Mednick, 2012-12-06 This book presents reviews of the literature and reports of new findings from research into biological correlates of criminal behavior The chapters are revised versions of talks given by participants in an Advanced Study Institute sponsored by the North Atlantic Treaty Organization and held in Castelvecchio Pascoli in September 1986 It is our second edited volume on biology and crime The first book *The Causes of Crime: New Biological Approaches* was published in 1987 In the preface to that book we described the regrettable history of the pseudobiological research into social problems conducted by the Social Darwinists at the turn of the century We requested that that unfortunate legacy not inhibit responsible and scientifically sound investigations of biological and psychological variables in criminology today Evidence is mounting that shows that research limited to social and environmental variables cannot explain the behavior of the minority of criminal offenders whose criminal careers begin in adolescence and develop into recidivistic and violent assaults on society Certainly these offenders are few but epidemiological studies have found them to be responsible for an amount of crimes disproportionate to their small numbers As few 5 % of males commit over 50% of criminal offenses Intervention directed at these relatively few individuals could if successful dramatically reduce our growing violent crime rate The chapters in our earlier book showed that some biological variables do relate to this type of chronic offending      **Report of the United States National Museum ...** United States National Museum, 1901      **Report of the United States National Museum Under the Direction of the Smithsonian Institution for the Year ...** United States National Museum, 1901      *Annual Report of the Board of Regents of the Smithsonian Institution* Smithsonian Institution, 1901 Reports for 1884 1886 87 issued in 2 pts pt 2 being the Report of the National Museum      Report Upon the Condition and Progress of the U.S. National Museum During the Year Ending June 30 ...
