# From Reliable Sources An Introduction To Historical Methods

**Mike Jess**

## **From Reliable Sources An Introduction To Historical Methods:**

**From Reliable Sources** Martha C. Howell, Walter Prevenier, 2001 A lively introduction to historical methodology an overview of the techniques historians must master in order to reconstruct the past **Handbook of Historical Methods for Management** Stephanie Decker, William M. Foster, Elena Giovannoni, 2023-07-01 The Handbook of Historical Methods for Management offers an invaluable compendium for researchers seeking to expand their methodological toolkit It showcases a variety of interdisciplinary approaches to the study of management provides both practical guidance and conceptual insights and offers a wide ranging picture of historical techniques for management *The Holocaust and Historical Methodology* Dan Stone, 2012 This book is timely and necessary and often extremely challenging It brings together an impressive cast of scholars spanning several academic generations Anyone interested in writing about the Holocaust should read this book and consider the implications of what is written here for their own work There seems to me little doubt that Holocaust history writing stands at something of a cross roads and the ways forward that this volume points to are extremely thought provoking Tom Lawson University of Winchester *The Essential Guide to Writing History Essays* Katherine Pickering Antonova, 2020 The Essential Guide to Writing History Essays is a step by step guide to the typical assignments of any undergraduate or master s level history program in North America Effective writing is a process of discovery achieved through the continual act of making choices what to include or exclude how to order elements and which style to choose each according to the author s goals and the intended audience The book integrates reading and specialized vocabulary with writing and revision and addresses the evolving nature of digital media while teaching the terms and logic of traditional sources and the reasons for citation as well as the styles This approach to writing not only helps students produce an effective final product and build from writing simple short essays to completing a full research thesis it also teaches students why and how an essay is effective empowering them to approach new writing challenges with the freedom to find their own voice **Alternative Historiographies of the Digital Humanities** Dorothy Kim, Adeline Koh, 2021 Alternative Historiographies of the Digital Humanities examines the process of history in the narrative of the digital humanities and deconstructs its history as a straight line from the beginnings of humanities computing By discussing alternatives histories of the digital humanities that address queer gaming feminist game studies praxis Cold War military industrial complex computation the creation of the environmental humanities monolingual discontent in DH the hidden history of DH in English studies radical media praxis cultural studies and DH indigenous futurities Pacific Rim post colonial DH the issue of scale and DH the radical indigenous feminist histories of the digital database and the possibilities for an antifascist DH this collection hopes to re set discussions of the DH straight white origin myths Thus this collection hopes to reexamine the silences in such a straight and white masculinist history and how power comes into play to shape this straight white DH narrative Page 4 of cover **English Language Teaching during Japan's Post-war Occupation** Mayumi Ohara, John Buchanan, 2018-06-27

In 1945 Japan had to adjust very rapidly to sudden defeat to the arrival of the American Occupation and to the encounter with the English language together with a different outlook on many aspects of society and government This scholarly book is based on in depth interviews with people now aged who were school students at the time of the Occupation and who experienced first hand this immense cultural change The book considers the nature of the changing outlook including democratization the new role for the Japanese Emperor and all this represented for the place of tradition in Japanese life and the growing emphasis on individualism away from collectivism It discusses the changing system of education itself including new structures and new textbooks and relates the feelings of the participants as they came to terms with defeat and the language and culture of the former enemy Overall the book provides a fascinating insight into a key period of Japanese history

*The Routledge Companion to Qualitative Research in Organization Studies* Raza Mir, Sanjay Jain, 2017-08-29 This comprehensive book collects contributions from leading international scholars to highlight the diverse qualitative approaches available to organizational researchers each grounded in its own philosophy The editors provide a cutting edge globally oriented resource on the state of qualitative research methodologies helping readers to grasp the theories practices and future of the field Beginning with an overview of qualitative methodologies the book examines ways in which research employing these techniques is conducted in a variety of disciplines including entrepreneurship innovation strategy information systems and organizational behavior It offers timely updates on how traditions like case studies ethnographies historical methods narrative approaches and critical research are practiced today and how emerging trends including increasing legitimacy and feminization are impacting the domain The final chapters provide templates for engaging with the future as well as essays that critically assess how qualitative inquiry has evolved within organization studies Readers will become acquainted with contemporary tools for conducting qualitative studies learning to appreciate the emerging domains of qualitative inquiry within a dynamic and complex organizational world Doctoral students and early career researchers in organizational studies especially those engaged with general management organizational behavior human resource management innovation entrepreneurship and strategy will benefit from reading this relevant and inclusive handbook

