United States to legitimize narratives of cultural and socioeconomic development stemming out of nationalist political projects that are now under strain Using music as a phenomenological platform of inquiry contributors to this book focus on a critique of mexicanidad in terms of the cultural processes through which people contest ideas about race gender and sexuality reframe ideas of memory history and belonging and negotiate the experiences of dislocation that affect them The volume urges readers to find points of resonance in its chapters and thus interrogate the asymmetrical ways in which power traverses their own historical experience In light of the crisis in representation that currently affects the nation state as a political unit in globalization such resonance is critical to make culture an arena of social collusion where alliances can restore the fiber of civil society and contest the pressures that have made disenfranchisement one of the most alarming features characterizing the complex relationships between the state and the neoliberal corporate system that seeks to regulate it Scholars of history international relations cultural anthropology Latin American studies queer and gender studies music and cultural studies will find this book particularly useful La imprenta y el periodismo en Sinaloa Héctor R.
