War & Press Freedom Jeffery Alan Smith, 1999 War and Press Freedom The Problem of Prerogative Power is a groundbreaking and provocative study of one of the most perplexing civil liberties issues in American history What authority does or should the government have to control press coverage and commentary in wartime First Amendment scholar Jeffery A Smith shows convincingly that no such extraordinary power exists under the Constitution and that officials have had to rely on claiming the existence of an autocratic higher law of survival Smith carefully surveys the development of statutory restrictions and military regulations for the news media from the ratification of the Bill of Rights in 1791 through the Gulf War of 1991 He concludes that the armed forces can justify refusal to divulge a narrow range of defense secrets but that imposing other restrictions is unwise unnecessary and unconstitutional In any event as electronic communication becomes almost impossible to constrain soldiers and journalists must learn how to respect each other's obligations in a democratic system

U.S. Presidents as Orators Halford R. Ryan, 1995-06-27 This first systematic critique on the rhetoric of 21 presidents shows how political constraints shaped rhetoric and how oratory shaped politics An introduction places American public address in the context of classical rhetorical practices and theory and sets the stage for the bio critical essays about presidents ranging from Washington to Clinton Experts analyze the style and use of language important speeches and their impact and their ethical ramifications Each essay on a president also keys major speeches to authoritative texts and offers a chronology and bibliography of primary and secondary sources For students teachers and professionals in American public address political communication and the presidency

Three Kinds of Motion Riley Hanick, 2015-03-23 A freewheeling journey through midcentury America as art literature and the interstate highway system intersect In 1943 Peggy Guggenheim commissioned a mural from Jackson Pollock to hang in the entryway of her Manhattan townhouse It was the largest Pollock canvas she would ever own and four years later she gave it to a small Midwestern institution with no place to put it When the original scroll of *On the Road* goes on tour across the country it lands at the same Iowa museum housing Peggy's Pollock revitalizing Riley Hanick's adolescent fascination with the author Alongside these two narrative threads Hanick revisits Dwight D Eisenhower's quest to build America's first interstate highway system When catastrophic rains flood the Iowa highways they also threaten the museum and its precious mural In *Three Kinds of Motion* his razor sharp funny and intensely vulnerable book length essay Hanick moves deftly between his three subjects and delivers a story with breathtaking ingenuity He gravitates toward the unexpected and the poignant We see Eisenhower

painting Kerouac confined to a naval hospital after running naked across a drill field and Pollock babysitting for the offspring of his mentor Thomas Hart Benton Hanick creates arresting juxtapositions in the mode of such kindred innovative essayists as John D Agata Ander Monson and Lia Purpura Booklist Like a great conversationalist Hanick paints a generous canvas and I rode the length of this powerful book much like I first experienced the American interstate songs on the stereo windows down and the bittersweet sense that youth is fleeting Three Kinds of Motion holds open a wild and beautiful journey not to be missed Thalia Field

Social Semiotics of Arabic Satellite Television Ali Darwish, 2009 Arabic satellite television is a phenomenon that has swept the Arab world in less than two decades and is said to have dramatically changed the Arab region It has created a world of contrasts and contradictions between tradition and liberalism and a polarization of views and opinions all vying for dominance and control This book examines the social semiotics of Arabic satellite television and studies the multimodal representations of Arab social and cultural values and their implied meanings in a communication medium that heavily relies on imported western models

Assessment of Biden's and Trump's place in political time *Encyclopedia of American Journalism* Stephen L. Vaughn, 2007-12-11 The *Encyclopedia of American Journalism* explores the distinctions found in print media radio television and the internet This work seeks to document the role of these different forms of journalism in the formation of America's understanding and reaction to political campaigns war peace protest slavery consumer rights civil rights immigration unionism feminism environmentalism globalization and more This work also explores the intersections between journalism and other phenomena in American Society such as law crime business and consumption The evolution of journalism's ethical standards is discussed as well as the important libel and defamation trials that have influenced journalistic practice its legal protection and legal responsibilities Topics covered include Associations and Organizations Historical Overview and Practice Individuals Journalism in American History Laws Acts and Legislation Print Broadcast Newsgroups and Corporations Technologies **Television and the Making of Richard Nixon** William T. Horner, 2022-07-28 While Richard Nixon's accomplishments and shortcomings are well documented one often ignored aspect of his career is his influence on the media conduct of politicians Nixon pioneered the use of visual media in politics beginning in the 1940s during his Congressional service His historic Checkers speech was the first of its kind a politician using television to save his political career His appearances on entertainment television which are now a normal feature of most national political campaigns broke new ground as well This book details the blueprint Nixon set for using television to achieve political goals Presidents have often used innovative media as strategic methods of communication and public relations The author argues that Nixon pioneered television media using it consistently to connect with the American public *Eisenhower's New-Look National Security Policy, 1953-61* S. Dockrill, 1996-05-21 The New Look sought to formulate a more selective and flexible response to Communist challenges The New Look was not simply a bigger bang for a buck nor merely a device for achieving a balanced budget nor did it amount solely to a strategy of massive retaliation as is commonly assumed Dr Dockrill's incisive revisionist analysis of the subject throws new light on US ambitious global strategy during the Eisenhower years **The White House** William Seale, 2002 These scholarly essays are full of interesting and surprising tidbits that will delight even the casual reader Publishers Weekly **Crucible of Power** Howard Jones, 2009 Employing a narrative approach that uncovers the tangled and often confusing nature of foreign affairs *Crucible of Power* focuses on the personalities security interests and post war Cold War tendencies behind the formulation and implementation of U S foreign policy since 1945 The book includes updated coverage of the Bush administration's foreign policy with particular emphasis on the Middle East Selections from key foreign policy documents appear in each chapter **Translation and News Making in Contemporary Arabic Television** Ali Darwish, 2010 *Gender, Heteronormativity, and the American Presidency* Aidan Smith, 2017-10-03 *Gender Heteronormativity and the American Presidency* places notions of gender at the center of its analysis of presidential campaign communications Over the decades an investment in gendered representations of would be leaders has changed

