Encyclopedia of Ancient Deities Charles Russell Coulter, Patricia Turner, 2013-07-04

The history of the divine is the history of human thought. For as long as men and women have pondered the mysteries of their existence they have answered their own questions with stories of gods and goddesses. Belief in these deities shaped whole civilizations yet today many of their names and images lie buried. The Encyclopedia of Ancient Deities makes those names available to the general reader as well as the scholar. This reference work lists all the known gods through recorded history. Alphabetically arranged entries provide the name of each deity with alternate spellings as well as notes on names that may be linguistically or functionally related. The tribe or culture that worshiped the deity is identified and the god's origins and functions are explained. An extensive bibliography provides opportunities for further research and an exhaustive index provides access to the entries through virtually all names forms and kinds of deities.

Encyclopaedia of the the Divine Masculine God of 10,000 Names Tamara Von Forsslun, 2021-11-18

The idea of religion has been around since the beginning of mankind when man saw something bigger and grander than themselves. They saw an immense building block of creation and re creation in all aspects of nature. It was the ancient Shamans that created the first structures that we call religion. But these were set upon rules and laws of Nature based on birth life fertility truth faith magic death love and rebirth. From this the Divine was born with the images of their surroundings and above these images were the Divine Masculine and the Divine Feminine and these great Ancient Beings spoke to the Shamans the Priests of Old and guided their footsteps who in turn guided their community. The reality is that now man has created a myriad of gods in each and every country culture and community and through time these spiritual Shamans have shared their truth with all of mankind upon their many travels and so religion spread and the names of their deities also spread to create the diversity all over the world where instead of a god being known just to a set area and community that he has now been shared and adopted all over the world by those who were searching and believe they found their fit. The reality is that God is Deity has always been about bringing likeminded people together without judgement segregation and distrust. It is about tolerance acceptance faith trust love peace harmony truth and the bigger picture of Divine Oneness. This book features thousands of gods from every land culture and belief system that were needed to bring man into the 21st Century. Do we still need thousands of deities That can only be answered by yourself when you find your god or goddess. Please delve into the history and variations of deities as they take you back

into the past of your ancestors and hopefully bring you closer to yourself your Truth and that spiritual connection to your god in the 21st century no matter what name he is known
