Gods Mountain The Temple Mount In Time Place And Memory:

God's Mountain Yaron Z. Eliav, 2005-12-06 Eliav refutes the popular tradition that situates the Temple Mount as a unique sacred space from the earliest days of the history of Israel and the Jewish people a sequential development model that begins in the tenth century BCE with Solomon's construction of the First Temple Instead he asserts that the Temple Mount emerged as a sacred space in Jewish and early Christian consciousness hundreds of years later toward the close of the Second Temple era in the first century CE Eliav pinpoints three defining moments in the Temple Mount's physical history King Herod's dramatic enlargement of the mountain at the end of the first century BCE the temple's destruction by the Roman emperor Titus in 70 CE and Hadrian's actions in Jerusalem sixty years later *The Memory of the Temple and the Making of the Rabbis* Naftali S. Cohn, 2013-01-09 When the rabbis composed the Mishnah in the late second or early third century CE the Jerusalem Temple had been destroyed for more than a century Why then do the Temple and its ritual feature so prominently in the Mishnah Against the view that the rabbis were reacting directly to the destruction and asserting that nothing had changed Naftali S Cohn argues that the memory of the Temple served a political function for the rabbis in their own time They described the Temple and its ritual in a unique way that helped to establish their authority within the context of Roman dominance At the time the Mishnah was created the rabbis were not the only ones talking extensively about the Temple other Judaeans including followers of Jesus Christians and even Roman emperors produced texts and other cultural artifacts centered on the Jerusalem Temple Looking back at the procedures of Temple ritual the rabbis created in the Mishnah a past and a Temple in their own image which lent legitimacy to their claim to be the only authentic purveyors of Jewish tradition and the traditional Jewish way of life Seizing on the Temple they sought to establish and consolidate their own position of importance within the complex social and religious landscape of Jewish society in Roman Palestine **The Making of the Abrahamic Religions in Late Antiquity** Guy G. Stroumsa, 2015 This book presents how ancient Christianity must be understood from the viewpoint of the history of religions in late antiquity The continuation of biblical prophecy runs like a thread from Jesus through Mani to Muhammad And yet this thread arguably the single most important characteristic of the Abrahamic movement often remains outside the mainstream hidden as it were since it generates heresy The figures of the Gnostic the holy man and the mystic are all sequels of the Israelite prophet They reflect a mode of religiosity that is characterized by high intensity It is centripetal and activist by nature and emphasizes sectarianism and polemics esoteric knowledge or gnosis and charisma The other mode of religiosity obviously much more common than the first one is centrifugal and irenic It favors an ecumenical attitude contents itself with a widely shared faith or *pistis* and reflects in Weberian parlance the routinization of the new religious movement This is the mode of priests and bishops rather than that of martyrs and holy men These two main modes of religion high versus low intensity exist simultaneously and cross the boundaries of religious communities They offer a tool permitting us to follow the transformations of religion in late antiquity

in general and in ancient Christianity in particular without becoming prisoners of the traditional categories of patristic literature Through the dialectical relationship between these two modes of religiosity one can follow the complex transformations of ancient Christianity in its broad religious context

Building on the Ruins of the Temple Adam Gregerman, 2016-06-28 In the immediate centuries after the Romans destruction of Jerusalem and its Temple in 70 CE Jews and Christians offered contrasting religious explanations for the razing of the locus of God's presence on earth Adam Gregerman analyzes the views found in three early Christian texts Justin's Dialogue with Trypho Origen's Contra Celsum and Eusebius Proof of the Gospel and one rabbinic text the Midrash on Lamentations all of which emerged in the same place the land of Israel and around the same time the first few centuries after 70 The author explores the ways they interpret the destruction in order to prove in the case of Christians or make it impossible to disprove in the case of the Jews that their community is the people of God He demonstrates the apologetic and polemical functions of selected explanations for claims to the covenant made by one community excluded those made by the other

