God Works Through Human Personality:

April D. Adeshile, 2005 All over the world people are the same and what is even more interesting we all have the same hopes we desire many of the same dreams we share the same emotions we all share a time to laugh a time to cry a time to fear a time to love a time to care a time to feel angry a time when we are sad and a time when joy brings us to that place of total happiness peace and tranquility which is a sure moment in time And the truth of the matter is this God is on the throne and it is only in Him through Him and by Him that all things are made possible for us Because He has assured us that He will never leave us nor forsake us God is a BIG GOD And whatever your challenge is whatever your struggle is whatever concern you may have and whatever it is that you are dealing with in your life today there is nothing too hard for God In God works Through Human Personality the author exemplifies beautifully through inspiration what God can do and will do for you when you put your trust in Him The word of God clearly encourages us by this saying if we ask any thing according to his will he heareth us and if we know that he hear us whatsoever we ask we know that we have the petitions that we desired of him 1 John 5 14 15 And know that there are angels we see and there are angels we don't see this is how we know that God is our comforter our helper our maker and our redeemer through the many trials we face and the courage we are inspired through the men women and sometimes children that we cross on a daily basis There is no respect of persons with God Romans 2 11 We are encouraged to let brotherly love continue And be not forgetful to entertain strangers for thereby some have entertained angels remember them that are in bonds as bound with them and them which suffer adversity as being yourselves also in the body Hebrews 13 1 3 How good and how pleasant it is for brethren to dwell together in unity Psalm 133 1 The Lord said

Predestination in Light of the Cross John B. King Jr., This book is a thorough presentation of the Biblical doctrine of absolute predestination from both the dogmatic and systematic perspectives The author defends predestination from the perspective of Martin Luther showing he was as vigorously predestinarian as John Calvin At the same time the author provides a compellingly systematic theological understanding of predestination This book will give the reader a fuller understanding of the sovereignty of God

The Child in American Evangelicalism and the Problem of Affluence David A. Sims, 2009-06-01 This work presents an evangelical theology of the child nurtured in the context of American evangelicalism and affluence It employs an eclectic theological critical method to produce a theological anthropology of the affluent American evangelical child AAEC through interdisciplinary evangelical engagement of American history sociology and economics Sims articulates how affluence constitutes a significant impediment to evangelical nurture of the AAEC in the discipline and instruction of the Lord Thus the problem he addresses is nurture in evangelical affluence conceived as a theological anthropological problem Nurture in the cultural matrices of the evangelical affluence generated by technological consumer capitalism in the U S impedes spiritual and moral formation of the AAEC for discipleship in the way of the cross This impediment risks disciplinary formation of the AAEC for capitalist culture cultivates delusional belief that life consists in

an abundance of possessions and hinders the practice of evangelical liberation of the poor on humanity's underside. The result is the AAEC's spiritual moral lack in late modernity. Chapter 1 introduces the problem of the AAEC. Chapters 2 and 3 provide a diachronic lens for the theological anthropology of the AAEC through critical assessment of the theological anthropologies of the child in Jonathan Edwards, Horace Bushnell, and Lawrence Richards. Chapters 4 and 5 constitute the synchronic perspective of the AAEC. Chapter 4 presents an evangelical sociology of the AAEC drawing upon William Corsaro's theory of interpretive reproductions, and chapter 5 constructs an evangelical theology of the AAEC through critical interaction with John Schneider's moral theology of affluence. Chapter 6, *Whither the AAEC*, concludes with a recapitulation of the work and a forecast of possible futures for the AAEC in the twenty-first century.

Explorations in Classical Sociological Theory Kenneth Allan, 2010. Explorations in

Classical Sociological Theory Seeing the Social World Second Edition is an undergraduate sociological theory textbook that introduces the student to the major classical theorists including Marx Spencer Durkheim Weber Simmel Mead Schutz Gilman and Du Bois The theorists were chosen for the diversity of their perspectives as well as their ability to introduce the student to contemporary theory Kenneth Allan uses a lively informative writing style to engage the students in the eras of social change that spawned the major sociological theories and then applies them to the current era which also is experiencing major social change Features and benefits The book includes a glossary of terms Each of the theorist s important concepts are highlighted in the text and clear definitions provided in the glossary This feature is particularly important because theory is made up of terms and concepts and without the use of a glossary it is very easy for the undergraduate theory student to lose track of the terms and meanings While the book is organized primarily around the individual theorist s perspective a categorical scheme is also provided so the student can roughly situate the theorists and decide for themselves some of sociology s big questions The scheme provided in the book is not the one usually used by textbooks The more commonly used scheme conflict functional interaction hides some really important questions that the student needs to consider for example is society an object or does it exist only through interpretations The book provides an appendix with complete definitions of most of sociology s major perspectives e g critical theory including feminism race and queer theory postmodernism and so on exchange theory rational choice theory dramaturgy ethnomethodology structuration network theory ecological theory social phenomenology and so on The book introduces the power and poetry of theory by extensive use of original source material from the theorists writings
