**God Stopping A Nuclear War** Robert Lauzeckas,2011-03-14 Welcome to the Little Scroll promised in the Bible Promised to prevent a nuclear war and more crazy shootings So pay attention Before I describe the book read a little from it Does it or does it not describe the recent shootings in France Or the problems with ISIS If you think it does then read this book You got a lot to learn about the real God and Satan God vs Satan is a secret war between which populations use their left or right brains the most Right hand good hand because God favors left brain thinking verbal Jews before the right brain thinking of artistic people This is why they fight The Holy Ghost won't allow God to rule mankind if he rules as an unfair tyrant If he smothers the creative abilities of the right brain Being a tyrant contradicts the purpose of his existence It also sterilizes the progress of a society If that occurs the Life Force will eventually betray that society Dooming it to failure I'll explain the Life Force later Then why is God trying to push total left brain control in Europe by using Muslims to push Islamic laws in Europe He isn't pushing it Satan is But why would he do it Isn't it contrary for his plans for Europe Yes in the long run it is but not in the short run Plans spanning human lifetimes Considering what you know about them now what do you think is the biggest danger as far as Satan is concerned Isn't a big part of their war biological Isn't a lot of their war about which populations use their left brains or right brains more For many people upbringing greatly influences brain usage but not in Semitic populations with their natural genetic predisposition towards using their left brains It's more nature over nurture for how their minds work The genetic trait for left brain dominance is dangerous for Satan if it spreads too much in Europe So how does he deal with this problem This is the tricky part God knows he can't abuse his power by becoming too strict in populations created to be more balanced It would hinder progress by choking creativity which would turn the Life Force against him So he doesn't push too much He knows he has to temper his ways with different populations So what does Satan do He influences radical religious minds to become unreasonable to become inflexible ungrateful and unable to

assimilate into European cultures Satan makes them overstep their boundaries in Europe But to what purpose How does this help him Satan knows the right brains in white Europeans will grow resentful and find Islamic laws repugnant in their own nations in the long run This in turn will trigger a group genetic response in whites to become racist for real When social approval for the attitude becomes condoned Every biological group like a body has a safety mechanism built into it to protect the body from foreign invaders When our bodies realize they have been invaded by germs an alarm is triggered A biological alarm which triggers the production of white cells in them There is a similar group mechanism which protects racial gene pools Satan is trying to trigger it in Europe But he can't do it unless Muslims don't assimilate into Europe without trying to subvert it So what does he have to do to pull this trigger He has to inject hatred of Western life styles into the minds of radical Muslims Making them hate the Western nations they live in Making them headstrong and intolerant Making it impossible for them to assimilate into European culture Even making them insist on living under Islamic law in populations which couldn't tolerate it The English the Italians the French the Spanish the Germans the Russians and more populations could never live under Islamic law Not unless they were conquered Which is why some Muslims believe they have to conquer Europe not with guns but by producing more babies When they do that they have declared war on Europeans Now back to psychic networks

**The Sequence** Steven R. Bates, 2024-08-30 Sometimes the best way to let one know what something is is to let one know what it isn't Today's typical academic book in eschatology provides the reader with a brief history of the various positions in the field followed by why certain positions should be considered the better options This is not that book Over the course of twelve chapters six sequences will be presented from the three major sources in the New Testament regarding the subject i.e. Paul's letters to the Thessalonians the Olivet Discourse and John's visions in Revelation Through a careful reconciliation of those six sequences Dr Steven R Bates will show that there's only one sequence of end times which he has labeled The Post Armageddon Premillennial Resurrection He asserts that had any other sequence of end times been correct whether pre tribulationism pre wrath mid tribulationism historic pre millennialism post millennialism a millennialism preterism or any other sequence that one could possibly imagine then the proponents of that postulation should be able to take the same six sequences from Scripture and reconcile them precisely with one another sentence by sentence and prove whatever sequence they propose But of course no one will ever attempt such an endeavor because it's theoretically impossible Scripture's six sequences only confirm one sequence and it is the one which has been presented in The Sequence

Divine Grace The book posits that any betterment in human behavior needs a cathartic change at the deepest levels That requires diluting the dominance of the mind and reawakening the long dormant intelligence of the human heart To meet that challenge we need minimum numbers a critical mass to create self sustained momentum for transformation through consciousness change And every single human of this generation should behave in such a way that he or she is that single person whose transformation could make the decisive species scale difference The book offers a menu of ideas and an agenda of action This book could be itself become an input to mobilize that very critical mass it advocates for human transformation Well planned and cohesively written the book is noteworthy for its delightful blend of information and arguments and reveals the depth of the author s understanding of the human predicament This is a closely argued and thought provoking book The Hindu 13 Sept 2011 This book is a gripping exposition on human nature and self transformation without preference to religion Challa has critically provided a foundational argument for a deeper discussion of philosophical and practical ideals concerning self transformation harmonizing the head and the heart is the way for humans to function as spiritual beings Recommended by the USR The US Review of Books The author reflects upon the crisis of contemporary civilizations and outlines a blueprint for a new world order based on progressive spiritual values and change of human consciousness The strength of this treatise is the sweep of Challa s reach and his treatment of a vastly complex set of issues that bedevil humankind today India International Center Quarterly Summer 2012 As a thinker and erudite scholar the author has made a profound study of the world situation and the moral decadence of man This book deserves to be on the shelves of university college and public libraries Triveni Magazine July Sept 2011 It is difficult to pigeon hole this book as a prophetic discourse a journey into the human mind a guide for human survival a spiritual treatise It is an amalgam of all these and more the volume reaches out to those who are already uneasy about the way we on this earth are progressing The Book Review India June 2013     The Gate to Perfection Rabbi Professor Dr. Walter Homolka,1994-10-01 A timely book as Israelis and Arabs are moving towards a settlement this study offers a valuable historical dimension from the Jewish point of view to the main issue involved i e the idea of peace The authors maintain that peace has always played an important role in Jewish thought that in fact Judaism as a religion is characterized by the striving for peace They reach this conclusion after having examined a variety of sources ranging from the biblical texts of Old Israel to the Talmudic tradition and Jewish Philosophy of Religion up until the twentieth century     American Protestants and the Debate over the Vietnam War George Bogaski,2014-02-19 As American soldiers fought overseas in Vietnam American churchmen debated the legitimacy and impact of the war at home While the justness of the war was the primary issue they also argued over conscientious objection the legitimacy of protests the weapons of war and other related topics Divided into three primary groups mainline conservative evangelical and African American and including fourteen denominations this book uses the churchmen s publications and proceedings to better understand how American religion responded to and was impacted by the Vietnam

War In the various debates churchmen brought their theological convictions and reading of the Bible to bear on their political perspectives Convictions about sin the nature of man the fate of the world violence and benevolence had direct impact upon the foreign policy perspectives of these churches Rather than result in static political positions these convictions adapted as the nature of the war and the likelihood of American success changed over time The positions taken by American denominations brought about attitudes of support opposition and ambivalence toward the war but also impacted the vibrancy of many churches Some groups were rent asunder by the fractious debilitating debate Other churches due to their greater ideological clarity and unanimity saw the war provide an impetus for growth Regardless of the individual consequences the debate over the Vietnam War provides a concrete study of the intersection of religion and politics
