Cheng,2022-07-21 Difference and disagreement can be valuable yet they can also spiral out of control and damage liberal democracy Advancing a metaphor of citizenship that the author terms role based constitutional fellowship this book offers a solution to this challenge Cheng argues that a series of divisions of labor among citizens differently situated can help cultivate the foundational trust required to harness the benefits of disagreement and difference while preventing them from overheating and in turn from leaving liberal democracy vulnerable to the growing influence of autocratic political forces The book recognizes however that it is not always appropriate to attempt to cultivate trust and acknowledges the important role that some forms of confrontation might play in identifying and rectifying undue social hierarchies such as racial ethnic hierarchies Hanging Together thereby works to pave a middle way between deliberative and realist conceptions of democracy      Aristotle, Emotions, and Education Professor Kristján Kristjánsson,2012-10-01 What can Aristotle teach us

that is relevant to contemporary moral and educational concerns What can we learn from him about the nature of moral development the justifiability and educability of emotions the possibility of friendship between parents and their children or the fundamental aims of teaching The message of this book is that Aristotle has much to teach us about those issues and many others In a formidable display of boundary breaking scholarship drawing upon the domains of philosophy education and psychology Kristján Kristjánsson analyses and dispels myriad misconceptions about Aristotle's views on morality emotions and education that abound in the current literature including the claims of the emotional intelligence theorists that they have revitalised Aristotle's message for the present day The book proceeds by enlightening and astute forays into areas covered by Aristotle's canonical works while simultaneously gauging their pertinence for recent trends in moral education This is an arresting book on how to balance the demands of head and heart a book that deepens the contemporary discourse on emotion cultivation and virtuous living and one that will excite any student of moral education whether academic or practitioner
