From Pyramid To Pillar Population Change And Social Security In Europe:

From Pyramid to Pillar International Labour Office, 1989 Undersgelse af hvordan de ldre i Europa med den gede levealder vil p virke fremtidens socialv sen **The Future of Europe's Population** Robert Cliquet, 1993-01-01 Presents information about fertility mortality and migration in Europe to show possible future developments in population age structures and sizes **Economic Transformation in Eastern Europe and the Distribution of Income** Anthony Barnes Atkinson, John Micklewright, 1992-10 This book first published in 1992 examines the distribution of income under Communism in Eastern Europe and its implications for economic transformation **Women and Social Security** Anne-Marie Brocas, Anne-Marie Cailloux, Virginie Oget, 1990 This study examines how far men and women in equivalent employment situations enjoy equal social security rights and to what extent there is a need for specific protection of women as mothers and as workers with family responsibilities **International Population Reports** , 1993 **Aging in Eastern Europe and the Former Soviet Union** Victoria Averil Velkoff, Kevin G. Kinsella, United States. Bureau of the Census, 1993 Discusses trends in the size and social conditions of the ageing population mainly from 1970 to 1992 with projections to 2025

West European Immigration and Immigrant Policy in the New Century Anthony M. Messina, 2002-06-30 Few if any phenomena affecting Western Europe as a whole since 1945 have been more far reaching in their immediate effects or more potentially destabilizing to politics and society over the long term than the accumulative experience of immigration Messina and his contributors analyze why the major immigrant receiving states of Western Europe historically permitted and often abetted relatively high levels of postwar migration and they assess how contemporary governments attempt to govern immigration flows and manage the domestic social and political fallout which it inevitably yields The central purpose of the volume is to address these questions within the context of the decision making logics that have demonstratively governed postwar migration to Western Europe in each of its three distinct but interrelated waves or phases labor migration family migration and humanitarian or forced migration Messina demonstrates that postwar migration to Western Europe in all of its phases has been governed by a set of mutually reinforcing and mostly compatible logics Of these the economic the humanitarian and the political the political has predominated over time and is likely to continue doing so into the indefinite future A major cross disciplinary analysis that will appeal to political scientists sociologists and general researchers and scholars of ethnicity race relations and comparative public policy **Stabilization and Structural Adjustment in Poland** Henryk Kierzkowski, Marek Okólski, Stanislaw H. Wellisz, 2013-04-15 The Solidarity led government which came into power in Poland in Autumn 1989 faced two enormous tasks First to stabilize an economy prone to hyperflation Second to replace a crumbling command system in favour of a market mechanism in a country whose market institutions had been destroyed under forty years of communist rule This book recounts the events of this period and the course taken by the new government and analyzes the significance of this for the transition process in Poland and elsewhere **Labor Markets and**

Social Policy in Central and Eastern Europe N. A. Barr, 1994 *The Essence of Reform* *Fiscal Implications of an Aging Population* Dieter Bös, Sijbren Cnossen, 2012-12-06 Serious research into the causes and implications of an aging population is a relatively recent phenomenon Though several relevant issues of aging have received considerable attention in public and political discussions especially in European countries and in Japan the economics profession is somewhat lacking behind This is particularly true for the theoretical underpinnings of the economics of population aging Until now the aging debate is primarily led by institutionalists The present book with its analytical and econometric studies on fiscal implications of population aging is an important step in the process of theoretical analysis of aging It is of interest both for population economists and demographers and for public economists providing a bridge between these areas of research Old Age from Antiquity to Post-Modernity Paul Johnson, Pat Thane, 2002-11-01 Based on themes such as status and welfare *Old Age from Antiquity to Post Modernity* examines the role of the elderly in history This empirical study represents a substantial contribution to both the historical understanding of old age in past societies as well as the discussion of the contribution of post modernism to historical scholarship **Training for Older People** Peter C. Plett, Brenda T. Lester, Katherine L. Yocum, 1991 **Population, Family, and Welfare** Hein G. Moors, Rossella Palomba, 1995 Family formation and fertility in practically all European countries has been subject to dramatic changes over the last 20 years What are the attitudes of Europeans towards current demographic trends Are new values goals in life and everyday needs still compatible with raising children What policies might influence current population trends Based on a comparative survey of nine European countries Austria Belgium former Czechoslovakia Germany Hungary Italy The Netherlands Spain and Switzerland this volume provides a new perspective on the impact of population related social policies by linking them to emerging values attitudes and norms in the field of family formation and parenthood The analysis demonstrates that common trends like the decline in fertility do not imply a convergence of values and lifestyles nor the presence of similar social pressures The impact of social policies is related to the phase of the family cycle the social and economic situation of the couple as well as emerging values and norms with respect to family and parenthood in a specific national context This book argues for the revision of the assumption that generally observed demographic trends all have similar causes and ask for similar policies It will be an indispensable reference tool for both researchers and policy makers Labour Information International Labour Office, 1991 This reference book provides a core list of publications in the labour field covering both reference materials and selected ILO publications in English It covers employment training labour relations labour administration working conditions and environment social security promotion of equality and workers education **The Economist**, 1854 *Averting the Old Age Crisis*, 1994 This policy oriented book identifies the issues countries should consider as they reevaluate their old income security policies and formulate new methods The choice between the various models for providing old age security has broad implications for the operation of labor and capital markets the fiscal system and the level growth and distribution of GNP The

author concludes that a mixed strategy is more effective than any single method of income security This will be an important book for international economists and policymakers

Who Pays for the Kids? Nancy Folbre, 1994-01-06 A fresh look at how women largely carry the costs of caring for themselves the children and other dependents with an analysis of individual choices within interlocking structures of constraint based on gender sex age nation race and class *Report of the Director-General* International Labour Office. Director-General, International Labour Organisation, 1992

European Economy, 1997

Social Security International Labour Office, 1992 After defining social security and giving a brief historical outline the book answers on the questions who is protected by social security and talks about nine different types of benefit The guide also covers administration and financing and special arrangements for migrant workers
