Seeds and Animals: Alfred W. Crosby,2015-03-04 Alfred Crosby almost alone redirected the attention of historians to
ecological issues that were important precisely because they were global In doing so he answered those who believed that
world history had become impossible as a consequence of the post war proliferation of new historical specialities including
not only ecological history but also new social histories areas studies histories of mentalities and popular cultures and studies
of minorities majorities and ethnic groups In the introduction to this volume Professor Crosby recounts an intellectual path to
ecological history that might stand as a rationale for world history in general He simply decided to study the most pervasive

Watkins,1978-06-01 The story of Christianity from apostolic times to the present reveals that in virtually every country of the
world a Bible reading laity was an important factor in the growth of the church both numerically and spiritually The
importance of the Bible in actual history is a challenge to the church today Factor Separation in the Atmosphere Pinhas
Alpert,Tatiana Sholokhman,2011-02-10 Modeling atmospheric processes in order to forecast the weather or future climate
change is an extremely complex and computationally intensive undertaking One of the main difficulties is that there are a
huge number of factors that need to be taken into account some of which are still poorly understood The Factor Separation
FS method is a computational procedure that helps deal with these nonlinear factors In recent years many scientists have
applied FS methodology to a range of modeling problems including paleoclimatology limnology regional climate change
rainfall analysis cloud modeling pollution crop growth and other forecasting applications This book is the first to describe the
fundamentals of the method and to bring together its many applications in the atmospheric sciences The main audience is
researchers and graduate students using the FS method but it is also of interest to advanced students researchers and
