Konstantin Mierau, 2018-07-17 *Capturing the Pícaro in Words* discusses the framing of the transient marginals of early modern Madrid in the literary pícaro It compares the perceptions of constables shopkeepers and criminals to those of mass produced literary representations and argues that the literary representations displaced the pícaro assigning the marginals different places in the literary texts in order to centralise the problem of urban vagrancy The texts spanned the pícaro thus establishing the image of a culturally homogenous group and lastly silenced the pícaro under representing the power marginals in the city derived from their knowledge of the information flows in the city **A Companion to Lope de Vega**

Angela Vanhaelen, Joseph P. Ward, 2013-04-26 Broadening the conversation begun in *Making Publics in Early Modern Europe* 2009 this book examines how the spatial dynamics of public making changed the shape of early modern society The publics visited in this volume are voluntary groupings of diverse individuals that could coalesce through the performative uptake of shared cultural forms and practices The contributors argue that such forms of association were social productions of space as well as collective identities Chapters explore a range of cultural activities such as theatre

performances travel and migration practices of persuasion the embodied experiences of lived space and the central importance of media and material things in the creation of publics and the production of spaces They assess a multiplicity of publics that produced and occupied a multiplicity of social spaces where collective identity and voice could be created discovered asserted and exercised Cultural producers and consumers thus challenged dominant ideas about just who could enter the public arena greatly expanding both the real and imaginary spaces of public life to include hitherto excluded groups of private people The consequences of this historical reconfiguration of public space remain relevant especially for contemporary efforts to meaningfully include the views of ordinary people in public life

The Spanish Ballad in the Golden Age Nigel Griffin, 2008 Collections of traditional Spanish ballads were made in the early 17th century and soon inspired court poets to compose their own ballads This volume discusses some of the problems encountered by anglophone readers when they turn to the Golden Age ballad and offers guidance on how such poems might be read