*Methods in the Philosophy of Science* Sophie J Veigl, Adrian Currie, 2025-07-15 A guidebook to methods and methodology encouraging deeper engagement across the philosophy of science and beyond The last twenty years have seen multiple methodological revolutions in the philosophy of science There has been increased diversity concerning the questions asked who asks those questions who the relevant audiences are and what the techniques and tools involved are In *Methods in the Philosophy of Science A User's Guide* Sophie Veigl and Adrian Currie introduce this range of methods through both practical advice and philosophical reflection Each chapter introduces the reader to a method or set of methods in the philosophy of science discusses its advantages and limitations and provides practical guidance on how to learn skills relevant to applying the method The volume fulfills several critical roles First by introducing and discussing methods in the philosophy of science

the collection increases philosophers awareness of methodological options of particular importance for younger scholars who are often not exposed to the diversity of practice Second the collection s practical focus will aid established philosophers in diversifying their own methodological toolkits Third collecting this diversity serves as a ground for philosophical reflection on what we as philosophers take ourselves to be capable of Fourth the collection hopes to increase interdisciplinary links between philosophy and other fields by laying clear the methodological continuity and complement between them *Dating Acts in its Jewish and Greco-Roman Contexts* Karl Leslie Armstrong,2021-01-14 There has been consistent apathy in recent years with regard to the long standing debate surrounding the date of Acts While the so called majority of scholars over the past century have been lulled into thinking that Acts was written between 70 and 90 CE the vast majority of recent scholarship is unanimously adamant that this middle range date is a convenient political compromise Karl Armstrong argues that a large part of the problem relates to a remarkable neglect of historical textual and source critical matters Compounding the problem further are the methodological flaws among the approaches to the middle and late date of Acts Armstrong thus demonstrates that a historiographical approach to the debate offers a strong framework for evaluating primary and secondary sources relating to the book of Acts By using a historiographical approach along with the support of modern principles of textual criticism and linguistics the historical context of Acts is determined to be concurrent with a date of 62 63 CE

**The Oxford Handbook of Identities in Organizations** Andrew D. Brown,2020-01-09 Conceived as the meanings that individuals attach to their selves a substantial stockpile of theory related to identities accumulated across the arts social sciences and humanities over many decades continues to nourish contemporary research on self identities in organizations In times which are more reflexive narcissistic and fluid the identities of participants in organizations are increasingly less fixed and less certain making identity issues both more salient and more interesting Particular attention has been given to processes of identity construction often styled identity work Research has focused on how why and when such processes occur and their implications for organizing and individual group and organizational outcomes This has resulted in a burgeoning stream of research from discursive dramaturgical symbolic socio cognitive and psychodynamic perspectives that most often casts individuals efforts to fabricate identities as intentional relational and consequential Seemingly intractable debates centred on the nature of identities their relative stability or fluidity whether they are best regarded as coherent or fractured positive or not and how they are fabricated within relations of power combined with other conceptual issues continue to invigorate the field However these debates have also led to some scepticism regarding the future potential of identities research Yet as the chapters in this Handbook demonstrate there are considerable grounds for optimism that identity as root metaphor nexus concept and means to bridge levels of analysis has significant potential to generate multiple compelling streams of theorizing in organization and management studies

