Correspondence Relative to the Earl of Elgin's Special Missions to China and Japan, 1857-1859 Great Britain. Foreign Office,James Bruce Earl of Elgin,1859 *Heartbroke Bay* Lynn D'urso,2010-11-02 A powerful literary debut inspired by a true story In 1898 Alaska is an untamed wilderness with an unforgiving climate At the tail end of a world wide depression thousands of destitute people are drawn north by rumors of easy wealth coming out of the remote claims of the Gold Rush Many of the pilgrims are unprepared for the hardships that await them and find nothing but a desolate landscape already pillaged of its riches by those who came before Hannah Nelson a beautiful young Englishwoman is one of the late arrivals After following her husband to a glacier wracked fjord in the company of three equally desperate men she discovers that gold is only one of the desires that can consume a person s soul

Plagues, Apocalypses and Bug-Eyed Monsters Heather Urbanski,2015-01-24 Speculative fiction both science fiction and fantasy reflects among other things the fears of the culture that created it contributing perhaps unconsciously to our efforts to prevent our fears from coming true While the names and media change over time the themes of speculative fiction have a long history Nineteenth century works such as Frankenstein and The Invisible Man contain many of the same messages as the more modern tales of Terminator Jurassic Park and even Buffy the Vampire Slayer although almost a century separates their creation This critical study discusses the ways in which speculative fiction reflects societal fears and analyzes how such cautionary tales contribute to society s efforts to avoid the realization of these fears Beginning with a discussion of the nature of speculative fiction it takes a look at the characteristics of the cautionary tale The core of the book however is the concept of the Nightmares Model which examines and categorizes the repetition of specific themes within the genre The dangers of science and technology the perils of power and the threat of the unknown are discussed as recurrent themes within a variety of works in prose film and television Works analyzed range from Twenty Thousand Leagues Under the Sea to 2001 A Space Odyssey to The Blair Witch Project Sources include the author s own observations as a member of the genre s fandom a variety of published commentaries and the perspectives of contemporary professionals gained through personal interviews and panel discussions