little in spite of the second and third wave feminist movements Modern candidates have worked vigorously to demonstrate compensatory heterosexuality an unquestionable normative identity that seeks to overcome challenges to their masculinity or femininity The book draws from a wide range of archived media material including televised films and advertisements public debates and speeches and candidate autobiographies From the domestic ideals promoted by Eisenhower in the 1950s right through to the explicit and divisive rhetoric associated with the Clinton Trump race in 2016 intersectional content and discourse analysis reveals how each presidential candidate used his or her campaign to position themselves as a defender of traditional gender roles and furthermore how this investment in appropriate gender behaviour was made manifest in both international and domestic policy choices This book represents a significant and timely contribution to the study of political communication While communication during presidential elections is a well established research field Aidan Smith s book is the first to apply a gendered lens over such an extended historical period and across the political spectrum **Eisenhower**

and American Public Opinion on China Mara Oliva,2018-04-16 In the 1950s most of the American public opposed diplomatic and trade relations with Communist China traditional historiography blames this widespread hostility for the tensions between China and the United States during Dwight D Eisenhower s presidency In this book Mara Oliva reconsiders the influence of U S public opinion on Sino American relations arguing that it is understudied and often misinterpreted She shows how the Eisenhower administration s hard line policy towards Beijing had been formulated in line with U S national security interests not as a result of public pressure However the public did play a significant role in shaping the implementation timing and political communication of Washington s strategy ultimately hampering relations with the Communist giant and seriously heightening the risk of nuclear conflict Drawing together an extensive array of published and unpublished sources this book offers a new prism for understanding one of the most difficult decades in the history of both countries **Netroots** Matthew Robert Kerbel,2015-12-03 The progressive netroots fueled by bloggers writing on websites

like the Daily Kos and working through online organizations like MoveOn are on the verge of spearheading a revolution that may well define the coming political era Still their purpose goals and track record remain largely misunderstood This book provides an understanding of the loosely affiliated groups that collectively call themselves the progressive netroots who they are what they hope to accomplish what they ve done so far and how likely it is they will succeed in a plan so audacious it would result if realized in the transformation of America from a television focused center right nation to an Internet focused center left nation Netroots weaves together a range of evidence and arguments to shatter conventional myths about this online movement It explains why the left is better positioned than the right to take advantage of the decentralized nature of the Internet As progressive candidates make uneven progress toward winning elections the progressive netroots are working to drive media narratives and building real and virtual communities of activists that will contribute strongly to electoral success Netroots documents the achievements of this emerging political force through an engaging analysis told with an eye

toward history and in the bloggers own words , [Liking Ike](#) David Haven Blake,2016-07-28 Liking Ike offers a behind the scenes look at how advertising agencies parternered with political strategists to involve celebrities in Dwight Eisenhower s presidential campaigns setting the stage for future presidential contests *Grand Expectations* James T. Patterson,1996 Interweaving key cultural economic social and political events a history of the United States in the post World War II era ranges from 1945 through a turbulent period of economic growth and social upheaval to Watergate and Nixon s 1974 resignation *The Magic Window* Jim Von Schilling,2013-10-28 This fascinating book tells the story of how television became popular in the United States following the medium s debut at the 1939 New York World s Fair You ll learn about the people events and performances that were televised or influenced what was being televised from 1939 to 1953 In addition to the entertainment and cultural aspects of this newborn medium it also explores the business politics and technology of early television
