The Seduction of Culture in German History Wolf Lepenies, 2009-01-10 During the Allied bombing of Germany Hitler was more distressed by the loss of cultural treasures than by the leveling of homes Remarkably his propagandists broadcast this fact convinced that it would reveal not his callousness but his sensitivity the destruction had failed to crush his artist's spirit It is impossible to begin to make sense of this thinking without understanding what Wolf Lepenies calls The Seduction of Culture in German History This fascinating and unusual book tells the story of an arguably catastrophic German habit that of valuing cultural achievement above all else and envisioning it as a noble substitute for politics Lepenies examines how this tendency has affected German history from the late eighteenth century to today He argues that the German preference for art over politics is essential to understanding the peculiar nature of Nazism including its aesthetic appeal to many Germans and others and the fact that Hitler and many in his circle were failed artists and intellectuals who seem to have practiced their politics as a substitute form of art In a series of historical intellectual literary and artistic vignettes told in an essayistic style full of compelling aphorisms this wide ranging book pays special attention to Goethe and Thomas Mann and also contains brilliant discussions of such diverse figures as Novalis Walt Whitman Leo Strauss and Allan Bloom The Seduction of Culture in German History is concerned not only with Germany but with how the German obsession with culture sense of cultural superiority and scorn of politics have affected its relations with other countries France and the United States in particular

Sappho to Valéry John Frederick Nims, 1990-07-01 Poems in original languages with English translations **Nominations Before the Senate Armed Services Committee, Second Session, 102d Congress** United States. Congress. Senate. Committee on Armed Services, 1993 *Grafting Helen* Matthew Gumpert, 2012-11 History is a love story a tale of desire and jealousy abandonment and fidelity abduction and theft rupture and reconciliation This contention is central to Grafting Helen Matthew Gumpert's original and dazzling meditation on Helen of Troy as a crucial

anchor for much of Western thought and literature Grafting Helen looks at classicism the privileged rhetorical language for describing cultural origins in the West as a protracted form of cultural embezzlement No coin in the realm has been more valuable more circulated more coveted or more counterfeited than the one that bears the face of Helen of Troy Gumpert uncovers Helen as the emblem for the past as something to be stolen appropriated imitated extorted and coveted once again Tracing the figure of Helen from its classical origins through the Middle Ages the French Renaissance and the modern era Gumpert suggests that the relation of current Western culture to the past is not like the act of coveting it is the act of coveting he argues for it relies on the same strategies the same defenses the same denials and the same delusions

The author shows by close analysis how Valéry opposes a Cartesian anti-Pascalian Faust to Goethe's romantically flawed hero. The title of the project conceived by Valéry's *Faust: The Mind's Body*—part autobiography, part metaphysical treatise—embodies the Cartesian dilemma ironically illustrated by the *Mon Faust*: fragments, the misfortunes of the thinking essence, the cogito in its subjugation to the body. The first three chapters examine the Cartesian character of a Faust engaged in superhuman but vain attempts to reconcile the intellect and the libido. A fourth chapter discusses the differences between Goethe's and Valéry's protagonists and as well between Goethe and his Faust. Throughout the book, the author explores Valéry's linguistic experimentation which, through charades, paranomasia, onomastics, and etymological puns, brings into full play the mystifying and mythologizing aspects of language. To resolve the stylistic problems associated with this fragmentary work, the author adapts the tone of his exegesis to the diverse stylistic levels of *Mon Faust*. His analysis illuminates the Cartesian potential inherent in Valéry's protagonist.
