by some as an aspect of human life that is distinct from religion. Consequently many are searching for meaning within and without religious traditions today and seeking answers to ethical and moral questions that have been generated by the knowledge and technological explosion. One outcome is the renewed interest in the religious, spiritual and moral dimensions of education throughout the life cycle. This International Handbook presents the research and professional practice of scholars who are daily engaged in the consideration of these dimensions in education. The result is a collection of essays which reflects the discipline in all of its internationality as it is today. Embedded within the chapters is also an agenda for the future where the religious, moral and spiritual dimensions in education are proposed as an exciting and challenging way forward for educators at all levels in society. As well, it offers a vision for the emergence of a peaceful and just world.

Mindful Education Charlene Tan, 2021-06-30. This book provides original ideas and practical recommendations for educators in a post-pandemic world. We live in a world that has been upended by the COVID-19 pandemic. Students around the globe have been besieged by disruptions that threaten not only their academic learning but also their mental, emotional and interpersonal well-being. In the midst of pressing and mounting challenges, how can schools ensure the total wellness of all their students? Beyond reactive, piecemeal and short-term measures, how can schools enact mindful education that pays attention to wholeness in every student? Extending the current research on well-being and mindfulness, this book draws insights from Confucian and Christian traditions. These two traditions have been selected as they are widely seen to represent and have impacted Eastern and Western civilisations respectively for millennia. Informed and inspired by Confucian and Christian perspectives, this book proposes that mindfulness is an orientation towards wholeness where one experiences harmony and shalom/peace. Mindful education is realised through a school community of renewed humanity and agape love. A transforming curriculum that centres on *dao*, *way* and *imago dei* (God's image). Empathic teachers who are motivated by *shu* (putting oneself in the other's place) and the Golden Rule (do to others as you would have them do to you) and self-directed learners who develop themselves through *xiuji*
