Funhouse Mirror Reflections On Prison:

The Funhouse Mirror Robert Ellis Gordon, 2000 Prisons are hard places to get into and harder yet to get out of writes Robert Ellis Gordon as he takes you on a remarkable eight year journey into the Washington State corrections system As a writing teacher in the state s prisons from 1989 until 1998 Gordon had the unique experience of gaining access to the system s darkest realms while still being free to walk away from penitentiary confines at the end of the day His account is aided by essays and stories contributed by six extraordinary inmates works that give this book an unforgettable edge Together Gordon and his students provide revealing glimpses of this vast secret laden subculture of incarcerated individuals which nationwide comprises more than two million U S citizens Here is a gallery of portraits of prison life from the female guard who tantalizes male inmates with her sexuality to the terrified young fish trying to stave off other prisoners The stories are jarring harsh compelling A surprising and frequently searing examination of the prison experience seen from both inside and out memorable and gripping Kirkus Reviews

The Prison as Metaphor Michael P. Marks, 2004 Whether wittingly or unwittingly scholars of international relations have peppered the field with a wide range of metaphors that serve as vehicles for theorizing about world affairs Yet as pervasive as metaphors are in international relations theory theorists efforts to employ metaphorical imagery to suggest new ways of thinking have been haphazard and sporadic In this book Michael P Marks suggests a new metaphor with which to conceptualize international relations the modern prison Many of the same questions that are asked about the so called anarchy of the international system are also frequently asked of life among prison inmates Marks finds that lessons from inmate relations can be applied to the study of international affairs This comparison between the prison and international relations reveals how the construction of human interaction in both realms is infinitely complex

Women in Prison

Barbara H. Zaitzow, Jim Thomas, 2003 It is old news that the conditions and policies of women's prisons are different from those for incarcerated men Less evident however is how gender differences shape those policies and how gender identity and roles shape women's adaptation and resistance to prison culture and control The papers in this collection explore how the gender based attitudes that women bring to prison frame how they respond to the prison environment and how gender stereotypes continue to affect the treatment and opportunities of incarcerated women today It looks particularly at how the personal and social problems imported into the prison setting become part of the intricate web of prison culture and how extensively women's prison experience reflects the control and domination they experienced in the outside world

Liberating Minds Ellen Condliffe Lagemann,2014-09-09 An authoritative and thought provoking argument for offering free college in prisons from the former dean of the Harvard Graduate School of Education Anthony Cardenas was a stickup artist in the Bronx before spending seventeen years in prison Today he is a senior manager at a recycling plant in Westchester New York He attributes his ability

to turn his life around to the college degree he earned in prison Many college in prison graduates achieve similar success and the positive ripple effects for their families and communities and for the country as a whole are dramatic College in prison programs have been shown to greatly reduce recidivism They increase post prison employment allowing the formerly incarcerated to better support their families and to reintegrate successfully into their communities College programs also decrease violence within prisons improving conditions for both correction officers and the incarcerated Liberating Minds eloquently makes the case for these benefits and also illustrates them through the stories of formerly incarcerated college students As the country confronts its legacy of over incarceration college in prison provides a corrective on the path back to a more democratic and humane society Lagemann includes intensive research but her most powerful supporting evidence comes from the anecdotes of former prisoners who have become published poets social workers and nonprofit leaders Publishers Weekly

A Book About Books, Volume III of III E. H. Bernstein, 2024-11-13 This book is Volume III of a three volume book plus accompanying website www.bookaboutbooks.com which adds to subjects already in the book or presents some books and subjects not contained in the books The other volumes are available from the same booksellers as this volume A Book about Books discusses what nonfiction books and subjects the author believes are important to know about This book tries to point to problems in how we live and to see if books have any answers Even though the books are complete the author will update the website periodically in the future E H Bernstein is a former librarian turned author The subtitle of the book describes the author's objective A handbook in three volumes to a choice of essential books writers and subjects in order to understand the world we live in about big questions and possible answers about books and writers that may improve people's lives about neglected writers and other books and subjects A Book about Books attempts to share what the author has learned from nearly 50 years of nonfiction reading and to provide the reader with samples of the most important authors and subjects from that reading While the book is based on research it is intended to be a handbook or guide by trying to

make that research understandable to the general reader and to students and for teachers by pointing to what the author believes is missing from today's education. A curriculum proposal for college teachers is on the author's website. Note about how the volumes are related: each chapter is on a separate subject. So the chapters can be read individually but the full message requires reading all the volumes. Volume I is important but preliminary to the more important Volumes II and III. Note also that the book is not just about books since other sources are also mentioned. The author believes we should listen to many voices so the book draws on many types of writers from different times and countries. The author says: A contemporary writer once said that one of the purposes of writing is that books should be useful. I hope that my book will be of use.
