Front Line Leadership:

The Front-Line Leader Chris Van Gorder, 2014-10-10 Real leadership that leads to high engagement higher performance and a culture of accountability As president and CEO of Scripps Health one of America's most prestigious health systems Chris Van Gorder presided over a dramatic turnaround catapulting Scripps from near bankruptcy to a dominant market position While hospitals and health systems nationwide have laid people off or are closing their doors Scripps is financially healthy has added thousands of employees even with a no layoff philosophy and has developed a reputation as a top employer What are the secrets to this remarkable story In The Front Line Leader Chris Van Gorder candidly shares his own incredible story from police officer to CEO and the leadership philosophy that drives all of his decisions and actions people come first Van Gorder began his unlikely career as a California police officer which deeply instilled in him a sense of social responsibility honesty and public service After being injured on the job and taking an early retirement Van Gorder had to reinvent himself taking a job as a hospital security director a job that would change his life Through hard work and determination he rose to executive ranks eventually becoming CEO of Scripps But he never forgot his own roots and powerful work ethic or the time when he was a security officer and a CEO would not make eye contact with him Van Gorder leads from the front lines making it a priority to know his employees and customers at every level His values learned on the force protecting the community educating citizens developing caring relationships and ultimately doing the right thing shape his approach to business As much as companies talk about accountability managers seldom understand what practical steps to take to achieve an ethic of service that makes accountability meaningful The Front Line Leader outlines specific tactics and steps anyone can use starting today to take responsibility inspire others and achieve breakout results for their organizations Van Gorder reveals how a no layoff philosophy led to higher accountability how his own attention to seemingly minor details spurred larger change and how his own high standards for himself and his team improved morale and productivity From general strategy to the tiny everyday steps leaders can take to create the kind of culture and accountability that translates into major competitive advantage The Front Line Leader charts a path to better leadership and a more engaged higher performing organization

This book is classified and organized into three major headings: personal effectiveness, leadership, and communication. It focuses on interpersonal management skills and explains what it takes to improve how frontline managers and supervisors communicate and relate to their employees and customers. *Frontline Leadership* Darrell Moyers, 2020-02-12. While mentorship does exist within the United States Air Force, there is not nearly enough of a resource to go around. The aim of this book is to provide straight-forward mentorship for those seeking frank and honest leadership advice. This advice comes from CGOs and young FGOs, those who are sitting at the forefront of officer and NCO leadership. We know what the absence of mentoring feels like in the earlier ranks; his book does not contain the pontifications or orations of senior leaders; it instead offers a more direct and candid approach, thereby avoiding the dryness found in contemporary leadership works. We, the authors, want to speak to you, the reader, the way we would speak to our mentees, the way we would speak to each other.

Transformational Leadership Edward J. Shelton PhD., 2012-10-03 Dr Shelton introduces his latest book Transformational Leadership which is an insightful review of how effective leaders develop skills behaviors and respect from those around them Transformational Leadership methods highlight the importance of individualized attention trust and relationship building by identifying preferred leadership characteristics and behaviors making it a philosophy and a way of life Transformational leadership is a powerful change agent It engages individuals leading them to change improve and participate in a meaningful way These leadership qualities are not secret and have been applied throughout history to cause willful behavior changes The results have proven to build trust kindness integrity and empowerment Effective communication motivation and courage all are examined in detail with supporting cases and antidotes Effective leadership is a learned art that creates an exemplary role model for others

Transformational leaders are respected because they put the interests of those around them before their own. These leaders inspire and stimulate critical thinking, promote team work and encourage individual development. Dr. Shelton often says people do not leave their organization; they leave their boss. Trust, motivation and engagement are leadership outcomes that separate organizations that are led by managers versus leaders. Dr. Edward Shelton is an international speaker with a powerful voice in the dialogue on leadership behavior and culture. He advanced his philosophy of Transformational Leadership development as a HR professional with international organizations that include Saudi Aramco, Oil Company, Penn State University as an assistant professor and the U.S. Army as an Infantry officer. Dr. Shelton holds a PhD in Business Administration with research in leadership and culture. Dr. Shelton introduces his latest book, Transformational Leadership, which is an insightful review of how effective leaders develop skills, behaviors and respect from those around them. Transformational Leadership methods highlight the importance of individualized attention, trust and building relationships by identifying preferred leadership characteristics and behaviors, making it a philosophy and a way of life. Transformational Leadership is filled with examples of successes and failures which provide a unique look into culture, personality disorders, constructive leadership practices and dark leadership. Motivation: People don't leave the company; they leave their boss. Don't slap the dolphin; they will never perform again. The Physician Rule: Use the least radical surgery to cure the problem. Recognition: A pat on the back is a few inches from a kick in the pants, yet the results are miles apart. See others for not what they are now but for what they can become. Trust: People will trust you if you have integrity, benevolence and you have perfected your skill. Communication: Leaders use effective communications which are expressions of affection and not anger, facts and not fabrication, compassion and not contention, respect and not ridicule, counsel and not criticism, correction and not condemnation. Their words are spoken with clarity and not with confusion. They may be tender or they may be tough but they must always be tempered. Courage: Moral courage is the willingness to stand firm on values, principles and convictions. It enables all leaders to stand up for what they believe is right regardless of the consequences. Leaders who take full responsibility for their decisions and actions even when things go wrong display moral courage. Doing nothing wrong is not the same as doing the right thing. First they came for the communists and I did not speak out because I was not a communist. Then they came for the socialists and I did not speak out because I was not a socialist. Then they came for the trade unionists and I did not speak out because I was not a trade unionist. Then they came for the Jews and I did not speak out because I was not a Jew. Then they came for me and there was no one left to speak out for me. Then they came. Martin Niemöller. Destructive Leadership: Perhaps the four most common destructive forms of communication are those of Lying. Lying will destroy a leader's integrity and trust. Integrity is the core of our character. Without integrity we have a weak foundation upon which to build other leadership characteristics. Blaming: This is a condemning communication. When people are afraid to accept accountability they begin to place the blame on others. Weak leaders tend to blame mistakes and problems on others or on

circumstances When we attempt to place responsibility for our choices on others we are responding in a leaderless manner More importantly do not allow those under you to fall into the habit of blaming encourage them to seek root causes never blame or point fingers Criticizing Positive or constructive criticism is feedback given with the purpose of helping another person to grow and to develop This is both helpful and needful and is generally accepted and appreciated Negative criticism is intended to hurt and often to defame and destroy This caustic communication is cruel and it tends to crush the character of all of those whom it is directed Anger This is perhaps the most common form of destructive communication Anger causes anguish to everyone who experiences the feeling as well as to those who are the recipients of this emotional explosion Anger shows a lack of self control and an inability to relate in a professional way to others It is a senseless substitute for self control It is sometimes used as a selfish strategy to gain control of a relationship Dr Edward Shelton is the author of *They Love You They Hate You Discovering Leadership* He is a respected international conference speaker on preferred leadership knowledge transfer and motivation Dr Sheltons work reflects a lifelong fascination of leadership as he has gained unique perspectives with his experiences that span industry academia and military *Leadership Basics for Frontline Managers* Bill Templeman, 2019-10-02 This book explains how to manage and work with people more effectively Focused on interpersonal management skills it is organized into three categories Personal Effectiveness Leadership and Communication Each chapter has been written to stand on its own and can easily be read in short time periods Each article concludes with a list of bullet points for taking action This book is ideal for frontline managers new managers and experienced managers who want to refresh their leadership skills or who are now in a position of managing a diverse group of employees **Frontline Leadership** Oklahoma.
