God Is Rice Asian Culture And Christian Faith The Risk Series:

God Is Rice Masao Takenaka, 2009-08-01 When we say that God is rice we take rice as the symbol of God's gift of life. The provocative title is actually the title of the first essay in the book that explores how the gospel calls us to live in harmony with nature and neighbor to secure just social organizations and be open to renewal. The Community of the Magnificat is a penetrating study of the interaction between Christ and culture in Asia. The Ethics of Betweenness is a case study of Sozo Tanaka who was one of the pioneers of the ecological movement and the people's movement in Japan. Christ of Wabi is a Christian reflection on beauty in the Japanese cultural context. **God is Rice** Masao Takenaka, 1986 **Bibliography on East Asian Religion and Philosophy**, 2001 This comprehensive research bibliography compiles, annotates, indexes, and cross-references resources in the principal Western languages which focus on China, Japan, and Korea in the areas of philosophy and religious studies, supporting resources in theology, history, culture, and related social sciences. A notable additional feature is the inclusion of extensive Internet-based resources such as a wide variety of web sites, discussion lists, electronic texts, virtual libraries, online journals, and related material. *Theology of Culture in a Japanese Context* Atsuyoshi Fujiwara, 2012-07-01 The Christian faith has always stood in a place of tension between its transcendent nature and the surrounding culture. On the one hand, Christian faith claims to originate in the revelation of God which transforms culture itself. On the other hand, all such revelation is inevitably received and interpreted by humans in concrete situations. It is no exaggeration to say that two millennia of church history have continually demonstrated the struggle between Christian faith and culture. In an effort to address this struggle, this book explores relevant issues pertinent to the relationship between faith and culture in the particular context of Japan. In this unique work, the context of Japan, well known as a desolate swamp for Christian missions, provides the setting for a re-exploration of issues pertaining to the theology of culture. As such, Japan provides both a concrete and challenging context to work out a theology of culture. This book also helpfully illuminates for Western readers some key problems that may not have appeared fully in their contexts yet but will do so as the post-Christendom era continues. Critical Readings in the History of Christian Mission Martha Frederiks, Dorottya Nagy, 2021-06-22 This selection of texts introduces students and researchers to the multi and interdisciplinary field of mission history. It apprises them with current discussions, insights, and theories. The four parts of this book acquaint the readers with methodological considerations and recurring themes in the academic study of the history of mission. Part one revolves around methods, part two documents approaches, while parts three and four consist of thematic clusters such as mission and language, medical mission, mission and education, women and mission, mission and politics, and mission and art. The text selection represents a wide variety of disciplines, authors, and backgrounds. The texts were chosen because they address the complexities involved in studying the history of Christian mission. Critical Readings in the History of Christian Mission is suitable for course work and other educational purposes. Christianity and Ecological Theology E. M. Conradie, 2006-10-01 There has been a

proliferation of publications in the field of Christian ecological theology over the last three decades or so. These include a number of recent edited volumes each covering a range of topics and consolidating many of the emerging insights in ecological theology. The call for Christian churches to respond to the environmental crisis has been reiterated numerous times in this vast corpus of literature also in South Africa.

The Japan Christian Quarterly, 1986 **Asian Dreams and Christian Hope** Felix Wilfred, 2000 **Asian Christian Theologians in Dialogue with Buddhism** Kenneth Fleming, 2002

This book is a study of three of Asia's most respected contemporary theologians: Kosuke Koyama, Choan Seng Song, and Aloysius Pieris. It gives an introduction to Asian Buddhism and the Christian dialogue with Buddhists in Asia. Furthermore, it examines the work of each theologian in detail, looking at the method and content of their dialogue and outlining its impact upon their respective theologies. The book provides a critique of their dialogue and engages with the theological issues that have emerged. In areas such as religious identity, theological method, and liberation theology, it is shown that their conversation with Buddhism contributes to the development of a genuinely Asian theology and moreover raises important challenges to the worldwide theological community, churches, and to those engaged in interreligious dialogue.

Troubling (Public) Theologies Jione Havea, 2023-02-06

Theologies, no matter their designations, are public measures they disclose as well as gauge the public's near and far on which they stand, sit, lie, or fall. Because publics shift and mingle, theologies require reimagining, relocating, and embracing fresh

insights and energies The insights and energies embraced in this work are in three clusters spaces bodies and technologies The spotlighted spaces are in Africa Asia Black America the Caribbean and Pasifika beyond the eyes of mainline theologies the privileged bodies have survived with scars from empire and missionary positionings and the welcomed technologies include Dalit indigenous art poetry cyborg and the novel This collection is troubling in several ways first reimagining and relocating are troubling acts upon their subject matter here public theologies On that note what theology is not public Second this work takes theologies in general and not just the theologies that carry the public designation to be public theologies Third this work takes theologies in general to be inherently troubling In other words theologies that are not troubling are not public enough **Nasi Dan Allah** Masao Takenaka,1993 *Christianity and Culture* Martin S. Reed,2002 In over 2 000 years Christianity has made the overwhelming impact on the culture of the Western world in particular But culture has also helped to shape the development and form of Christianity since the interaction of two such powerful phenomena cannot help but change the other This new book brings together over 1200 citations on Christianity and Culture which are indexed by subject title and author for easy access **The British Library General Catalogue of Printed Books, 1986 to 1987** British Library,1988 **Index to Book Reviews in Religion** ,1993 **Journal of Ecumenical Studies** ,1987 Many Voices in Christian Mission T.
