Global Encounters Iris Guske, 2011-05-25 Scholars throughout the world have come together again in a second book to share their most successful teaching practices and concerns in the areas of cross-cultural studies and international education. Many disciplines are represented and diverse subjects are discussed: science literacy and worldview perspective, second language acquisition, student mobility, and international universities teacher professional development and government programs for disadvantaged children, zoos, industrial paintings, and dress designs as cultural artifacts. Presentations on these topics are the result of papers given at the annual meeting of the Worldwide Forum on Education and Culture, founded 10 years ago in Rome, Italy. The organization regularly attracts some 100 scholars and practitioners in the fields of education, literacy, language learning, communication, and inter-cultural studies from all five continents to its annual congress in Rome. These conferences, as well as this up-to-date compilation of multi-disciplinary academic papers, are meant to highlight the growing need for culturally sensitive education that draws on the strengths of both traditional teaching methods and technology-rich forms of instruction, as well as a host of national and international programs designed to empower teachers and students alike. Engaged educators whose research and/or critical discourse in classrooms all over the world has given rise to the present volume thus hope to share with a wider audience how they impart knowledge, foster skills, and nurture qualities in the next generation of global citizens that will enable them to negotiate their personal and professional lives in our modern world. Even though communities may no longer be characterized by physical distances as barriers to communicative interchanges, perceived and real rifts between different cultures are nevertheless coming alarmingly close to preventing meaningful communication from bringing about true understanding at the individual and societal levels. The ontogenesis of the Worldwide Forum on Education and Culture is seen here clearly in the perspectives and presentations of diverse academics who are dedicated to teaching and learning toward the greater goal, as Matthew Arnold said in *Literature and Science*, of knowing ourselves and the world.

SLAVE SCHOOLS: Why Are Black Students Held in Bondage of Failing Schools? Armand A. Fusco

Ed.D., 2025-01-21 SLAVE SCHOOLS WHY ARE BLACK STUDENTS HELD IN BONDAGE OF FAILING SLAVE SCHOOLS

Abstract This book is unique because it s two books in one Pt I includes all minorities to 2012 Pt II concentrates on black issues between 2012 to 2024 encompassing the racial agenda known as Critical Race Theory based on past slavery However it omits white slavery that started sooner lasted longer and it was cheaper to buy white slaves than black slaves More striking is that absolutely no mention is made of present day bondage slavery where blacks are required by law to attend failing City Schools Although there have been national and state reforms to close the achievement gap between blacks and whites none had succeeded Among the efforts to do so is to eliminate meritocracy measurements and without testing there is no gap to measure Another effort is simply to lower standards which 37 states have done Furthermore to hide the problem is introducing a major disruptor that does nothing to improve academic achievement such as the racial agenda that is causing money woes chaos and conflict among parents and school officials In its extreme form the concept is infused in every school subject K 12 requiring indoctrination rather than education That s the real issue causing the conflict The problem is vividly illustrated with on the 2022 NAEP results with 75% of students below proficiency in math and 67% below in reading with blacks at 16% Then followed by test two states the Connecticut Enigma and the simple solution with the Mississippi Miracle Very important is a step by step approach to show what blacks can do to bring pressure on school officials and school boards to close or turnaround failing schools by kneeling and striking When all else fails then do the school board nightmare
