From Patron To Partner The Development Of U S Korean Business And Trade Relations:

From Patron to Partner Karl Moskowitz,1984 Corporatism and Korean Capitalism Dennis L. McNamara,2012-10-02
Corporatism and Korean Capitalism employs corporatist theory to examine the Korean experience of state business ties It includes theoretical chapters on Asian and Korean corporatism case studies of agriculture industry and industrial relations and an introduction to comparative corporatism It helps to push the study of Korean political and economic change from description on to theoretical analysis This volume will challenge researchers and students of Asian studies economics and politics to extend and refine their understanding of both corporatism and Korea Moreover this book offers a guide to policymakers confounded by the curious mix of collusion and competition in Korean political economy Making Capitalism
Roger L. Janelli,Dawnhee Yim,1995-03-01 This pathbreaking work extends the boundaries of contemporary anthropological research by presenting in one cohesive meticulously researched work an original theoretical perspective on the relationships between the cultural political and economic dimensions of a large modern business organization the first anthropological work on South Korean management and its white collar workers in a case study of one of South Korea s big four conglomerates and an innovative delineation of how modern business practices are enmeshed in past and present structure and agency and local and international systems Based largely on the author s nine months of participant observation in the offices of one of South Korea s largest conglomerates with annual sales of about 15 billion and approximately 80 000 employees the book is also enriched by the author s previous fieldwork in rural Korea where many of the conglomerate s white collar personnel spent their formative years These vantage points are used to explore constructions of traditional Korean culture and transformations of cultural knowledge prompted by new political economic conditions and how both inform practices prevailing in the large conglomerates and ultimately shape South Korea s capitalism The work focuses on South Korea s new middle class It explains how office workers identities and often contradictory interests present them with choices between alternative interpretations and actions affecting both themselves and their conglomerates Much attention is paid to ideological and more coercive means of controlling white collar employees to subordinates strategies of resistance and to ways in which cultural understandings and moral claims inform the assessment and pursuit of material advantage
Race to the Swift Jung-en Woo,Meredith Woo-Cumings,1991 A comprehensive and original account of the rise of Korea s developmental state Race to the Swift by Jung en Woo argues that Korea s industrial growth is neither a miracle nor a cultural mystery but the outcome of a previously misunderstood political economy *Education and Social Change in Korea*
Don Adams,Esther E. Gottlieb,2017-12-12 This book first published in 1993 provides students and scholars with an introduction to Korean education and the dynamics of interchange between the educational system and rapidly changing Korean society Severe political social and educational problems may be found in modern Korea these conditions together with certain persistent issues pertaining to the purposes structure and pedagogical characteristics of schooling make for

serious contemporary debate Handbook of Research on Asian Business Henry Wai-Chung Yeung, 2007 This volume is excellent Students who are interested in Asian business should read it and will find the comprehensive bibliography offered by the different contributors very helpful In light of the recent global financial crises it is time to re examine the Asian miracles as well as the Western models of business organizations and regulations This volume offers great insights not just on Asian business but also on Western economies and business It is also time to adopt an integrative approach recommended by Yeung through comparative research of businesses and economies in different institutions and cultures Yifei Sun Economic Geography An absolute must have for college library reference shelves filled cover to cover with keen analyses that any businessperson seeking to make inroads in an Asian market needs to study at length Midwest Book Review This book serves as an important guide to the many fascinating research questions about Asian business waiting to be addressed The study of Asian business has reached equality in importance to the study of business in Europe and North America Researchers who study any of these regions have an incentive to follow the study of business in the other regions if for no other reason than that many global firms from each region operate in all regions now Nonetheless the more important reason for knowledge transfer among researchers of each region is that these exchanges can only advance everyone's research Henry Yeung and the contributors are to be thanked for setting out a rich agenda for research on Asian business that will elevate this study to equality with research elsewhere in the world Eurasian Geography and Economics This book is extremely comprehensive and well researched It will be of particular interest to scholars in the fields of international business development studies economic geography regional studies as well as international and national policymakers Science Technology Society The rise of Asia as an important region for global business has been widely recognized as one of the most significant economic phenomena in the new millennium This accessible and comprehensive Handbook brings together state of the art reviews of Asian business in an expansive range of areas including business organizations strategic management marketing state business relations business and development business policy issues It is argued that whilst academic studies on Asian business have been in existence for over two decades there is relatively little systematic integration of our knowledge and research on Asian business The contributors drawn from a variety of disciplines within the social sciences aim to redress the balance with their lively cutting edge discussion Serving as a timely overview of more than two decades of scholarly research this Handbook will be an essential resource for academics students and researchers interested in Asian business Policy and Economic Performance in Divided Korea during the Cold War Era: 1945-91 Nicholas Eberstadt, 2010-03-16 In Policy and Economic Performance in Divided Korea during the Cold War Era 1945-91 Eberstadt presents an impressive compilation of hard to find comparative data on economic performance for the Democratic People's Republic of Korea DPRK or North Korea and the Republic of Korea ROK or South Korea over two critical generations By a number of indicators Eberstadt argues Kim Il Sung's North Korea actually outperformed South Korea for