**Dance on Its Own Terms** Melanie Bales,Karen Eliot,2013-06-13 *Dance on its Own Terms* Histories and Methodologies anthologizes a wide range of subjects

examined from dance centered methodologies modes of research that are emergent based in relevant systems of movement analysis use primary sources and rely on critical informed observation of movement The anthology fills a gap in current scholarship by emphasizing dance history and core disciplinary knowledge rather than theories imported from disciplines outside dance Individual chapters serve as case studies that are further organized into three categories of significant dance activity performance and reconstruction pedagogy and choreographic process and notational and other written forms that analyze and document dance The breadth of the content reflects the richness and vibrancy of the dance field each deeply informed examination serves as a window opening onto the larger world of dance Conceptually each chapter also raises concerns and questions that point to broadly inclusive methodological applications Engaging and insightful Dance on its Own Terms represents a major contribution to research on dance *Radical Philosophy of Life* Ernst Baasland, 2021-01-13 The Sermon on the Mount never ceases to challenge readers in every generation New methods and new insights into new surroundings have to be applied to the most influential speech ever given In this study Ernst Baasland takes a fresh look at the history of research done on it both on its broad influence and on the variety of interpretations The historical questions are seen from new perspectives Is orality the key to a better understanding To what extent can we reconstruct a pre text and the question of authenticity be answered These questions are seen through historiographical lenses The author argues in favour of a universal addressee and maintains that the speech contains radical philosophical thinking The first audience consisted of Jews and the religiously based understanding of life is conceived within Judaism However its ethics of wisdom is developed in a Hellenistic setting and provides a radical philosophy of life **Completing a Professional Practice**

**Dissertation** Jerry W. Willis, Ron Valenti, Deborah Inman, 2010-06-01 A growing number of both established and newly developed doctoral programs are focusing on the preparation of practitioners rather than career researchers Professional doctorates such as the Doctor of Nursing Practice DNP Doctor of Education EdD Doctor of Pharmacy PharmD Doctor of Professional Studies DProf or DPS and the Doctor of Psychology PsyD are in fact just a few of the professional doctorates being offered today Professional doctorates are the fastest growing segment of doctoral education The nature of the dissertation and the process of completing a dissertation can be quite different in a professional practice doctoral program but there are few resources for both students and faculty involved in completing and mentoring such dissertations This book was written specifically for students and faculty involved in professional practice dissertation work It addresses both the tasks and procedures that professional practice dissertations have in common with dissertations in research doctoral programs as well as the tasks and issues that are more common in professional practice doctoral programs For example negotiating entry into applied settings and securing the cooperation of practicing professionals is covered as are alternative models for the dissertation e g the three article dissertation or TAD The book also covers tasks such as getting IRB approval for applied dissertation research conducted in the field and how to propose and carry out studies based on applied and

professional models of research This book written by three experienced mentors of professional practice dissertation students is the comprehensive guide for both students and faculty      **Interdisciplinary Research** Allen F. Repko, Rick Szostak, 2016-03-31 The Third Edition of Interdisciplinary Research Process and Theory offers a comprehensive and systematic presentation of the interdisciplinary research process and the theory that informs it Authors Allen F Repko and Rick Szostak illustrate each step of the decision making process by drawing on student and professional work from the natural sciences social sciences humanities and applied fields Designed for active learning and problem based approaches as well as for more traditional approaches the book now includes more examples from real student research projects and adds more tables and figures to enliven the discussion      **From History to Theory** Kerwin Lee Klein, 2011-05-19 From History to Theory describes major changes in the conceptual language of the humanities particularly in the discourse of history In seven beautifully written closely related essays Kerwin Lee Klein traces the development of academic vocabularies through the dynamically shifting cultural political and linguistic landscapes of the twentieth century He considers the rise and fall of philosophy of history and discusses past attempts to imbue historical discourse with scientific precision He explores the development of the meta narrative and the post Marxist view of history and shows how the present resurgence of old words such as memory in new contexts is providing a way to address marginalized peoples In analyzing linguistic changes in the North American academy From History to Theory innovatively ties semantic shifts in academic discourse to key trends in American society culture and politics      *Art as a Pathway to God* Susangeline Yalili Patrick, 2024-04-22 This book integrates history theology and art and analyzes the Jesuits cross cultural mission in late imperial China Readers will find a rich collection of resources from historical sites museums manuscripts and archival materials including previous unpublished works of art The production and circulation of art from different historical periods and categories show the artistic theological and missional values of Christian art It highlights European Jesuits Asian Christians transnationalism and gives voice to Chinese Christian women and their patronage of art in the seventeenth century It offers a rare systematic study of the relation between art and mission history      **The Oxford Handbook of Multimethod and Mixed Methods Research Inquiry** Sharlene Nagy Hesse-Biber, R. Burke Johnson, 2015-06-04 Offering a variety of innovative methods and tools The Oxford Handbook of Multimethod and Mixed Methods Research Inquiry provides the most comprehensive and up to date presentation on multi and mixed methods research available Written in clear and concise language by leading scholars in the field it enhances and disrupts traditional ways of asking and addressing complex research questions Topics include an overview of theory paradigms and scientific inquiry a guide to conducting a multi and mixed methods research study from start to finish current uses of multi and mixed methods research across academic disciplines and research fields the latest technologies and how they can be incorporated into study design and a presentation of multiple perspectives on the key remaining debates Each chapter in the volume is structured to include state of the art research examples that cross a range

