Theory & Practice in Clinical Social Work Jerrold R. Brandell, 2010-02-16 Today's clinical social workers face a spectrum of social issues and problems of a scope and severity hardly imagined just a few years ago and an ever widening domain of responsibility to overcome them Theory and Practice in Clinical Social Work is the authoritative handbook for social work clinicians and graduate social work students that keeps pace with rapid social changes and presents carefully devised methods models and techniques for responding to the needs of an increasingly diverse clientele Following an overview of the principal frameworks for clinical practice including systems theory behavioral and cognitive theories psychoanalytic theory and neurobiological theory the book goes on to present the major social crises problems and new populations the social work clinician confronts each day Theory and Practice in Clinical Social Work includes 29 original chapters many with carefully crafted and detailed clinical illustrations by leading social work scholars and master clinicians who represent the widest variety of clinical orientations and specializations Collectively these leading authors have treated nearly every conceivable clinical population in virtually every practice context using a full array of treatment approaches and modalities Included in this volume are chapters on practice with adults and children clinical social work with adolescents family therapy and children's treatment groups other chapters focus on social work with communities affected by disasters and terrorism clinical case management cross cultural clinical practice psychopharmacology practice with older adults and mourning and loss The extraordinary breadth of coverage will make this book an essential source of information for students in advanced practice courses and practicing social workers alike

The Concept of Meaninglessness Edward Erwin, 2019-12-01 Originally published in 1970 Many contemporary philosophers have thought that certain philosophic disputes could be settled by using the concept of meaninglessness To solve philosophic problems in this way however it seemed necessary to provide a reliable criterion for deciding when a particular sentence or statement is meaningless But devising such a criterion has proved to be very difficult In fact in recent years many philosophers have become quite skeptical about the adequacy of the standard criteria of meaninglessness Some of the more radical skeptics have even argued that the concept of meaninglessness as it is used by philosophers is itself defective and would be even if an adequate criterion could be found Professor Erwin in a systematic study of the concept of meaninglessness begins by examining the standard criteria of meaninglessness proposed by philosophers These criteria include operationalist verificationist and type or category criteria Each of these criteria he argues is inadequate Erwin then turns to the question

What kinds of items if any should be said to be meaningless Most philosophers concerned with this question have claimed that only sentences not statements or propositions can be meaningless Erwin argues however that this is wrong statements and propositions can be meaningless Once this is demonstrated it can then be shown that the more radical skepticism about the philosophic use of the concept of meaninglessness is misguided In particular Erwin shows that the following assertions of the radical skeptic are false that what is meaningless is relative to a given language or to a given time and that the concept of meaninglessness forces us to condemn as nonsense metaphors comprehensible to competent speakers of English In his concluding chapter Erwin considers the implications of there not being any adequate general criterion of meaninglessness He then tries to show how the concept of meaninglessness when interpreted in the manner he suggests can be profitably used by philosophers despite the many persuasive objections to its use that philosophers have raised in their disputes over it