much of this period not only in the years immediately following partition but perhaps also into the 1970s The Four Little Dragons Ezra F. Vogel,1991 Vogel brings masterly insight to the underlying question of why Japan and the little dragons Taiwan South Korea Hong Kong and Singapore have been so extraordinarily successful in industrializing while other developing countries have not **Nation Building in South Korea** Gregg A. Brazinsky,2009-11-20 In this ambitious and innovative study Gregg Brazinsky examines American nation building in South Korea during the Cold War Marshaling a vast array of new American and Korean sources he explains why South Korea was one of the few postcolonial nations that achieved rapid economic development and democratization by the end of the twentieth century Brazinsky contends that a distinctive combination of American initiatives and Korean agency enabled South Korea's stunning transformation On one hand Americans supported the emergence of a developmental autocracy that spurred economic growth in a highly authoritarian manner On the other hand Americans sought to encourage democratization from the bottom up by fashioning new institutions and promoting a dialogue about modernization and development Expanding the framework of traditional diplomatic history Brazinsky examines not only state to state relations but also the social and cultural interactions between Americans and South Koreans He shows how Koreans adapted resisted and transformed American influence and promoted socioeconomic change that suited their own aspirations Ultimately Brazinsky argues Koreans capacity to tailor American institutions and ideas to their own purposes was the most important factor in the making of a democratic South Korea

Nation Building in South Korea , The Republic Of Korea David I Steinberg,2019-07-09 This book concentrates on the process of economic growth for which Korea today is renowned It examines some of the salient forces that helped to produce Korea's remarkable change and explores the evolution of the class structure in Korea and the changes it is now experiencing The Koreans Donald S Macdonald,2018-02-19 In this new edition Donald Clark has thoroughly revised and updated Donald Macdonald's widely praised introduction to Korea describing and assessing the volatile and dramatic developments on the peninsula over the last five years Remaining true to Macdonald's original conception Clark has reworked the existing text from the perspective of the mid 1990s to take account of the enormous political and economic changes in South Korea the evolving relationship between North and South and the implications of North Korea's leadership transition and nuclear capability *The Changing Politics of Finance in Korea and Thailand* Xiaoke Zhang,2003-08-29 This is the first systematic attempt to explore the causal relationship between financial market reform and financial crisis in an interdisciplinary and comparative perspective It examines the political underpinnings of financial policy change and provides an in depth analysis of market liberalisation processes and their impact on the economic turmoil of 1997-98 in Korea and Thailand The common crisis stemmed from divergent reform patterns and originated from dissimilar institutional deficiencies and political constraints The book will be essential reading for both policy makers and academics concerned with national governance in an era of globalisation *Global Competitiveness and Industrial Growth in Taiwan and the Philippines*

Cheng-Tian Kuo,2010-11-23 Kuo contrasts the economic evolutions of Taiwan and the Philippines as the product of government and industry relations The two nations shared many economic similarities yet Taiwan moved from clientelism to state corporatism while in the Philippines clientelism remains deeply entrenched Kuo s case studies in the textile plywood and electronics industries support these general arguments He finds that clientelism invariably leads to economic problems while a laissez faire approach is unpredictable The best formula for industrial success in a developing nation is close cooperation between business and government South Korea Andrea Matles Savada,William Shaw,1997-07 Describes and analyzes South Korea s political economic social and national security systems and institutions Examines the inter relationships of those systems and the ways they are shaped by cultural factors Provides a basic understanding of the observed society striving for a dynamic portrayal Particular attention is devoted to the people who make up the society their origins dominant beliefs and values their common interests and the issues on which they are divided the nature and extent of their involvement with national institutions and their attitudes toward each other and toward their social system and political order **Commerce and Capitalism in Chinese Societies** Gary G. Hamilton,2006-05-24 Consisting of sixteen articles which together provide historical comparative and theoretically informed perspectives on the spread of Chinese capitalism this collection emphasizes the difference between Western and Chinese forms of capitalism **Shaping Competitive Advantages** Wolfgang Hillebrand,1996 This work takes a look at the governance patterns and management concepts adopted in leading OECD countries and advanced developing countries ADCs such as Korea Industrial Technology Development in Malaysia Greg Felker,K. S. Jomo,Rajah Rasiah,2013-02-01 This book and its companion Technology Competitiveness and the State examine and evaluate Malaysian industrialization in terms of its experience of and prospects for industrial technology development The focus is on the development of Malaysia s technological industrial base from a sector and firm specific perspective including the role of foreign multinationals in this process Industrial Technology Development in Malaysia provides a valuable analysis of the technological development of a Newly Industrializing Country and reflects on whether existing development strategies can be maintained in the wake of the financial crises sweeping the East Asian economies **Nation Building in South Korea (Volume 2 of 2) (EasyRead Super Large 20pt Edition) , Business Systems in East Asia** Professor Richard Whitley,1992-07-27 In this major contribution to comparative international business Richard Whitley compares and contrasts the dominant characteristics of firms and markets in Japan South Korea Taiwan and Hong Kong relating these to their particular social political and economic contexts At the level of the firm he looks at such areas as management styles and structures decision making processes owner employee relations and patterns of company growth and development He also discusses market development customer supplier and inter firm relations and the roles of the financial sectors and the state in market and industry development The book also examines the ways in which key social institutions in each country have affected the evolution of business Finally the author makes a

comparison of East Asian business systems with dominant Western practices