of disciplines and interdisciplinary research settings In addition the Handbook offers multiple quantitative and qualitative theoretical and interdisciplinary visions and praxis Researchers faculty graduate students and policy makers will appreciate the exceptional timely and critical coverage in this Handbook which deftly addresses the interdisciplinary and complex questions that a diverse set of research communities are facing today [Authenticating Criteria in Jesus Research and Beyond](#) Kevin B. Burr,2023-10-16 Are the criteria of authenticity of Jesus research idiosyncratic to New Testament studies vehicles of subjectivity and fundamentally flawed vestiges of form criticism as some claim today If so why do opponents of the criteria approach still use them Or are the criteria the tools of general historiography as others assert If true none have adequately demonstrated where and how principles such as multiple attestation general and historical coherence dissimilarity and embarrassment feature in general historiographic method until now This study analyzes the methods of general historians and Jesus researchers who favor or oppose the criteria and demonstrates that regardless of sub discipline authenticating criteria are inherent to the practice of historiography [Rewriting Ancient Jewish History](#) Amram Tropper,2016-04-20 Half a century ago the primary contours of the history of the Jews in Roman times were not subject to much debate This standard account collapsed however when a handful of insights undermined the traditional historical method the method long enlisted by historians for eliciting facts from sources In response to these insights a new historical method gradually emerged Rewriting Ancient Jewish History critiques the traditional historical method and makes a case for the new one illustrating how to write anew ancient Jewish history At the heart of the traditional historical method lie three fundamental presumptions The traditional historical method regularly presumes that multiple versions of a text or tradition are equally authentic it presumes that many ancient Jewish sources are the products of largely immanent forces of cloistered Jewish communities and barring any local grounds for suspicion it presumes that most ancient Jewish texts faithfully reflect their sources and reliably recount events Rewriting Ancient Jewish History unfurls the failings of this approach it promotes the new historical method which circumvents the flawed traditional presumptions while plotting anew the limits of rational argumentation in historical inquiry This crucial reappraisal is a must read for students of Jewish and Roman history alike and a fascinating case study in how historians should approach their ancient sources **Research within the Disciplines** Peggy Keeran,Michael Levine-Clark,2014-04-28 Research within the Disciplines is designed to help reference librarians and students studying to become librarians gain that deeper understanding of disciplinary differences that allows them to comfortably solve information needs rather than merely responding to questions and practical knowledge about how to work with researchers in a library setting The book has three chapters that cover the disciplines at the broadest level humanities social sciences and sciences plus supplemental chapters that focus on associated disciplines research in history business and engineering research using government sources and across disciplines interdisciplinary and critical information literacy For the second edition of Research within the Disciplines several chapters have been added that together give a broader and

deeper overview of research across all subject areas research practices of creative and performing artists and of clinical scientists research in international documents research strategies for foreign language materials and visual literacy across the disciplines Major shifts in technology have been accounted for that have changed how we do research and have expanded the range of resources available to researchers in all disciplines All of the chapters have been rewritten or heavily revised this is much more a new book than a new edition
