2020 Rüdiger Ahrens, Florian Klaeger, Klaus Stierstorfer, 2020-12-07 This special anniversary volume of Symbolism explores the nexus between symbolic signification and the future from an interdisciplinary perspective How contributors ask has the future been variously rendered in symbolic terms How do symbols and symbolic reference shape our ideas of the future To what extent are symbols constitutive of futures and to what extent do they restrain communication about what is possible and the imagination of fundamental change Moreover how have symbolic practices shaped not only artistic representations of the future but also scientific attempts at forecasting and modelling it What then is the relevance of symbolism for negotiations of the future in cultural and academic production In essays ranging from literary and film studies to the philosophy of art and ecological modelling the volume seeks to lay groundwork in theorizing and historicising symbols of the future as much as the future of symbolism *Maternity, Monstrosity, and Heroic (Im)mortality from Homer to Shakespeare* Sara

Burdorff, 2025-10-01 This work uses an adaptation of monster theory to rethink the foundations of epic heroic immortality Rather than focusing on a specific monster or monsters the author identifies the belly monstrous as a crucial point of intersection between mothers and warriors in traditional narratives of the Trojan War Identifying the gestating digesting belly as the center of the Iliadic world this groundbreaking approach disrupts androcentric readings of the Iliadic warrior and his ethos emphasizing the crucial role of female suffering in the generation and preservation of immortal legacy The author reconsiders ancient Greek depictions of the Trojan War and its aftermath including Homeric epic and the tragedies of Aeschylus and Euripides and illuminates the cohesive patterning of Shakespeare's mother warrior plays which place inherited Iliadic belly monstrous motifs in conversation with cultural anxieties of late Elizabethan England With meticulous scholarship and captivating analysis *Maternity Monstrosity and Heroic Im mortality from Homer to Shakespeare* redefines the relationship between mothers and warriors in the Iliadic heroic ideal paving the way for new interpretations of war grief and immortal glory in a broad range of literary and cultural contexts *The Archie/Sabrina Universe* Heather McAlpine, W.

Pierce,Gretchen Busl,2020-12-02 This volume of essays provides a critical foray into the methods used to construct narratives which foreground antiheroines a trope which has become increasingly popular within literary media film and television Antiheroine characters engage constructions of motherhood womanhood femininity and selfhood as mediated by the structures that socially prescribe boundaries of gender sex and sexuality Within this collection scholars of literary cultural media and gender studies address the complications of representing agency autonomy and self determination within narrative texts complicated by age class race sexuality and a spectrum of privilege that reflects the complexities of scripting women on and off screen within and beyond the page This collection offers perspectives on the alternate narratives engendered through the motivations actions and agendas of the antiheroine while engaging with the discourses of how such narratives are employed both as potentially feminist interventions and critiques of access hierarchy and power

The End of Straight Supremacy Shannon Gilreath,2011-09-19 Rooted in the politics and theories of early gay liberation and radical feminism Shannon Gilreath s The End of Straight Supremacy presents a cohesive theory of gay life under straight domination Beginning with a critique of formal equality law centering on the like straight demands of liberal equality theory as highlighted in Lawrence v Texas Gilreath moves to criticize the gay movement itself challenging the assimilation politics behind the movement s blithe acceptance of discrimination in the guise of free speech and pornography in the name of sexual liberation as well as same sex marriage and transsexuality as tools of straight hegemony Ultimately Gilreath rejects both the liberal demand for gay erasure in exchange for meager legal progress and the gay establishment agenda In The End of Straight Supremacy Gilreath calls gays and their allies to the difficult task of rethinking what liberation and equality really mean

Aimer et mourir Eilene Hoft-March,Judith Holland Sarnecki,2009-01-23 Aimer et Mourir offers a wide ranging selection of essays that collectively address how from the Middle Ages to the present the notions of love and death get

inextricably associated with the narratives that are women's lives. Some of the essays tackle male writers' representations that link women and in particular women's sexuality with death, resulting in the figures of the femme fatale, the woman in parturition and the desiring vampire. A number of essays reiterate that women's hypersexualized bodies have been used as a social construct and a psychological screen upon which to project a fear of death. The challenges to this pat reduction of women's domain come from the mostly women writers represented here and they span from Marguerite de Navarre to Amalie Notomb. These women writers rework the old formulae, giving us instead death-defying memories of love, love regenerative of language as of bodies, love forcing the frontiers of death or love creatively redefined within the parameters of death. Nor are these new narratives imagined as belonging to women alone but rather as attesting to a richer, more varied and greatly sensitized human experience.

Global Feminist Ethics Peggy DesAutels, Rebecca Whisnant, 2010. This volume is fourth in the series of annuals created under the auspices of The Association for Feminist Ethics and Social Theory (FEAST). The topics covered herein, from peacekeeping and terrorism to sex trafficking and women's paid labor to poverty and religious fundamentalism, are vital to women and to feminist movements throughout the world.

The wounds of nations Linnie Blake, 2013-07-19. The wounds of nations: Horror cinema, historical trauma and national identity explores the ways in which the unashamedly disturbing conventions of international horror cinema allow audiences to engage with the traumatic legacy of the recent past in a manner that has serious implications for the ways in which we conceive of ourselves both as gendered individuals and as members of a particular nation-state. Exploring a wide range of stylistically distinctive and generically diverse film texts, its analysis ranges from the body horror of the American 1970s to the avant-garde proclivities of German Reunification horror, from the vengeful supernaturalism of recent Japanese chillers and their American remakes to the post-Thatcherite masculinity horror of the UK and the resurgence of hillbilly horror in the period following September 11th 2001. In each case it is argued that horror cinema forces us to look again at the wounds inflicted on individuals, families, communities and nations by traumatic events such as genocide and war, terrorist outrage and seismic political change, wounds that are all too often concealed beneath ideologically expedient discourses of national cohesion. By proffering a radical critique of the nation-state and the ideologies of identity, it promulgates that horror cinema is seen to offer us a disturbing yet perversely life-affirming means of working through the traumatic legacy of recent times.

Bearing the weight of the world: Exploring Maternal Embodiment Alys Einion, 2018-10-01. The maternal body is a site of contested dynamics of power, identity, experience, autonomy, occupation and control. Representations of the maternal body can misrepresent the childbearing and mothering form, variously often as monstrous, idealized, limited,

scrutinized or occupied whilst dominant discourses limit motherhood through social devaluation The maternal body has long been a hypervisible artifact at once bracketed out in the interest of elevating the contributions of sperm carriers or fetal status and regarded with hostility and suspicion as out of control Such arguments are deployed to justify surveillance mechanisms medical scrutiny and expectation of self discipline