T&T Clark Handbook of Anthropology and the Hebrew Bible Emanuel Pfoh, 2022-12-15 This handbook presents an overview of the main approaches from social and cultural anthropology to the Hebrew Bible Since the late 19th century biblical scholarship has addressed issues and themes related to biblical stories from a perspective which could now be considered socio anthropological It is however only since the 1960s that biblical scholars have started to produce readings and incorporate analytical models drawn directly from social anthropology to widen the interpretive scope of the social and historical data contained in the biblical sources The handbook is arranged into two main thematic parts Part 1 assesses the place of the Bible in social anthropology examines the contribution of ethnoarchaeology to the recovery of the social world of Iron Age Palestine and offers insights from the anthropology of the Mediterranean for the interpretation of the biblical stories Part 2 provides a series of case studies on anthropological themes arising in the Hebrew Bible These include kinship and social organisation death cultural and collective memory and ritualism Contributors also examine how the biblical stories reveal dynamics of power and authority gender and honour and shame and how socio anthropological approaches can reveal these narratives and deepen our knowledge of the human societies and cultural context of the texts Bringing together the expertise of scholars of the Hebrew Bible and Biblical Archaeology this ethnographic introduction prompts new questions into our understanding of anthropology and the Bible

Andrade,2013-07-25 This book proposes a new means of identifying how Greek and Syrian identities were expressed in the Hellenistic and Roman Near East *Conversion in Late Antiquity: Christianity, Islam, and Beyond* Arietta Papaconstantinou,Daniel L. Schwartz,2016-03-03 The papers in this volume were presented at a Mellon Sawyer Seminar held at the University of Oxford in 2009 2010 which sought to investigate side by side the two important movements of conversion that frame late antiquity to Christianity at its start and to Islam at the other end Challenging the opposition between the two stereotypes of Islamic conversion as an intrinsically violent process and Christian conversion as a fundamentally spiritual one the papers seek to isolate the behaviours and circumstances that made conversion both such a common and such a contested phenomenon The spread of Buddhism in Asia in broadly the same period serves as an external comparator that was not caught in the net of the Abrahamic religions The volume is organised around several themes reflecting the concerns of the initial project with the articulation between norm and practice the role of authorities and institutions and the social and individual fluidity on the ground Debates discussions and the expression of norms and principles about conversion conversion are not rare in societies experiencing religious change and the first section of the book examines some of the main issues brought up by surviving sources This is followed by three sections examining different aspects of how those principles were or were not put into practice how conversion was handled by the state how it was continuously redefined by individual ambivalence and cultural fluidity and how it was enshrined through different forms of institutionalization Finally a topographical coda examines the effects of religious change on the iconic holy city of Jerusalem *Placemaking and the Arts* Jennifer Allen Craft,2018-10-30 What role does place play in the Christian life In this STA volume Jennifer Allen Craft gives a practical theology of the arts contending that the arts place us in time space and community in ways that encourage us to be fully and imaginatively present in a variety of contexts the natural world our homes our worshiping communities and society

2 *Maccabees* Daniel R. Schwartz,2008-12-10 2 Maccabees is a Jewish work composed during the 2nd century BCE and preserved by the Church Written in Hellenistic Greek and told from a Jewish Hellenistic perspective 2 Maccabees narrates and interprets the ups and downs of events that took place in Jerusalem prior to and during the Maccabean revolt

