The Funeral Casino Alan Klima, 2002-03-03 Table of contents *Funeral Casino , Ritual, Media, and Conflict* Ronald L. Grimes, Ute Husken, Udo Simon, Eric Venbrux, 2011-03-23 Rituals can provoke or escalate conflict but they can also mediate it and although conflict is a normal aspect of human life mass media technologies are changing the dynamics of conflict and shaping strategies for deploying rituals This collection of essays emerged from a two year project based on collaboration between the Faculty of Religious Studies at Radboud University Nijmegen in the Netherlands and the Ritual Dynamics Collaborative Research Center at the University of Heidelberg in Germany An interdisciplinary team of twenty four scholars locates describes and explores cases in which media driven rituals or ritually saturated media instigate disseminate or escalate conflict Each multi authored chapter is built around global and local examples of ritualized mediatized conflict The book s central question is When ritual and media interact either by the mediatizing of ritual or by the ritualizing of media how do the patterns of conflict change Stuck Moving Peter Benson, 2023-04-11 AUTHOR S NOTE This book is unconventional A self conscious experiment in form that draws together two vernaculars anthropological thought and the pop culture of my youth It is a fraught exercise I write as a White guy about angst and alienation in the privileged spaces of anthropology and higher education I appreciate the irony I hope nonetheless that my experiences with and critical perspectives on social conventions the culture of liberalism and ableism in academia might be useful I seek to expand possibilities of anthropological representation while challenging epistemological aesthetic and professional norms in my discipline It bothers me that anthropology can be so sanctimonious I take aim at the ableist conceit that anthropologists are non characters studying a messy world Much of my life has been a mess My work has been undertaken amid struggles with pregnancy loss bipolar disorder and drug addiction I have deep regrets about my participation in an exploitative field I have deep regrets about many things I have hurt people and been hurt by people I hope my stories and reflections add to what others have already written about a more open honest and self deprecating anthropology **Gambling, the State and Society in Thailand, c.1800-1945** James A. Warren, 2013-07-18 During the nineteenth century there was a huge increase in the level and types of gambling in Thailand Taxes on gambling became a major source of state revenue with the government establishing state run lotteries and casinos in the first half of the twentieth century Nevertheless over the same period a strong anti gambling discourse emerged within the Thai elite which sought to regulate gambling through a series of increasingly restrictive and punitive laws By the mid twentieth century most forms of gambling had been made illegal a situation that persists until today This historical study based on a wide variety of Thai and English language archival sources including government reports legal cases and newspapers places the criminalization of gambling in Thailand in the broader context of the country s socio economic transformation and the modernization of the Thai state Particular attention is paid to how state institutions such as the police and judiciary and different sections of Thai society shaped and subverted the law to

advance their own interests Finally the book compares the Thai government's policies on gambling with those on opium use and prostitution placing the latter in the context of an international clampdown on vice in the early twentieth century The Spirit Ambulance Scott Stonington,2020-08-25 The Spirit Ambulance is a journey into decision making at the end of life in Thailand where families attempt to craft good deaths for their elders in the face of clashing ethical frameworks from a rapidly developing universal medical system to national and global human rights politics to contemporary movements in Buddhist metaphysics Scott Stonington's gripping ethnography documents how Thai families attempt to pay back a debt of life to their elders through intensive medical care followed by a medically assisted rush from the hospital to home to ensure a spiritually advantageous last breath The result is a powerful exploration of the nature of death and the complexities arising from the globalization of biomedical expertise and ethics around the world *Corpse Magic* Michael Taussig,2025-03-28 Corpse Magic examines beliefs about vengeance the slain magically enact on their killers focusing on lethal violence in Colombia and the United States Corpse Magic is a response to the global ubiquity of violence In this bracing new work the influential anthropologist Michael Taussig puts killings in Colombia by gangs and guerrillas police and the military and agents of agribusiness in conversation with mass shootings and police killings disproportionately of Black people in the United States In both contexts he examines the effects of violent killing on its victims its perpetrators and those who witness and relive it through media footage Drawing from literature religion philosophy and anthropology Taussig traces the idea that the act of killing infects the killer and spreads outward then connects this concept of contagion to beliefs in Colombia and elsewhere that the souls of the slain possess those of their slayers and that magic can be used to empower or thwart corpses as agents of vengeance In this powerful and imaginative work Taussig asks what kind of power the dead continue to have what kinds of magic can manage that power and what if anything can stop seemingly endless cycles of violence Varieties of Secularism in Asia Nils Ole Bubandt,Martijn Van Beek,2012-03-12 Varieties of Secularism is an ethnographically rich theoretically well informed and intellectually coherent volume which builds off the work of Talal Asad Charles Taylor and others who have engaged the issue of secularism's and in socio political life The volume seeks to examine theories of secularism secularity and examine concrete ethnographic cases in order to further the theoretical discussion Whereas Taylor's magisterial work draws up the conditions and problems of a belief in God in Western modernity it leaves unexplored the challenges posed by the spiritual in modernity outside of the North Atlantic rim This anthology seeks to begin that task It does so by suggesting that the kind of secularity described by Taylor is only one amongst others By attending to the shifting relationship between proper religion and bad faiths between politically valorised and embarrassing spiritual phenomena between the new visibilities and silences of magic ancestors and religion in democratic politics this book seeks to outline the particular formations of secularism that have become possible in Asia from China to Indonesia and from Bahrain to Timor Leste This book will appeal to students and scholars of Asian religion politics and anthropology *Bangkok after Dark* Benjamin Tausig,2025-03-28

Lüse,2009-01-14 The edited volume elaborates on a range of themes that emerged during a workshop of the 8th biennial of the European Association of Social Anthropologists in Vienna in 2004 Among these themes are the paradoxical permanence of transition in post communist countries the accompanying persistence of social suffering and the structural conditions that give rise to it A final theme focuses on the resources that people mobilize to cope with suffering and trauma Ways of coping manifest a stance towards agency shared by sufferers from diverse post communist regions such as ethnically divided Croatia politically and economically unstable Zimbabwe relatively more peaceful countries such as Hungary Poland and Slovenia and finally two religiously unique areas in Siberia Russia Ethnographic accounts from these diverse settings testify that agency has often involved relinquishing reliance on one's self and turning towards a power higher than the self whether this is conceptualized through the lens of transcendence religion or cosmology **American Learned Men and Women with**

Czechoslovak Roots Mila Rechcigl,2020-11-18 Apart from a few articles no comprehensive study has been written about the learned men and women in America with Czechoslovak roots That's what this compendium is all about with the focus on immigration from the period of mass migration and beyond irrespective whether they were born in their European ancestral homes or whether they have descended from them Czech and Slovak immigrants including Bohemian Jews have brought to the New World their talents their ingenuity their technical skills their scientific knowhow and their humanistic and spiritual upbringing reflecting upon the richness of their culture and traditions developed throughout centuries in their ancestral home This accounts for the remarkable success and achievements of these settlers in their new home transcending through their descendants as this monograph demonstrates The monograph has been organized into sections by subject areas i.e. Scholars Social Scientists Biological Scientists and Physical Scientists Each individual entry is usually accompanied with literature and additional biographical sources for readers who wish to pursue a deeper study The selection of individuals has been strictly based on geographical ground without regards to their native language or ethnic background This was because under the Habsburg rule the official language was German and any nationalistic aspirations were not tolerated Consequently it would be virtually impossible to determine their innate ethnic roots or how the respective individuals felt Doing it in any other way would be a mere guessing and thus less objective **The Funeral Casino** Alan Klima,2010 **Dispo\$able**
