The Arab-Israeli Conflict Transformed Hemda Ben-Yehuda, Shmuel Sandler, 2012-02-01 The Middle East conflict between the state of Israel and Arab states or between Jews and Palestinians is a staple of international news Utilizing both theoretical approaches and empirical evidence Hemda Ben Yehuda and Shmuel Sandler argue that despite the recent upswing in violence particularly over the Palestinian issue conflict has gradually been giving way since the 1970s to a more orderly regime of conflict management By integrating ethnonational theoretical literature into their analysis the authors move beyond the current International Relations debate over the relative merits of realist neo realist approaches versus neo liberal institutional approaches Ethnic state disputes are the primary source for failing to terminate the Arab Israeli conflict

The Rise and Fall of the Shah Amin Saikal, 2021-07-13 On November 4 1979 when students occupied the American Embassy in Tehran and subsequently demanded that the United States return the Shah in exchange for hostages the deposed Iranian ruler's regime became the focus of worldwide scrutiny and controversy But as Amin Saikal shows this was far from the beginning of Iran's troubles Saikal examines the rule of Mohammad Reza Shah Pahlavi especially from 1953 to 1979 in the context of his regime's dependence on the United States and his dreams of transforming Iran into a world power Saikal argues that despite the Shah's early achievements his goals and policies were full of inherent contradictions and weaknesses and ultimately failed to achieve their objectives Based on government documents published and unpublished literature and interviews with officials in Iran Britain and the United States *The Rise and Fall of the Shah* critically reviews the domestic and foreign policy objectives as well as the behavior of the Shah to explain not only what happened but how and why In a new introduction Saikal reflects on what has happened in Iran since the fall of the Shah and relates Iran's past to its political present and future

Truman and MacArthur Michael D. Pearlman, 2008-03-12 *Truman and MacArthur* offers an objective and comprehensive account of the very public confrontation between a sitting president and a well known general over the military's role in the conduct of foreign policy In November 1950 with the army of the Democratic Peoples Republic of Korea mostly destroyed Chinese military forces crossed the Yalu River They routed the combined United Nations forces and pushed them on a long retreat down the Korean peninsula Hoping to strike a decisive blow that would collapse the Chinese communist regime in Beijing General Douglas MacArthur the commander of the Far East Theater pressed the administration of President Harry S Truman for authorization to launch an invasion of China across the Taiwan straits Truman refused MacArthur began to argue his case in the press a challenge to the tradition of civilian control of the military He moved his protest into the partisan political arena by supporting the Republican opposition to Truman in Congress This violated the President's fundamental tenet that war and warriors should be kept separate from politicians and electioneering On April 11

1951 he finally removed MacArthur from command Viewing these events through the eyes of the participants this book explores partisan politics in Washington and addresses the issues of the political power of military officers in an administration too weak to carry national policy on its own accord It also discusses America's relations with European allies and its position toward Formosa Taiwan the long standing root of the dispute between Truman and MacArthur **From Truman Through Johnson: Kennedy and Johnson** Herbert Druks,1971 **A Study of Crisis** Michael Brecher,Jonathan Wilkenfeld,2022-06-07 As the twentieth century draws to a close it is time to look back on an epoch of widespread turmoil including two world wars the end of the colonial era in world history and a large number of international crises and conflicts This book is designed to shed light on the causes and consequences of military security crises since the end of World War I in every region across diverse economic and political regimes and cultures The primary aim of this volume is to uncover patterns of crises conflicts and wars and thereby to contribute to the advancement of international peace and world order The culmination of more than twenty years of research by Michael Brecher and Jonathan Wilkenfeld the book analyzes crucial themes about crisis conflict and war and presents systematic knowledge about more than 400 crises thirty one protracted conflicts and almost 900 state participants The authors explore many aspects of conflict including the ethnic dimension the effect of different kinds of political regimes notably the question whether democracies are more peaceful than authoritarian regimes and the role of violence in crisis management They employ both case studies and aggregate data analysis in a Unified Model of Crisis to focus on two levels of analysis hostile interactions among states and the behavior of decision makers who must cope with the challenge posed by a threat to values time pressure and the increased likelihood that military hostilities will engulf them This book will appeal to scholars in history political science sociology and economics as well as policy makers interested in the causes and effects of crises in international relations The rich data sets will serve researchers for years to come as they probe additional aspects of crisis conflict and war in international relations Michael Brecher is R B Angus Professor of Political Science McGill University Jonathan Wilkenfeld is Professor and Chair of the Department of Government and Politics University of Maryland They are the coauthors of *Crisis in the Twentieth Century A Handbook of International Crisis* among other books and articles *From Truman Through Johnson: Truman and Eisenhower* Herbert Druks,1971 **John F. Kennedy and Israel** Herbert Druks,2005-10-30 John F Kennedy entered the White House hoping to make America and the world a better and safer place in which to live Through diplomacy he wanted to achieve a settlement of the East West tensions and to bring about a peaceful resolution to such issues as the Israeli Arab conflict Although his provision of defensive HAWK anti aircraft missiles in response to Russian French and British arms sales to the Arabs made him the first President to supply arms to Israel Kennedy feared both exacerbation of the arms race and the proliferation of nuclear weapons While he remained an honest and loyal friend to Israel he also attempted to further America's relationship with the Arab states and to encourage a settlement of the Arab refugee issue Kennedy was an independent

thinker who learned how to rely upon his own best judgment and intelligence rather than upon his father or officials like Dean Rusk or Allen Dulles Kennedy ultimately agreed to regular consultations between Israeli and American military personnel but he would not agree to a dual alliance nor would he allow America to become Israel's main source of military equipment The author contends that it was this precarious and uncertain diplomatic and military situation that encouraged Israel to develop its own defense industries and to investigate the possibilities of producing its own nuclear weapons systems

Framing China Ariane Knüsel, 2016-04-15 Framing China sheds new light on Western relations with and perceptions of China in the first half of the twentieth century In this ground breaking book Ariane Knüsel examines how China was portrayed in political debates and the media in Britain the USA and Switzerland between 1900 and 1950 By focusing on the political economic cultural and social context that led to the construction of the particular images of China in each country the author demonstrates that national interests anxieties and issues influenced the way China was framed and resulted in different portrayals of China in each country The author's meticulous analysis of a vast amount of newspaper and magazine articles commentaries editorials cartoons and newsreels that have previously not been studied before also focuses on the transnational circulation of images of China While previous publications have dealt with the occurrence of the Yellow Peril and Red Menace in particular countries Framing China reveals that these images were interpreted differently in every nation because they both reflected and contributed to the discursive construction of nationhood in each country and were