institutionalized Hellenization and the foundation of Jerusalem as a polis the persecution of Jews by Antiochus Epiphanes accompanied by famous martyrdoms and the rebellion against Seleucid rule by Judas Maccabaeus 2 Maccabees is an important source both for the events it describes and for the values and interests of the Judaism of the Hellenistic diaspora that it reflects which are often quite different from those represented by its competitor 1 Maccabees **Art, History and the Historiography of Judaism in Roman Antiquity** Steven Fine, 2013-10-10 Art History and the Historiography of Judaism in Roman Antiquity explores the complex interplay between visual culture texts and their interpretations arguing for an open ended and self aware approach to understanding Jewish culture from the first century CE through the rise of Islam The essays assembled here range from the thick description of Josephus's portrayal of Bezalel son of Uri as a Roman architect through the inscriptions of the Dura Europos synagogue Jewish reflections on Caligula in color the polychromy of the Jerusalem temple new old approaches to the zodiac and to the Christian destruction of ancient synagogues Taken together these essays suggest a humane approach to the history of the Jews in an age of deep and long lasting transitions both in antiquity and in our own time Taken as a whole Fine's book exhibits the value of bridging disciplines The historiographical segments integrated throughout this volume offer essential insights that will inform any student of Roman and late antiquity Yael Wilfand Hebrew University Review of Biblical Literature 2014 A History of Judaism Martin Goodman, 2019-11-19 Judaism is one of the oldest religions in the world and it has preserved its distinctive identity despite the extraordinarily diverse forms and beliefs it has embodied over the course of more than three millennia A History of Judaism provides the first truly comprehensive look in one volume at how this great religion came to be how it has evolved from one age to the next and how its various strains sects and traditions have related to each other In this magisterial and elegantly written book Martin Goodman takes readers from Judaism's origins in the polytheistic world of the second and first millennia BCE to the temple cult at the time of Jesus He tells the stories of the rabbis mystics and messiahs of the medieval and early modern periods and guides us through the many varieties of Judaism today Goodman's compelling narrative spans the globe from the Middle East Europe and America to North Africa China and India He explains the institutions and ideas on which all forms of Judaism are based and masterfully weaves together the different threads of doctrinal and philosophical debate that run throughout its history Palestine in Late Antiquity Hagith Sivan, 2008-02-14 Hagith Sivan offers an unconventional study of one corner of the Roman Empire in late antiquity weaving around the theme of conflict strands of distinct histories and of peoples and places highlighting Palestine's polyethnicity and cultural topographical architectural and religious diversity During the period 300-650 CE the fortunes of the east and the west were intimately linked Thousands of westerners in the guise of pilgrims pious monks soldiers and civilians flocked to what became a Christian holy land This is the era that witnessed the transformation of Jerusalem from a sleepy Roman town built on the ruins of spectacular Herodian Jerusalem into an international centre of Christianity and ultimately into a centre of Islamic worship It was also a period of

unparalleled prosperity for the frontier zones and a time when religious experts were actively engaged in guiding their communities while contesting each other's rights to the Bible and its interpretation

Temple Purity in 1-2 Corinthians Yulin Liu, 2013 Paul's view of the church as the temple and his concern about its purity in 1-2 Corinthians has traditionally been interpreted from the perspective of a Jewish background. However, Yulin Liu reveals that the pagans were very aware of temple purity when visiting some temples in the Greco-Roman world and the purification concerns of three pagan temples in Corinth are documented in his work. The author affirms that the Gentile believers among the Corinthian community were able to grasp Paul's message because of it. Also, Liu investigates Paul's use of temple purity to address the necessity of unity, holiness, and faithfulness of the Corinthian Christians in an eschatological sense. The separation of God's people from profane matters actually points to a new exodus and a progressive consummation of the construction of the eschatological temple community.

Legal Fictions Steven Fraade, 2011-05-10 Drawing on the ancient writings of the Dead Sea Scrolls and early rabbinic Judaism, this book comprises studies that explore the intersections of scriptural interpretation, narrative fiction, and legal rhetoric. It proposes and models methods of a non-reductive historiography for each of these communities and for both of them in comparison.

Jerusalem Through the Ages Jodi Magness, 2024 In this broad yet detailed account of one of the world's oldest, holiest, and most contested cities, leading expert Jodi Magness incorporates the most recent archaeological discoveries and original research to weave an authoritative history of Jerusalem's ancient and medieval periods.

Jews, Christians, and the Roman Empire Natalie B. Dohrmann, Annette Yoshiko Reed, 2013-10-09 In histories of ancient Jews and Judaism, the Roman Empire looms large. For all the attention to the Jewish Revolt and other conflicts, however, there has been less concern for situating Jews within Roman imperial contexts. Just as Jews are frequently dismissed as atypical by scholars of Roman history, so Rome remains invisible in many studies of rabbinic and other Jewish sources written under Roman rule. *Jews, Christians, and the Roman Empire* brings Jewish perspectives to bear on long-standing debates concerning Romanization, Christianization, and late antiquity. Focusing on the third to sixth centuries, it draws together specialists in Jewish and Christian history, law, literature, poetry, and art. Perspectives from rabbinic and patristic sources are juxtaposed with evidence from papyri, documentary papyri, and synagogue and church mosaics. Through these case studies, contributors highlight paradoxes, subtleties, and ironies of Romaness and imperial power.
